SANI-CLOTH® HB
GERMICIDAL DISPOSABLE WIPE
Cleans, Disinfects and Destroys / Bactericidal • Fungicidal • Virucidal

This product is effective against the following microorganisms: Contact time is 10 minutes unless otherwise noted below.
- Acinetobacter calcoaceticus var. lwoffi
- Vancomycin Resistant Enterococcus (VRE)
- E. coli strain 0157:H7
- Klebsiella pneumoniae
- Aspergillus niger
- Aspergillus candidus
- Candida albicans
- Influenza A2-Asian Virus
- Herpes Simplex Type 2 Virus
- T. mentagrophytes
- Staphylococcus aureus
- Salmonella choleraesuis
- Pseudomonas aeruginosa
- KILLS HAV-1 AND HBV ON PRECLEANED ENVIRONMENTAL SURFACES/OBJECTS PREVIOUSLY SOILED WITH BLOOD/BODY FLUIDS in health care settings or other settings in which there is an expected likelihood of soiling of inanimate surfaces/objects with blood or body fluids, and in which the surfaces/objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of Human Immunodeficiency Virus Type 1 (HIV-1) (associated with AIDS) or Hepatitis B Virus (HBV).

ACTIVE INGREDIENTS:
- Allol (C18 60%, C16 30%, C15 5%, C14 5%) dimethyl benzyl ammonium chloride.......................... 0.07%
- Allol (C18 68%, C16 32%) dimethyl ethylbenzyl ammonium chloride........................................ 0.07%
- Inert (other) ingredients........................................ 99.86%

NOTE: Inert (other) ingredients do not include the towelette.

KEEP OUT OF REACH OF CHILDREN
CAUTION
See back panel for additional precautionary statements.

Net Contents 160 Large Wipes 6 x 6.75 in (15.2 x 17.1 cm) Net Wt. 1 lb. 13.3 oz. (833 g)
HOSPITALS AND HEALTHCARE SETTINGS
A non-woven disposable cloth for use in hospitals and other critical care areas where control of the hazards of cross-contamination between treated surfaces is required. Use on hard, non-porous surfaces and equipment including stainless steel, laminas, glass, tables, carts, counters, cabinets, telephones and other hard, non-porous surfaces. Some organisms are removed from the surface by thoroughly wiping the surface with the towel.

MAY BE USED ON: Hard, non-porous surfaces of: Exam tables, Gurneys, IV poles, Bed railings, Outside surfaces of equipment, Toilet seats and outside surfaces of toilets, tables, Chairs, Stretchers, and other hard, non-porous surfaces.

This product is not to be used as a terminal sterilant/high level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body, or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to pre-clean or decontaminate critical or semi-critical medical devices prior to sterilization or high level disinfection.

DIRECTIONS FOR USE: It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

DISPENSER DIRECTIONS: To start feed: Remove lid and discard inner seal from canister. First center or wrap roll, remove first wipe for use, twist center of next wipe into a point and thread through the hole in the canister lid. Pull through about one inch. Replace lid. Dispense remaining wipes as necessary by pulling out at an angle. When not in use keep center cap of lid closed to prevent moisture loss.

TO DISINFECT: NON FOOD CONTACT SURFACES: Use a wipe to remove heavy soil. Unfold a clean wipe and thoroughly wet surface. Treated surface must remain visibly wet for a full ten (10) minutes. Use additional wipes if needed to assure continuous 10 minute wet contact time. Let air dry.

FUNGICIDAL: Kills Trichophyton mentagrophytes, agent cause Athlete's Foot Fungus, on hard non-porous surfaces in areas such as locker rooms, exercise facilities and bathroom areas.

SPECIAL INSTRUCTIONS FOR CLEANING & DECONTAMINATION AGAINST HIV-1 AND HIV-2 SURFACES/OBJECTS SOILED WITH BLOOD/BODY FLUIDS:

PERSONAL PROTECTION: Specific barrier protection items to be used when handling items soiled with blood or body fluids are disposable latex gloves, gowns, masks, or eye coverings.

Cleansing Procedure: Blood and other body fluids must be thoroughly cleaned from surfaces and objects before application of the disinfectant.

Disposal of Infection Materials: Blood and other body fluids should be autolysed and disposed of according to federal, state and local regulations for infectious waste disposal.

Contact Time: Leave surfaces wet for 30 seconds and 10 minutes for HIV-1 and HIV-2, respectively. Use the 10 minute contact time to mitigate other viruses, bacteria and fungi listed on the label.

Precautionary Statements: Hazard to humans and domestic animals.

CAUTION: Causes moderate eye irritation. Harmful if absorbed through skin. Avoid contact with eyes, skin or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum or tobacco. Remove contaminated clothing and wash before reuse.

First Aid If In Eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after first 5 minutes, continue rinsing eye. Call a poison control center or doctor for treatment advice.

If On Skin Or Clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.
