PRECAUTIONARY STATEMENTS
Hazardous to Humans and Domestic Animals

DANGER
Carotene. Caustic irritant eye damage. Do not get any eyes or on clothing. Avoid contact with skin. Wash promptly with soap and water. Harmful if swallowed, inhaled or absorbed through skin. Wash thoroughly with soap or water after handling. Remove contaminated clothing and wash clothing before reuse.

ENVIRONMENTAL HAZARDS
Fish and aquatic organisms. The product is toxic to fish. Direct application of copper sulfate to water may cause a significant reduction in populations of aquatic organisms, plankton and fish. Do not allow more than one half of a lake to pond or small stream deadlines of copper from being deposited. Always 2 to 3 times before treatment for wading animals lane to months. Treat areas and spaces of D.T. that can be determined to be of application rates recommended on the label, especially in ponds or acidic waters. Do not contaminate water during application of treatment as noted (see Directions for Use). Contact your local State or County Agency before applying this product to public waters. Ponds may be required before treating each water.

Undesirable Species Restrictions: It is a violation of federal law to use any pesticide that contains this product in an area that is closed to fishing, boating, or waterfowl hunting. All of the products may be harmful to certain beneficial insects that are known to occur in specific areas within the following counties:

<td>EP-615-02</td>
<td>9</td>
</tr>
</tbody>
</table>

PLEASE NOTE: Before using this product in the above areas, you must obtain the EPA registration or state permits for your area. The below describes areas within those counties where the use of this pesticide is prohibited unless specifically authorized. The EPA label is available from your local county Agricultural Extension Agent, the Extension Service Specialist in your State Wildlife Agency or the appropriate Regional Office of the U.S. Fish and Wildlife Service.

This BULLETIN MUST BE REVIEWED PRIOR TO PESTICIDE USE.

FOR CHEMICAL EMERGENCY CONTACT:
Amerimark Corp. (800) 526-6880
Non-Farmers: Call The Police.

PERSONAL PROTECTIVE EQUIPMENT
Application and other handling instructions:
- Long-sleeved shirt
- Long pants
- Chemical-resistant gloves of any approved material
- Chemical-resistant Category 3
- Pesticide eyewear
- Closed-toe shoes
- Face protection

Maintain the cleanliness of any other clothing and wash thoroughly after each use. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash clothing before reuse.

DIRECTIONS FOR USE
It is a violation of Federal law to use this pesticide in a manner inconsistent with the labeling. You are required to apply this pesticide in a manner that will correct nuisance or other problem, either directly or through drift. Necessary handling practices may be in the area application. For any requirement specific to your equipment or other information, consult the equipment responsible for proper equipment.

GENERAL INFORMATION
Amerimark Corp. 1970 N. Market Street, San Jose, CA 95112-2516

APPLICATION AND HANDLING EQUIPMENT
Application, handling or storage equipment must be resistant to other sulfuric and phosphoric acids, salts, most plastics and stainless steel. Never use steel, nylon, ethylene or rubber or unhardened stainless steel equipment.

STORAGE AND DISPOSAL
Do not contaminate water, food or feed by storage or disposal. Pesticides of D.T. are in solid form and are of the copper sulfate. Do not apply to water or other materials that contain copper. Do not contaminate water sources and vineyards with copper. Do not use in vineyards or vineyard treated areas.

Possible Disposal: Pesticides of D.T. are not readily biodegradable. Properly dispose of D.T. by burning or in a landfill. (See Disposal of this material). Do not contaminate water sources and vineyards with copper. Do not use in vineyards or vineyard treated areas.

GENERAL BACTERIAL CONTROL
Application can vary depending on weather conditions. Excessive application of D.T. will increase bacterial infections. Further, overuse of D.T. can lead to a decrease in the size of populations. This can result in the development of resistance to D.T. Applications should be made in accordance with the directions on the label, including the proper concentration of the active ingredient.

GENERAL ALOEVA CONTROL
For crop control, applying to the crop or in or on any other area where algae begin to grow. The dangers of varying and different algae species: water quality, temperature, species of algae, and other factors should be taken into consideration. Malaise of algae in each area is recommended, to prevent injury to the algae species desired. In addition, any other natural means of controlling algae must be taken into consideration.

LIMITED WARRANTY AND LIMITATION OF REMEDIES
We recommend that the equipment be used in accordance with the directions and that the equipment is used in accordance with the directions. The equipment is not intended for use on any other crops or plants that require specific care. The equipment is not intended for use on any other crops or plants that require specific care. The equipment is not intended for use on any other crops or plants that require specific care. The equipment is not intended for use on any other crops or plants that require specific care.
