HOSPITALS AND HEALTHCARE SETTINGS
A non-woven disposable cloth for use in healthcare and other critical care areas where control of the hazards of cross-contamination between treated surfaces is required. Use on hard, non-porous surfaces and equipment including stainless steel, formica, glass, tables, carts, counters, cabinets, telephones and other hard, non-porous surfaces. Some organisms are removed from the surface by thoroughly wiping the surface with the label.

AREAS OF USE: Hard, non-porous surfaces in Clinics, Dental Offices, Outpatient Clinics, Health Club facilities, Home Health Care, Hospices, Hospitals, Laboratory, Nursing Homes, Physical therapy, Physician's offices, Radiology, Transport vehicles.

MAY BE USED ON: Hard, non-porous surfaces of: Exam tables, Surgeries, IV poles, Bed railings, Outside surfaces of equipment, Toilet seats and outside surfaces of toilets, tubs, sinks, mirrors, and other hard, non-porous surfaces.

This product is not to be used as a terminal sterilizing high level disinfectant on any surface or instrument that (1) is inserted directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body, or (2) contacts intact mucous membranes but does not ordinarily penetrate the intact barrier or otherwise enter normally sterile areas of the body. This product may be used to prevent or decontaminate critical or semi-critical medical devices prior to sterilization or high level disinfection.

DIRECTIONS FOR USE: Do not use on skin or mucous membranes. Do not use on contact surfaces next to skin or mucous membranes. Do not use on skin or mucous membranes. Do not use on contact surfaces next to skin or mucous membranes. Do not use on contact surfaces next to skin or mucous membranes. Do not use on contact surfaces next to skin or mucous membranes. Do not use on contact surfaces next to skin or mucous membranes. Do not use on contact surfaces next to skin or mucous membranes. Do not use on contact surfaces next to skin or mucous membranes. Do not use on contact surfaces next to skin or mucous membranes. Do not use on contact surfaces next to skin or mucous membranes. Do not use on contact surfaces next to skin or mucous membranes. Do not use on contact surfaces next to skin or mucous membranes.

TO DISINFECT NON-FD CONTACT SURFACES: Use a wipe to remove heavy soil. Untie a clean wipe and thoroughly wet surface. Treated surface must remain visibly wet for at least 10 minutes. Use a wipe(s) if needed to assure contact for 10 minutes wet contact time. Let air dry.

FUNGICIDAL: Kills most fungi and some viruses.

SPECIAL INSTRUCTIONS FOR CLEANING & DECONTAMINATION AGAINST HIV-1 AND HIV-2 OF SURFACES/OBJECTS SOILED WITH BLOOD/BODY FLUIDS:
PERSOAL PROTECTION: Specific barrier protection items to be used when handling items soiled with blood or body fluids are disposable latex gloves, gowns, masks, or eye coverings.

CLEANING PROCEDURE: Blood and other body fluids must be thoroughly cleaned from surfaces and objects before application of the disinfectant.

DISPOSAL OF INFECTIONAL MATERIALS: Blood and other body fluids should be incinerated and disposed of according to federal, state and local regulations for infectious waste disposal.

CONTACT TIME: Leave surfaces wet for 30 seconds and 10 minutes for HIV-1 and HIV-2, respectively. Use the 10 minute contact time to disrupt other viruses, bacteria and fungi listed on the label.

PRECAUTIONARY STATEMENTS: Hazard to humans and domestic animals.

CAUTION: Causes moderate eye irritation. Harmful if absorbed through skin. Avoid contact with eyes, skin or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum or tobacco. Remove contaminated clothing and wash before reuse.

FIRST AID: IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after first 5 minutes. Then continue rinsing eye. Call a poison control center or doctor for treatment advice.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

 Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

STORAGE AND DISPOSAL: Wipe off container with soapy water to prevent spillage. Store at ambient temperature, away from direct sunlight. Do not dispose of in the environment. Dispose of expired product in a designated waste container. Do not dispose of in trash. Dispose of used wipes in trash. Do not flush in toilet.
