PRECAUTIONARY STATEMENTS:

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER
CAUSES UNREVERSIBLE EYE DAMAGE. HARMFUL IF ABSORBED THROUGH SKIN. HARMFUL IF SWALLOWED. DO NOT GET IN EYES OR ON CLOTHING. AVOID CONTACT WITH SKIN. PROLONGED OR FREQUENTLY REPEATED SKIN CONTACT MAY CAUSE ALLERGIC REACTION IN SOME INDIVIDUALS. REMOVE CONTAMINATED CLOTHING AND WASH BEFORE REUSE.

Mixers, loaders, and others exposed to product must wear the following Personal Protective Equipment (PPE): long-sleeve shirt and long pants, rubber gloves and apron, shoes plus socks, and protective eyewear. Follow manufacturer’s instructions for cleaning/maintaining PPE. If there are no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry.

User Safety Recommendations: Users should wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet. Users should remove clothing immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing. Users should remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly. Discard clothing or other absorbent materials that have been drenched or heavily contaminated with this product’s concentrate.

PHYSICAL AND CHEMICAL HAZARD

This product is corrosive to mild steel.

ENVIRONMENTAL HAZARDS

This product is toxic to aquatic plants, fish and aquatic invertebrates. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or public waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to any sewer systems without prior notification to the sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA.

STORAGE AND DISPOSAL

This product (PI 3.0) is corrosive to mild steel.

PESTICIDE STORAGE: Do not store or transport in unlined metal containers. Do not drink or inhale vapor. Do not store near food, feed by storage, disposal or cleaning of equipment.

PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide or rinsate is a violation of Federal Law. If waste cannot be disposed of by the following instructions, contact your State Pesticide or Environmental Control Agency or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL

Non-refillable container – Do not reuse or refill this container. Triple rinse container promptly after emptying. Triple rinse as follows: rinse remaining contents into application equipment or a mix tank. Fill the container 1/4 full with water. Repel and tighten closures. Tip container on its side and roll it back and forth, ensuring at least one complete revolution, for 30 seconds. Stand the container on its end and tip it back and forth several times. Turn the container over onto its other end and tip it back and forth several times. Empty the rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Repeat this procedure two more times. Then offer for recycling if available or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.

GENERAL: CONSULT FEDERAL, STATE OR LOCAL DISPOSAL AUTHORITIES FOR APPROVED ALTERNATIVE PROCEDURES.

REV: 4/2014

CHEMICAL TREATMENT CL-215

Industrial Microbiocide for use in Recirculating Water Cooling Towers, Air Washer Systems, Oil Field Injection Waters. *Paper Slime Control, Recirculating Closed Loop Water Cooling Systems. Bacterial Pasterizer and Can Warmer Systems. Ultra filtration units such as reverse osmosis systems which are classified as indoor non-food and non-food applications. *NOT APPROVED FOR THIS USE IN THE STATE OF CALIFORNIA

ACTIVE INGREDIENTS:
- 5-Chloro-2-methyl-4-isothiazolin-3-one 1.11%
- 2-Methyl-4-isothiazolin-3-one 0.377%

INERT INGREDIENTS: 98.52%

Total: 100.00%

KEEP OUT OF REACH OF CHILDREN

DANGER - PELIGRO

FIRST AID

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15 - 20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water (if able to swallow). Do not induce vomiting unless told to do so by a poison control center or doctor.

IF ON SKIN: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 - 20 minutes. Call a poison control center or doctor for treatment.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

NOTE TO PHYSICIAN: Probable mucosal damage may constrict the use of gastric lavage.

HOT LINE NUMBER: For emergency, additional information call toll free 1-800-242-9300. Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

INFORMATION SHEET

THIS CHEMICAL TREATMENT CL-215 INFORMATION SHEET MUST ACCOMPANY EACH SHIPMENT OF CHEMICAL TREATMENT CL-215

DIRECTIVES FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

INDUSTRIAL RECIRCULATING WATER COOLING TOWER

Chemical Treatment CL-215 is recommended for the control of bacteria, algae, and fungi. It should be added to the tower basin by some other point to ensure uniform mixing. Add 0.3 to 3.6 lbs. of Chemical Treatment CL-215 per 1000 gallons of water (35 to 220 ppm Chemical Treatment CL-215) weekly or as needed to maintain control. For biocides and/or inorganic compounds, we are dose of 1.25 to 7.5 lbs. Chemical Treatment CL-215 per 1000 gallons of water. Repeat if necessary to achieve control.

AIR WASHER SYSTEMS:

For use only in industrial air washing systems that maintain effective mini-eliminating components. Add 0.3 to 7.5 lbs. Chemical Treatment CL-215 per 1000 gallons of water (35 to 180 ppm Chemical Treatment CL-215) in the air washer scrub or chill water scrub to ensure uniform mixing, the control of bacteria, fungi and algae. A repeat treatment may be needed depending on the severity of contamination.

OIL FIELD INJECTION WATERS:

Add 23 to 58 lbs. (0.8 to 6.9 gilos) Chemical Treatment CL-215 per 1000 barrels of water (66 to 165 liters) Chemical Treatment CL-215 weekly or as needed to maintain control of slime-forming and scale-inhibiting bacteria in oil and gas field water systems including enhanced recovery injection fluids and drilling fluids. An initial dose of 57 to 115 lbs. Chemical Treatment CL-215 per 1000 barrels of water (162 to 324 gilos) Chemical Treatment CL-215 may be used until control is achieved. This product may be used for surfactant and foaming oil drilling muds and packer fluids.

*PAPER MILLS:
Add 0.45 to 1.5 lbs. of Chemical Treatment CL-215 per ton (dry basis) of pulp or paper produced as slug dose for the control of bacterial and fungal slime in the production of paper. Chemical Treatment CL-215 should be added to a point such as the breaker or hydrogen peroxide to ensure uniform mixing.

*NOT APPROVED FOR THIS USE IN THE STATE OF CALIFORNIA

INDUSTRIAL RECIRCULATING CLOSED LOOP WATER COOLING SYSTEMS:

Add 0.3 to 1.36 lbs. Chemical Treatment CL-215 per 1000 gallons of water in the system weekly to maintain control of bacteria, fungi and algae. The recommended dose is 0.10% to 0.5% of the total circulating volume and the cooling system to ensure uniform mixing. For noticeably fouled systems, an initial treatment with 1.25 to 7.5 lbs. Chemical Treatment CL-215 per 1000 gallons of water may be needed depending on the severity of fouling.

*BREWER'S PASTEURIZERS AND CAN WARMERS SYSTEMS:

Add 0.3 to 1.36 lbs. of Chemical Treatment CL-215 per 1000 gallons of water in the system weekly or as needed to maintain control of bacteria, algae, and fungi. For noticeably fouled systems, an initial treatment with 1.25 to 7.5 lbs. Chemical Treatment CL-215 per 1000 gallons of water may be needed depending on the severity of fouling.

*NOT APPROVED FOR THIS USE IN THE STATE OF CALIFORNIA

ULTRA FILTRATION UNITS, SUCH AS REVERSE OSMOSIS SYSTEMS:

Chemical Treatment CL-215 is recommended for the control of bacteria and fungi in ultra filtration units, such as reverse osmosis systems. Add 10 - 333 ppm of Chemical Treatment CL-215 (0.15 - 5 ppm active ingredients) into the influent stream to minimize the formation of biofilms and minimize the possibility of biofilm or bacteria to drift-free or periodic injection. Compatibility of Chemical Treatment CL-215 with reverse osmosis membranes should be confirmed with membrane manufacturers. For the control of bacteria and fungi in carbon beds, add 10 - 333 ppm of Chemical Treatment CL-215 (0.15 - 5 ppm active ingredients). For periodic membrane cleaning, add 0.4 - 0.8 lbs. of Chemical Treatment CL-215 in every 120 gallons of cleaning solution (0 - 12 ppm active ingredients). Brady fouled systems should be cleaned before treatment is begun.

*NOT APPROVED FOR THIS USE IN THE STATE OF CALIFORNIA

CONDITIONS OF SALE AND WARRANTY

Seller warrants that this product conforms to its chemical description and is reasonably fit for the purposes stated on the label only, when used in accordance with label directions under ordinary conditions of use. SELLER DISCLAIMS ALL OTHER EXPRESS OR IMPLIED WARRANTIES, INCLUDING WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR USE. Handling, storage and use of this product by Buyer or User are beyond the control of Seller. Risks and inherent dangers associated with this product are limited to, but not limited to, those described on the label. Seller reserves the right to change prices and specifications without prior notice. Seller is not liable for consequential, special, or indirect damages resulting from the handling, storage or use of this product.
