---

**Precautionary Statements**

**Hazard to Humans & Domestic Animals**

**Warning**

Caustic irritant to skin, eyes and clothing. Wearing protective clothing such as gloves, long sleeved clothing, long pants and a hat, may be caustic if not handled or applied properly. Do not breathe vapors or spray mist. When used in enclosed areas, open an appropriate ventilation. Avoid breathing mist. If you get this product in your eyes, wash immediately with water. If you inhale, remove from area and get medical attention. If swallowed, do not induce vomiting. Remove clothing and wash skin with soap and water. Do not store with foodstuffs.

**Directions for Use**

Do not use this product to paint metal bottoms to control the attachment of marine fouling. If used, it may not be effective against the following organisms:

- MOLLUSKS
- CRUSTACEANS
- INVERTEBRATES

**Antifouling for Metal Bottoms**

To control the attachment of marine fouling, it is recommended for use on aluminum, stainless steel, and other non-ferrous metals. A pH of 4 to 6 is recommended for use on aluminum, with a minimum of 2 coats being recommended for best performance.

**Surface Preparation**

Before application of antifouling, all surfaces must be dry, free of oil, grease, salt, rust, loose paint, salt residues and other contaminants. Steel must be coated with a suitable primer or anti-corrosive barrier coat. Follow manufacturer's directions for use. Consult with a certified professional paint contractor before use.

**Handling**

Avoid breathing mist. When handling, avoid contact with skin, eyes, and clothing. Wash thoroughly with soap and water after handling. Do not eat, drink, or smoke while using this product.

**Modelling**

Before use, use the label and use the paint in accordance with all local regulations and guidelines. This product is UNIFORM for use in air regulated pumpover apparatus during application to maintain uniformity.

**Application**

Apply by brush, roll or spray. Contents may be applied by hot spray, with temperatures not to exceed 80°F (26°C). Measured spray of regular cold spray, apply a full wet coat in a clean cross-over pattern. Do not apply in cold or damp weather.

**Thinning**

Normally no thinning required. Where thinning is necessary, use thinner 77-33, xylene.

**Drying Time**

At 75°-85°F (23°-29°C), allow at least 4 hours dry time between coats. At a minimum of 8 hours before reglazing.

**SAFETY**

FOR FURTHER SAFETY AND HANDLING INFORMATION REFER TO THE PHYSICAL AND CHEMICAL HAZARD CLASSIFICATIONS. THE VOC OF THIS PAINT IS 330 GRAMS/LITER (2.75 LBS/GAL).
