FIRST-AID
IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 3 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.
IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth. Call a poison control center or doctor for further treatment advice.
IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.
IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice.

HOTLINE NUMBER:
Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also call 1-800-255-1924 for emergency medical treatment information.

NOTE TO PHYSICIAN:
Probable musculoskeletal damage may contraindicate the use of gastric lavage.

EMERGENCY HANDLING: In case of contamination or decomposition do not recut container. If possible, isolate container or spill and well-ventilated area. Flood with large volumes of water. Dispose of contaminated material in an approved landfill area.

PRECAUTIONARY STATEMENTS:
HAZARDS TO HUMANS AND DOMESTIC ANIMALS.
DANGER: Corrosive. Causes irreversible eye damage. Must be fatal if inhaled. Harmful if swallowed or absorbed through skin. Do not get in eyes, on skin, or on clothing. Do not breathe dust, vapor or spray mist. Wear goggles, face shield or safety glasses. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco. Remove and wash contaminated clothing before reuse.

CHEMICAL HAZARDS, DANGER: Strong oxidizing agent. Use only clean dry utensils. Mix only into water. Contamination with moisture, dirt, organic matter, or other chemicals (including other pool chemicals) or other foreign matter may alter a chemical reaction with generation of heat, liberation of hazardous gases, and possible generation of fire and explosion. Avoid any contact with flammable or burning material, such as a lighted cigarette. Do not use this product in any chlorinating device which has been used with any inorganic or acidified chlorinating compounds (e.g. calcium hypochlorite). Such use may cause fire or explosion.

ENVIRONMENTAL HAZARD: This product is toxic to fish and aquatic organisms.

STORAGE AND DISPOSAL:
Keep product dry in a tightly closed container when not in use. Store in a cool, dry, well-ventilated area away from heat or open flames. Do not reuse or refill empty containers. If empty, Nonrefillable container. Do not reuse or refill this container. Place in trash or offer for recycling, if available. If partly filled. Call your local solid waste agency or 1-888-CLEANUP (258-2368) for disposal instructions. Never place unused product down any indoor or outdoor drain.

DIRECTIONS FOR USE: It is a violation of federal law to use this product in a manner inconsistent with its labeling. This product is designed to dissolve quickly and completely providing a steady source of available chlorine to control the growth of algae, kill bacteria and destroy organic contaminants.

READ THE PRECAUTIONARY STATEMENTS BEFORE USE:
METHOD OF APPLICATION: Broadcast the product evenly over a wide area in the deepest part of the spa with water circulating.

SPA AND HOT TUB USE: Each level teaspoon (0.17 ounces) of this product will provide approximately 1.4 ppm available chlorine in 500 gallons of water. Using an appropriate test kit, test and adjust the water to the following values:
 pH 7.2-7.8, total alkalinity 60-100 ppm, calcium hardness 200 ppm maximum. Maintain these conditions for proper spa and hot tub operation by frequent testing with a test kit. Do not allow cyanuric acid level to exceed 150 ppm. It is recommended that spas and hot tubs be drained every 30-50 days. More often under heavy use. Consult manufacturer's recommendations concerning the compatibility of chlorine sanitizers with their equipment. Some oils, lotions, fragrance and cleaners may cause foaming or cloudy water and may reduce the effectiveness of chlorine sanitizers.

START-UP (FRESHLY FILLED):
1. Turn on the circulation system and ensure that it is operating properly.
2. Add 6 teaspoons of this product for each 500 gallons of water.
Check the free available chlorine (FAC) test, if below 4.5 ppm, repeat as needed. Re-entry into treated spas is prohibited above levels of 3 ppm of chlorine.

REGULAR USE:
1. Turn on the circulation system and ensure that it is operating properly. Scatter approximately 3 teaspoons per 500 gallons of this product over the surface of water. Always use a clean dry spoon. Test for FAC and add additional product, if necessary, to attain 4.5-5 ppm FAC. Maintain 1-3 ppm FAC while the spa or hot tub is in use. After each use, shock treat with 9 teaspoons per 500 gallons water to control odors and algae. Repeat as needed. Re-entry into treated spas is prohibited above levels of 3 ppm of chlorine.

Manufactured By:
Sunless Chemicals Company
14480 62nd St. N., Clearwater, FL 33760

EPA Reg. No. 40643-11
EPA Est. No. 46943-PL-1

Net Wt 2 lbs. (32 oz.)
