ProKlenz® ONE

DIRECTIONS FOR USE

First Aid:

If In Eyes: • Hold eye open and rinse slowly and gently with water for 15-20 minutes.

• Remove contact lenses, if present, after the first 5 minutes, then continue rinsing the eye.

• Call a Poison Control Center or doctor for treatment advice.

If on Skin: • Take off contaminated clothing. • Rinse skin immediately with plenty of water for 15-20 minutes.

• Call a Poison Control Center or doctor for treatment advice.

If Swallowed: • Take 1 oz of Snappy 1400 Folder as glass of water if at source.

• Do not induce vomiting unless told to do so by the Poison Control Center or doctor.

If Inhaled: • Move person to fresh air.

• If person is not breathing, call 911 or doctor immediately; then give artificial respiration, preferably mouth-to-mouth if possible.

• Call a Poison Control Center or doctor for treatment advice.

If Flushed: • Remove contaminated clothing.

• If person is not breathing, call 911 or face mask; then give artificial respiration, preferably mouth-to-mouth if possible.

• Call a Poison Control Center or doctor for treatment advice.

If swallowed, harmful if inhaled, or absorbed through skin. Do not get in eyes, on skin, or on clothing. Avoid breathing vapor or spray mist. Wear face shield or goggles. Wear chemical-resistant gloves, long-sleeved shirt, long pants, socks and shoes. When mixing and loading, wear a chemical-resistance glove. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using restroom. Remove and wash contaminated clothing before reuse.

Personal Protective Equipment (PPE): Follow the manufacturer’s instructions for disposing of PPE. Use nitrile gloves and long-sleeved shirt, long pants, and long socks. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using restroom. Non-essential workers should wash contaminated clothing. Use of a proper type of respirator is recommended when exposure to this material is unavoidable. It is a violation of Federal law to use this product in a manner inconsistent with its labeling. ProKlenz® ONE is a high-performance, phosphate-free, alkaline detergent/disinfector. It is low-forming and free-rinsing to meet the unique cleaning demands found in clean-in-place and automatic washing equipment. It also provides broad-spectrum disinfection of hard non-porous surfaces including stainless steel manufacturing, holding, filling and packaging equipment in pharmaceutical, cosmetic, medical manufacturing and other high risk manufacturing operations. Cleaning: The choice of the correct formulation will depend on the residues and conditions and application method, but typically range from U.S. 1 to 5 gal/gal of water. Contact your STERIS sales representative for recommendations based on the above conditions. Do not apply product by manual spraying or by other means that would produce particles that are invisible.

ProKlenz® ONE is recommended for use to clean hard non-porous surfaces in manufacturing equipment and automatic washing equipment including mixing vessels, and packaging equipment. Surfaces should be rinsed with water after use of this product.

Disinfectant: ProKlenz® ONE is effective against Staphylococcus aureus, Salmonella enterica, and Pseudomonas aeruginosa when used at a 1% concentration of product per gallon of water for 5% blood serum and 250 ppm of hard water at 60° C. ProKlenz® ONE has been evaluated to be non-corrosive. Precaution: A 1% solution by adding 1 oz concentrate per gallon of water. Product must be applied to surfaces by circulating, course spray or direct immersion for a contact time of at least 5 minutes and the temperature maintained at 60° C. Under high risk conditions, product must be applied to surfaces by circulating, course spray or direct immersion for a contact time of at least 5 minutes. Do not apply product by manual spraying or by other means that would produce particles that are invisible.

*Virucidal Activity: ProKlenz® ONE is effective against Poliovirus (type 1) when used at a 1% concentration of product per gallon of water for 5% blood serum and 250 ppm of hard-water at 60° C for a contact time of 10 minutes. Protect and apply as directed above for disinfection. The product must remain in contact with the surface at 60° C for at least 10 minutes. Do not apply product by manual spraying or by other means that would produce particles that are invisible.

PRECAUTIONARY STATEMENTS

HAZARD TO HUMANS AND DOMESTIC ANIMALS

DANGER

Corrosion: Causes irreversible eye damage and skin burns. May be fatal if swallowed. Harmful if inhaled or absorbed through skin. Do not get in eyes, on skin, or on clothing. Avoid breathing vapor or spray mist. Wear face shield or goggles. Wear chemical-resistant gloves, long-sleeved shirt, long pants, socks and shoes. When mixing and loading, wear a chemical-resistance glove. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using restroom. Keep and wash PPE separately from other laundry.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal. Pesticide Storage: Do not store on sites, avoid mixing or impacting of site container equipment.

Pesticide Disposal: Pesticide wastes are acutely hazardous, improper disposal of excess pesticide, mixture or residue is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Protection Agency, or the Hazardous Waste Representatives of the nearest EPA regional office for guidance.

Container Disposal: Nonhazardous container; Do not reuse or refill container. Offer for recycling. Follow your local container reuse policies or submit the container for recycling as directed by local officials. The container is nonrefillable container. Do not reuse or refill this container. Offer for recycling. Clean container entirely after emptying. Wash clean container thoroughly with soap and water before reuse or recycling.
