HOME INSET CONTROL  2

Storage and Disposal
Product Storage: Store this product in original container. Store in a dry area away from children and domestic animals.
Disposal: If empty: Do not re-use container. Place in trash or offer for recycling if available. If partly filled: Call your local solid waste agency for disposal instructions. Never pour unused product down any indoor or outdoor drain.

FIRST AID
If Swallowed: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

In eyes: Hold eye open and rinse slowly and gently with water for 15 to 20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

If inhaled: Move person to fresh air. If not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Contact a doctor or poison control center for further treatment advice.

NOTE: Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

NOTE: For best results apply this product only as specified on this label.

NOTICE: Research and testing have determined that the "Directions for Use" are appropriate for the proper use of this product under expected conditions. The Buyer assumes responsibility for lack of performance or safety if not used according to the directions.

Environmental Hazards
This pesticide is highly toxic to aquatic invertebrates and fish. Do not apply directly to water. Apply this product only as specified on this label.

To Control: Ants (except Pharaoh), Bedbugs, Carpet Beetles, Centipedes, Cockroaches, Crickets, Earwigs, Flies, Gophers, Hornets, Houseflies, Moths, Mice, Millipedes, Mosquitoes, Spiders, Spittlebugs, Sowbugs, Termites, Ticks (including Deer licks), Wasps, Yellow Jackets.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. For best results, read and follow all label directions.

BEFORE USE:
Read and follow directions when using. This product is not intended for application to plants or lawns. Do not spray into fish ponds, streams, or lakes. Indoor use can cause respiratory irritation. Do not use as a space spray (do not spray into living areas).

Remove animal feeding dishes before spraying. Keep children and pets away from treated areas until spray has dried. Do not use on surfaces where food is prepared or where food is exposed. Before spraying indoors, remove birds from area and tightly cover or remove fish tanks and aquariums.

How To Use

HOW TO SHAKE WALK-BEFORE USE.

Sprayer Instructions: How to prime and care for your sprayer
1. After shaking product well, remove cap from container and replace with sprayer head and cap assembly. Tighten securely.
2. Turn sprayer nozzle to half turn counterclockwise. Hold sprayer below the level of container and prime by pumping trigger 10-15 times until product is dispensed. Adjust nozzle to the spray or jet stream as needed.
3. To store, turn nozzle to "off" position and store with sprayer above level of liquid in container to prevent leakage.

Indoor Use:
To Control Ants (except Pharaoh), Bedbugs, Carpet Beetles, Cockroaches, Crickets, Earwigs, Firebrats, Millipedes, Pillbugs, Silverfish, Sowbugs, Spiders, Clothes Moths, Flies, Gnats, Mosquitoes, Moths, Webs, Yellow Jackets.

Hold container sprays with spraying. Direct nozzle about 12 inches from surface to be treated. Spray around baseboards, into cracks and crevices and other places where insects live and hide. Do not spray on ant trails and ant hills. For wasps, hornets, yellow jackets: Application to nests should be made late in evening when insects are at rest. To aid in control of wasps and hornets in lawns and other outdoor home recreation areas, thoroughly direct the entire mound area. Spray provides contact activity and residual in the active mound. Use a coarse spray and apply gently to avoid disturbing nests. Note: For best results apply in cool weather ES to 60°F or in early morning or late evening hours. Treat new mounds as they appear.

Wood Infesting Pests. For control of carpenter ants around houses and other structures, apply a coarse spray to the swarm or area on which they collect. Re-enter when spray is dry.

Apply to exterior surfaces of the home. Spray a band 3 to 4 feet wide around and alongside the foundation and porches of the house. Also treat 1 to 2 feet up along the side of the dwelling. For more serious problems, a wider band of treatment, up to 10 feet, may be necessary. Spray with the wind to avoid drifting to water. Apply this product only as specified on this label.

Environmental Hazards
This pesticide is highly toxic to aquatic invertebrates and fish. Do not apply directly to water. Apply this product only as specified on this label.

Precautionary Statements

Hazard to Humans and Domestic Animals
CAUTION Harmful if swallowed or inhaled. Causes moderate eye irritation. Avoid contact with skin, eyes, or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco. Avoid breathing vapor or spray mist. Remove contaminated clothing and wash clothing before reuse.

Storage and Disposal

Product Storage: Store this product in original container. Store in a dry area away from children and domestic animals.

Disposal: If empty, do not reuse container. Place in trash or offer for recycling if available. If partly filled: Call your local solid waste agency for disposal instructions. Never pour unused product down any indoor or outdoor drain.

FIRST AID

If Swallowed: Call a poison control center or doctor immediately for treatment advice. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

If Inhaled: Hold open air open and close mouth and gently with water for 15 to 20 minutes. Remove contact lenses, if present, after the first 5 minutes. Then continue rinsing eye.

If Exposed: Move person to fresh air. If not breathing, call 911 or an ambulance, then give artificial respiration. preferably mouth-to-mouth if possible. Contact a doctor or poison control center for further treatment advice.

NOTE: Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also call 1-800-858-7378 for medical emergency information. Active Ingredients: Cyfluthrin 0.1% [CAS No. 68359-37-5].

When applying, do not allow the spray to contact ground surfaces. Take care not to spray the soil, turf, or walkways adjacent to foundation and porches.

Caution: This product is not intended for use in or on water. Do not apply di rectly to water. Apply this product only as specified on this label.

HOME INSECT CONTROL 2

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Before you use: Read and follow directions when using. This product is not intended for application to plants or lawns. Do not spray into fish ponds, pools, streams, or lakes. However, do not use as a space spray (do not spray into the air). Remove animal feeders and birdhouses before spraying. Keep children and pets away from treated areas until spray has dried. Do not use on an area where food is prepared or where food is exposed. Before spraying indoors, remove birds and other animals from the area. For best results, read and follow all label directions.

How To Use

Shake Well Before Use. This product is applied directly from the container using the battery operated trigger sprayer. The sprayer is packaged with the batteries installed. To use, remove the cap from the container, insert the pick up tube and thread cap attached to the pick up tube into the container. Move the safety lock located below the trigger to the "LOCK" position. Pull trigger, waiting several seconds for fluid to prime. Adjust the sprayer tip to deliver coarse spray to the application site. To store move the safety lock located below the trigger to the "ON" position.

Indoor Use:

To Control: Ants (except Pharaohs), Bedbugs, Carpet Beetles, Cockroaches, Crickets, Earwigs, Firebrats, Millipedes, Pillbugs, Silverfish, Spiders. To Control: Ants (except Pharaohs), Bedbugs, Carpet Beetles, Cockroaches, Crickets, Earwigs, Firebrats, Millipedes, Pillbugs, Silverfish, Spiders. Hold container upright while spraying. Direct nozzle about 12 inches from surface to be treated. Spray around baseboards, into cracks and crevices and other places where insects live and hide (under sinks, cabinets, refrigerators, damp areas, etc. etc.) until surfaces are wet. Avoid excessive wetting of linoleum, asphalt tiles or plastic. For long lasting residual action leave spray undisturbed. The product will keep on killing for up to 7 months. Re-enter when dry.

Outdoor Use:

Kills: Bollworm/Pepper Dist. Pests: Aedes, Asia, Bacillus, Bagworms, Beetle, Carpenter Ants, Caddisflies, Caddisflies, Cockroaches, Crickets, Earwigs, Firebrats, Millipedes, Pillbugs, Silverfish, Spiders. To Control: Ants (except Pharaohs), Bedbugs, Carpet Beetles, Cockroaches, Crickets, Earwigs, Firebrats, Millipedes, Pillbugs, Silverfish, Spiders. Apply to exterior surfaces of the home. Spray a band 3 to 4 feet wide around and alongside the foundation of the house. Treetail, walkway, or walkway adjacent to foundation and porches. Also treat 1 to 2 feet up along the sides of the driveway. For more serious problems, a wider band of treatment, up to 10 feet, may be necessary. Spray with the wind to avoid drifting of the spray onto soil or clothing. Treat where dissimilar building materials meet, such as where brick meets wood frame or where siding meets windows or doors, where cracks are visible or around and into any openings where pests enter the home. Spray around driveways and windows. Treat suitable surfaces of garages, carparks, patios, doorways and sidewalks if insects are present. Treat other problem areas such as around wood piles, storage sheds and other areas of insect infestation as needed. Spray on soil and walkways. For wasps, hornets, yellow jackets, applicator to nests should be applied late in evening when nests are active. To aid in control of fire ants in lawns and other outdoor home recreation areas, thoroughly drench the entire lawn area. Spray provides contact activity and residual in the active mound. For best results apply to cool weather 65 to 85°F or on early morning or late evening hours. Treat new mounds as they appear. For active termite infestations obtain the services of a licensed pest control operator. For control of emerging or reproductive stages of termites, apply a coarse spray to the swarm or area on which they collect. Re-enter when dry.

Storage and Disposal

Product Storage: Store this product in original container. Store in a dry area away from children and domestic animals. Disposal: Do not re-use container. Place in trash or offer for recycling if available. If partially filled: Call your local solid waste agency for disposal instructions. Never pour unused product down any indoor or outdoor drain.

FIRST AID

If Swallowed: Do not attempt to make a patient vomit. Do not give anything by mouth to an unconscious person. If in eyes: Hold eye open and rinse slowly and gently with water for 15 to 20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

If Inhaled: Move to fresh air. If not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Contact a doctor or poison control center for further treatment advice.

NOTE: Have the product container or label with you when calling a poison control center or doctor. You may also call 1-800-858-7378 for medical emergency information. The active ingredient: Sulfur 0.1% (CAS # 68395-37-9).
