DIRECTIONS FOR USE

This is a foliar spray, for use on the surface of plants to apply a controlled amount of active ingredient to the foliage of the plant. Dilute the product according to the instructions on the label. Do not use on plants intended for human or animal consumption.

GENERAL DESCRIPTION

A product in the category of systemic fungicides, designed to control a variety of plant diseases. It is systemic, spreading the active ingredient throughout the plant.

HARMFUL TO HUMANS AND DOMESTIC ANIMALS

Corrosive. Causes severe burns to skin or eyes. May be fatal if ingested. Prolonged or frequent exposure may cause permanent injury to the skin.

PRECAUTIONARY STATEMENTS

Always read and follow the label instructions carefully. Use in a well-ventilated area. Keep out of reach of children and pets. Do not eat, drink, or smoke when using.

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

Environmental Hazards

Do not contaminate waterways, ground water, or storm drains with this product. Do not apply near streams, ponds, or ditches. Do not apply when rain is expected within 48 hours.

Physical and Chemical Hazards

Do not allow the product to come into contact with any open wounds or cuts. Wash hands thoroughly after handling.
