RESTORE™
Water Conditioning Agent and Acidifier

Principal Functioning Agents
Ammonium Sulfate, 1,2,3-Trihydroxypropane, Phosphoric Acid.............50.0%
Constituents Ineffective As Spray Adjuvants...............................50.0%
Total..............................................................100.0%

Use Directions
Always carefully follow the precautions, restrictions and recommended use rates and application directions appearing on the accompanying pesticides label. Add Restore first during agitation. Rates may vary with conditions at time of application.

USE RATE
For Ground and Aerial Applications: Use 2 to 3 quarts per 100 gallons. Use a minimum of 1 pint of Restore per acre when the total spray volume is less than 15 gallons per acre.

Storage and Disposal
Do not contaminate water, food or feed by storage or disposal.

Storage: Keep this container tightly closed. Store in original container.
Do not allow water or other chemicals to be introduced into contents of container. Do not contaminate water sources with equipment washwater, spray disposal wastes or by cleaning of equipment. Do not store near feed or food products. Do not use or store near open flame.

Disposal: Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit the ACRC web page at www.acrcycle.org. Decontaminated containers may also be disposed of in a sanitary landfill.

RESTORE IS NOT FOR AQUATIC USE

General Information
Restore is intended for use with products registered for agricultural, horticultural, turf and ornamental, industrial and non-crop use as a tank mix adjuvant in water conditioning and spray deposition is important.

Restore is formulated to enhance spray coverage and retention of pesticide products that recommend the use of ammonium sulfate or a nitrogen source.

Restore improves the efficiency of various post-emergent herbicide sprays by minimizing antagonism of hard metal ions that are frequently present in most spray water sources.

Restore contains a humectant ingredient that works to improve spray deposition and retention thereby improving the ability of agrichemicals to deposit and penetrate targeted surfaces. Water content of spray deposits can be increased which slows drying time and minimizes crystal formation of active ingredients which can impede plant uptake of certain active ingredients.

Notice-Read Carefully
Limited Warranty and Conditions of Sale
In no event shall KALO, Inc., manufacturer or seller be liable for special, indirect, or consequential damages, or for damage in their manufacture relating to the goods sold. KALO, Inc., manufacturer or seller shall not be liable to buyer or user by way of restituation to customers of buyer, if any, or for any damages or losses of money, claims or demands whatsoever, resulting from or by reason of use or misuse of the product, failure to follow label warnings or instructions for use, or of the goods sold by KALO, Inc., manufacturer or seller. Buyer or user assumes exclusive remedy and KALO, Inc., manufacturer or seller total liability shall be for damages not exceeding the cost of the product.

Warranty Disclaimer
The goods sold to you by this agreement are furnished as is by KALO, Inc., manufacturer, or seller, and are sold subject to the manufacturer's warranties if any, which appear on the label of the products sold. KALO, Inc., the manufacturer or seller, make no other warranties, guarantees or representations of any kind to buyer or user, whether expressed or implied by usage of trade, statutory or otherwise, with regard to the product sold, included but not limited to merchantability, fitness for a particular purpose, use or eligibility of the product for any particular field usage. Ineffectiveness, or other unanticipated consequences may result because of such factors as the presence or absence of other materials used in combination with the goods, or the manner of use or application, or atmospheric conditions, all of which are beyond the control of KALO, Inc., manufacturer or seller. In no case shall KALO, Inc., manufacturer or seller be liable for consequential, special or indirect damages resulting from the use or handling of this product. The buyer or its customers shall assume all such risks. Tests have not been carried out under all possible use conditions, and KALO, Inc., manufacturer or seller cannot and do not warrant that the product is compatible with all other chemicals.

The law of the state from which such goods are to be shipped shall govern the validity, interpretations and performance of this agreement with respect to goods delivered. This writing contains all of the representations and agreements between buyer, KALO, Inc., manufacturer and seller, and no person or agent of KALO, Inc., manufacturer or seller has any authority to make any representation or warranty or agreement relating in any way to the goods.
