Nonionic Surfactant, Spreader-Activator and Defoaming Agent

PRINCIPAL FUNCTIONING AGENTS
Alkylphenol ethoxylate, propylene glycol, tall oil fatty acids ......................................................... 90%
Constituents ineffective .......................................................................................................................... 10%
TOTAL .................................................................................................................................................. 100%

All ingredients are exempt from the requirement of a tolerance under 40 CFR 180

CA Reg. No. 7001-50019-AA

KEEP OUT OF REACH OF CHILDREN
WARNING

Causes substantial but temporary eye injury. Harmful if swallowed, inhaled or absorbed through skin. Avoid contact with skin, eyes or clothing. Avoid breathing spray mist. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum or smoking tobacco. Remove and wash contaminated clothing before reuse. **Personal Protective Equipment:** Wear protective eyewear (goggles or face shield), chemical-resistant gloves, long-sleeved shirt and long pants, shoes plus socks when mixing or applying Spray-Wet.

STORAGE AND DISPOSAL
Do not contaminate water, food, or feed by storage or disposal.
Storage: Store above 32°F. Store away from heat or open flame and oxidizing materials.
Disposal: Wastes resulting from this product may be disposed of on site or at an approved waste disposal facility. Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit the ACRC web page at www.acrecycle.org. Decontaminated containers may also be disposed of in a sanitary landfill.

GENERAL INFORMATION
SPRAY-WET is a highly concentrated low-foam, nonionic spreader activator.

SPRAY-WET increases the activity and effectiveness of pesticides, by breaking down the waxy cuticle on the leaf surface and improves adhesion between the pesticide and the plant surface.

FIRST AID
Call a poison control center or doctor immediately for treatment advice.

If Swallowed: Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

If on Skin or Clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 to 20 minutes.

If Inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible.

If in Eyes: Hold eye open and rinse slowly and gently with water for 15 to 20 minutes. Remove contact lenses if present, after the first 5 minutes, then continue rinsing eye. Have the product container with you when calling a poison control center, or doctor, or going for treatment advice.

RECOMMENDED RATES

<td>1 to 4 Pints (16 to 64 fl. oz.)</td>
</tr>
<tr>
<td>Insecticides, Fungicides, Miticides</td>
<td>1/4 to 1/2 Pints (4 to 8 fl. oz.)</td>
</tr>
</tbody>
</table>

DIRECTIONS FOR USE
NOT FOR AQUATIC USE.

For use with insecticides, fungicides, miticides:
Use 1/4 to 1/2 pint (4 to 8 fl. oz.) per 100 gallons of water.

For use with herbicides (terrestrial), defoliants, desiccants:
Use 1/2 to 4 pints (8 to 64 fl. oz.) per 100 gallons of water. In difficult wetting situations (such as hard water on mature waxy foliage) the higher rates may be required.

NOTE: The application rates on this label are based on pesticide labels which recommend the use of a nonionic surfactant. Rates of this product may be increased or decreased. For optimum results, follow pesticide labeling for proper recommendations. Before using SPRAY-WET where a nonionic surfactant may not be recommended, the user or applicator advisor must have experience with the combination, or must have conducted a phytotoxicity trial.

For use with glyphosate herbicides refer to the herbicide label for recommended surfactant rates. Do not add this product at a rate which exceeds 0.375% of the finished spray volume. For wettable powders, water soluble materials, and emulsifiable products add SPRAY-WET in water after a good mixture is formed.

NOT FOR AQUATIC USE
