DIRECTIONS FOR USE:
It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.
SHAKE WELL BEFORE USING.
APPLICATION FOR SWIMMING POOLS
This product is compatible with all EPA registered sanitizers including chlorine, bromine, biguanide, salt water, ozone, and mineral sanitized pools. When used with other EPA registered products, always follow the directions for use. Sunlight, rain, temperature, number of swimmers and frequency of pool use, all affect the rate of chlorine loss. Always maintain chlorine levels between 1-3 parts per million (ppm). Ensure all pool equipment is working properly. Clean or backwash the filter following the manufacturer’s directions.
INITIAL APPLICATION:
1) If visible algae is present, add 25 ounces per 25,000 gallons of water (2 ppm).
2) For clean pools, add 16 ounces per 25,000 gallons of water (2 ppm).
3) Pour directly into the water by distributing product along the edge of the pool.
4) Operate the pump continuously for 24 hours to allow product to distribute evenly throughout the pool and to allow the filter to recover any phosphate removed from the water.
5) After 24 hours, if necessary, brush dead algae off pool surfaces. If algae is still present, repeat step 1.
MAINTENANCE:
To prevent algae growth, add this product weekly or after heavy rain at the rate of 4 ounces per 25,000 gallons of water (0.5 ppm) by pouring directly into the water along the edge of the pool. Maintain the circulation by running the pump for at least 4 hours after application.
NOTE: Swimmers can re-enter the pool 15 minutes after application.
WINTERIZING
Use of this product for winterizing will make opening in the spring easier by breaking down any algae present at time of closing and by removing the nutrient phosphate that may be present.
Test the pool and adjust to the proper levels. After pool is no longer in use, shock treat with a recommended shock treatment product according to its label directions. Allow the pump to circulate for several hours or overnight. Add algicide directly to pool water while walking around the pool so that it is evenly distributed. Use at the rate of 32 ounces per 15,000 gallons. Allow to circulate for a few hours. Clean pool waterline, shut down filter, drain pump and winterize as per the manufacturer’s instructions. Cover with a solid cover if possible. Pools without a solid cover may need a second treatment later in the non-swimming season.

PRECAUTIONARY STATEMENTS: HAZARDS TO HUMANS AND DOMESTIC ANIMALS. DANGER. Keep Out of Reach of Children. Corrosive. Causes serious eye damage. Skin burns. May be fatal if ingested. Avoid breathing vapor or mist. Inhalation of mist or vapors may irritate respiratory tract. High vapor concentrations may cause central nervous system effects. Harmful if swallowed and absorbed through the skin. Do not get into eyes, on skin or on clothing. Wear protective eyewear/goggles, face shield, or safety glasses, rubber gloves and protective clothing when handling. Wash thoroughly with soap and water after handling and before eating, drinking, or using tobacco. Remove contaminated clothing and wash clothing before reuse.
FIRST AID: IF IN EYES: Hold eyelids open and rinse slowly with water for 15-20 minutes. Remove contact lenses if present after 5 minutes then continue rinsing eye. Call poison control center or doctor for treatment advice.
IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. IF INHALED: Move patient to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferable mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice. IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or a doctor. Do not give anything by mouth to an unconscious person. Have the product container or label with you when calling a poison control center or doctor or going for treatment.
IN CASE OF EMERGENCY CALL: 1-800-654-6911.

PHYSICAL OR CHEMICAL HAZARDS:
Do not use or store near heat or open flame. Do not mix with oxidizers, soap or anionic detergents or other water treating chemicals.

ENVIRONMENTAL HAZARDS:
This product is toxic to fish, aquatic invertebrates, oysters and shrimp.

In Case of Spill: Absorb with sand or vermiculite and place in closed containers for disposal. Ventilate area and wash spill site after material has been picked up. Large spills should be contained; the material placed into containers and disposed of by approved method for hazardous waste.

STORAGE AND DISPOSAL:
Keep this product dry in tightly closed container away from persons and children unfamiliar with its use. Store in cool, dry, well-ventilated area. Keep away from heat or open flame. Nonrefillable container. Do not reuse or refill this container. Offer for recycling if available. If not, discard in trash.

ACTIVE INGREDIENT:
Alkyl (50%, C10–13) dimethyl benzyl ammonium chloride .......... 40.0%
OTHER INGREDIENTS: ........................................... 60.0%
TOTAL: .................................................. 100.0%

KEEP OUT OF REACH OF CHILDREN
DANGER
See back panel for first aid and precautionary statements.
