QD - 64
FRESH SCENTED
One-Step Germicidal Cleaner & Deodorant
dermicidal (Quaternary) Detergent deodorant in a single step.

**Bactericidal** • **Fungicidal** • **Staphylocidal** • **Mildewstatic**

**USE**

IN COMMERCIAL AND INDUSTRIAL BUILDINGS: Restrooms, shower and bath areas and exercise facilities. Follow disinfection directions.

IN HEALTHCARE SETTINGS OR PRISON FACILITIES: Bathrooms and kitchens, passes and fixtures, toilets, sinks, urinals, bathtubs, showers, and exercise areas. Follow disinfection directions.

IN HOMES, DAY CARE CENTERS, NURSERIES, BARS, CAFETERIAS, CONVENIENCE STORES: Kitchens, restrooms, showers, bathtubs, cabinets, chairs, coils and drain pans of air conditioning and refrigeration equipment and heat pumps, conductive flooring, countertops and other hard non-porous surfaces.

**APPLICATION:**

Use in areas where a continuous contact disinfection is desired. Effectiveness is not dependent upon high contact time, but rather on proper application procedures. Use this product as a continuously ready disinfectant where a continuous high level of disinfection is desired. Use according to local sanitation practices. Some products may require a longer contact time to achieve the desired disinfection level. Phrases such as 24-hour disinfectants are not valid for use with this product. The following instructions are for use in commercial and industrial facilities.

**FOR SEALED SPACES**

1. Use 10 oz. of the concentrated product in a water volume of 1 gallon. Apply with a pump sprayer, or other high volume, low pressure sprayer.

**OCCUPATIONAL HEALTH AND SAFETY**

MATERIAL SAFETY DATA SHEET

**Hazard Statement:**

**Risk Phrases:**

**H302:** Harmful if swallowed.

**H315:** Causes skin irritation.

**H317:** Causes eye irritation.

**H335:** May cause respiratory irritation.

**H336:** May cause allergic skin irritation.

**H319:** Harmful if inhaled.

**H410:** Risk of Serious Damage to the Environment with Long-Term Effects.

**Precautionary Statements:**

**P261:** Keep out of reach of children.

**P264:** Wear protective gloves and external protection when handling.

**P280:** Wear protective clothing and eye protection when working with this material.

INSTRUCTIONS FOR USE

Clean-up for use in areas of where continuous contact disinfection is desired. The products should be applied continuously with a continuous misting or spraying method. The concentration of the solution to be used should be determined by the level of disinfection desired. Care should be taken in the use of this product to prevent splattering or dripping of the solution. The concentration of the solution will vary depending on the area of use and the desired level of disinfection. The solution should be applied as follows:

- **FOR SEALED SPACES:** Use 10 oz. of the concentrated product in a water volume of 1 gallon. Apply with a pump sprayer, or other high volume, low pressure sprayer.

- **FOR NON-SEALED SPACES:** Use 2 oz. of the concentrated product in a water volume of 1 gallon. Apply with a pump sprayer, or other high volume, low pressure sprayer.

- **FOR NON-SEALED SPACES WITH HIGH-RISK PATHOGENS:** Use 4 oz. of the concentrated product in a water volume of 1 gallon. Apply with a pump sprayer, or other high volume, low pressure sprayer.

- **FOR NON-SEALED SPACES WITH LOW-RISK PATHOGENS:** Use 1 oz. of the concentrated product in a water volume of 1 gallon. Apply with a pump sprayer, or other high volume, low pressure sprayer.

**USE IN NON-SEALED SPACES:**

1. Use 2 oz. of the concentrated product in a water volume of 1 gallon. Apply with a pump sprayer, or other high volume, low pressure sprayer.

**CLEANING PROCEDURES:**

- Use in areas where a continuous contact disinfection is desired. Effectiveness is not dependent upon high contact time, but rather on proper application procedures. Use this product as a continuously ready disinfectant where a continuous high level of disinfection is desired. Use according to local sanitation practices. Some products may require a longer contact time to achieve the desired disinfection level. Phrases such as 24-hour disinfectants are not valid for use with this product. The following instructions are for use in commercial and industrial facilities.

- **FOR SEALED SPACES:** Use 10 oz. of the concentrated product in a water volume of 1 gallon. Apply with a pump sprayer, or other high volume, low pressure sprayer.

- **FOR NON-SEALED SPACES:** Use 2 oz. of the concentrated product in a water volume of 1 gallon. Apply with a pump sprayer, or other high volume, low pressure sprayer.

- **FOR NON-SEALED SPACES WITH HIGH-RISK PATHOGENS:** Use 4 oz. of the concentrated product in a water volume of 1 gallon. Apply with a pump sprayer, or other high volume, low pressure sprayer.

- **FOR NON-SEALED SPACES WITH LOW-RISK PATHOGENS:** Use 1 oz. of the concentrated product in a water volume of 1 gallon. Apply with a pump sprayer, or other high volume, low pressure sprayer.
