EZ-JECT™ Copperhead Herbicide Shells

Water-Soluble Herbicide in Shells for Stem Injection
Controls Undesirable Woody Brush, Trees and Vines—Roots and All—on Forestry Sites, Roadside, Rights-of-Way, Industrial Sites, Fencecrews, Railroads, Standing Water and Wetlands

ACTIVE INGREDIENT: Isopropylamine salt of Imazapyr (2-(4,5-dihydro-4-methyl-l- pyridin-2-yl)-4-methyl-l-pyridin-2-yl)-3-pyridinecarboxylic acid)*

OTHER INGREDIENTS

Total 100.0%

* Equivalent to 0.008 ounces (0.23 grams) per shell of isopropylamine salt of Imazapyr or 0.006 ounces (0.18 grams) of Imazapyr Acid.

Keep Out of Reach of Children
CAUTION

See below for First Aid and additional Precautionary Statements.

Net Contents: 25 Shells
Shell Net Weight: 0.01 ounces (0.23 g)
Total Net Weight: 0.25 oz (7 g)

EPA Reg. No. 83220-2 - EPA Est. 66117-NE-1

Sold by:

FIRST AID
If Swallowed:
• Immediately call a poison control center or doctor for treatment advice.
• Have person sip a glass of water if able to swallow.
• Do not induce vomiting unless told to do so by the poison control center or doctor.
• Do not give anything by mouth to an unconscious person.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

For additional information on this product (including health concerns, medical emergencies or pesticide incidents) you may call 1-800-222-1222, 24 hours a day, 7 days per week.

PERSONAL PROTECTIVE EQUIPMENT (PPE)
Some materials that are chemical-resistant to this product are made out of any waterproof material. If you want more options, follow the instructions for category A on an EPA chemicals-resistance category selection chart. Applicators and other handlers must wear long-sleeved shirt, long pants, shoes with non-skid soles, and chemical-resistant gloves. Follow manufacturer’s instructions for cleaning/maintaining PPE. If no such instructions are washable, use detergent and hot water. Keep and wash PPE separately from other laundry.

USER SAFETY REQUIREMENTS
Follow manufacturer’s instructions for cleaning/maintaining PPE. If no such instructions are washable, use detergent and hot water. Keep and wash PPE separately from other laundry. Discard clothing and other absorbent materials that have been heavily contaminated with this product.

USER SAFETY RECOMMENDATIONS
Users should: Wash hands with plenty of soap and water before eating, drinking, chewing gum, using tobacco or using the toilet. Remove clothing/PPE immediately if pesticide got inside, then thoroughly wash and put on clean clothing. Immediately remove PPE after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
CAUTION: Harmful if swallowed.

ENVIRONMENTAL HAZARDS
This product is toxic to plants. drift and run-off may be hazardous to plants in water adjacent to treated areas. Do not apply directly to water or to areas where surface water is present or to irrigation areas below the mean high water mark. Do not contaminate water when disposing of equipment washer or rinsates. See Directions for Use for additional precautions and requirements.

DIRECTIONS FOR USE
It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Do not apply this product in a way that will contact workers or other persons directly. Only treated handlers may be in the area during application. Do not apply directly to water or inject into streams below the water level. Woody vegetation may be controlled by injection of EZ-Ject™ selective injection herbicide shells. This product controls woody brush, trees and vines on the following sites: forestry, roadside, rights-of-way, industrial, residential, fences, railroads and standing water and wetlands. For trees and brush in standing or water or wetlands this product may be injected into stems below the water level.

This product moves throughout the tree from the point of injection to all roots and shoots. Symptoms appear gradually (normally within 2 to 4 weeks) beginning with wilting, yellowing and browning of the foliage. This is followed by deterioration of all roots and shoots.

Inject the shells using only the EZ-Ject™ shell injection equipment. The shells must penetrate the outer bark into living xylem tissue to provide effective results. For trees with less than 2.5 inches of trunk diameter measured at the base of the plant, inject one shell per stem below all major branches. For trees greater than 2.5 inches of trunk diameter, measured at the base of the plant, inject one shell every 2-4 inches of trunk circumference, evenly spaced around the trunk of the tree, below all major branches. Tree may be injected at any time of the year except when wood is frozen. For woody brush with a minimum of 3/4 inch diameter, inject one shell at the base of the plant.

Note: Injury may occur to non-target or woody plants if they extend from the same root system, or their root systems are grafted to those of the treated tree.

The species of woody brush, trees and vines controlled by this product include:

WOODY BRUSH AND TREES
• Alder (Alnus spp.)
• American chestnut (Castanea dentata)
• Ash (Fraxinus spp.)
• Aspen (Populus spp.)
• Autumn olive (Elaeagnus umbellata)
• Black oak (Quercus kekiophylla)
• Black gum (Nyssa sylvatica)
• Box elder (Acer negundo)
• Brazilian pepper tree (Schinus terebinthifolius)
• Ceanothus (Ceanothus spp.)
• Cherry (Prunus spp.)
• Chinese tallow tree (Sapium sebiferum)
• Common privet (Ligustrum vulgare)
• Dogwood (Cornus spp.)
• Eucalyptus (Eucalyptus spp.)
• Hawthorn (Crataegus spp.)
• Hickory (Carya spp.)
• Huckleberry (Gaylussacia spp.)
• Juniper (Juniperus spp.)
• Mountain ash (Sorbus americana)
• Maple (Acer spp.)
• Multiflora rose (Rosa multiflora)
• Mulberry (Morus spp.)
• Oak (Quercus spp.)

The species of woody brush, trees and vines controlled by this product include:

• Persimmon (Diospyros virginiana)
• Poison oak (Rhus diversiloba)
• Poplar (Salix spp.)
• Privet (Ligustrum vulgare)
• Red alder (Alnus rubra)
• Red maple (Acer rubrum)
• Saltcedar (Tamarix ramosissima)
• Sassafras (Sassafras albidum)
• Swamp dogwood (Oxydendrum arboreum)
• Sycamore (Platanus occidentalis)
• Tanbark (Liriodendron tulipifera)
• Tili (Cytisus racemosa) [suppression]
• Tree of heaven (Ailanthus altissima)
• Yellow poplar (Liriodendron tulipifera)

VINES
• Honeylocust (Locustia spp.)
• Honeysuckle (Lonicera spp.)
• Huckleberry (Gaylussacia spp.)
• Juniper (Juniperus spp.)
• Mountain ash (Sorbus americana)
• Maple (Acer spp.)
• Multiflora rose (Rosa multiflora)
• Mulberry (Morus spp.)
• Oak (Quercus spp.)

STORAGE AND DISPOSAL
Do not contaminate water, food, feed or soil by storage or disposal.

Pesticide Storage: Keep container closed to prevent spills and contamination. At the end of each use period, remove unused shells from the EZ-Ject injection system. Replace unused shells in original container and re-seal. Always store the product with the open end of the capsule facing UP.

Pesticide Disposal: Wash out resulting from the use of this product may be disposed of onsite by using according to Directions for Use on this label, or at an approved waste disposal facility.

Container Disposal: Non-refillable container; do not reuse or refill container. Offer for recycling if available; otherwise, dispose of in a sanitary landfill or by other procedures approved by state and local authorities.

For additional product information call 1-888-395-6732
