react violently to produce heat and toxic gas and spatter. Do not add water to this product. Add only into water. Do not mix with other products except with a small amount of water. Only add this product directly to your pool or spa. Do not allow to become wet or damp before use.

Can react with other materials, including other water treatment products, to cause fire, explosion, and the release of toxic gases. Keep all flammable material, including other water treatment products, away from this product. Do not allow this product to contact other water treatment products before putting this product into a skimmer.

Exposure to heat can cause this product to rapidly decompose, leading to fire, explosion, and the release of toxic gases. Store in a cool, dry, well-ventilated area away from heat or open flame.

Strong oxidizing agent. This product can increase fire intensity. Keep away from heat and from flame and burning material (like a lit cigarette).

ENVIRONMENTAL HAZARD: This pesticide is toxic to fish and aquatic organisms.

STORAGE & DISPOSAL: Keep this product dry in its tightly closed container. Store in a cool, dry, well-ventilated area. Keep away from heat or open flame. Nonrefillable container. Do not reuse or refill this container. Rinse and discard empty container thoroughly to prevent the release of all material prior to disposal. Do not recycle or refilling. Do not contaminate food or feed by storage or disposal of cleaning equipment.

FOR DISPOSAL OF A CONTAMINATED OR DECOMPOSING PRODUCT SEE "EMERGENCY HANDLING".

EMERGENCY HANDLING: in case of contamination or decomposition—Do not reuse container. Immediately remove container to an open and well-ventilated area away from the pool. Flood with large amounts of water until the material is no longer easily visible. Do not allow this material to accumulate as toxic gases may be generated.

POOL SHOCK TREATMENT: Add the recommended dosages of this product while the filter pump is running. Use "METHOD OF APPLICATION". When adding this product to your pool, broadcast the product evenly over a wide area in the deepest part of the pool. Do not add this product to the skimmer. Make sure that the material is drawn into the system at the same rate. Do not allow this material to accumulate as toxic gases may be generated.

ALGAE CONTROL: If the sides or bottom of your pool develops algae spots, direct this product to the algae as close to the source as possible. Follow "POOL SHOCK TREATMENT" directions.

ACUTE INGESTION: Symptoms: Vomiting, diarrhea, nausea, and sometimes death. Do not drink this product. Seek medical help immediately. No antidotes are known for this product.

ACUTE INHALATION: Symptoms: Coughing, wheezing, and sometimes death. Do not inhale this product. Seek medical help immediately.

FIRST AID: If IN EYES: Hold eye open and rinse slowly and gently with water for 15–20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eyes. Call a physician control center or doctor for treatment advice. If IN SKIN OR CLOTHING: Remove contaminated clothing. Rinse skin immediately with plenty of water for 15–20 minutes. Call a poison control center or doctor for treatment advice. IF INHALED: Call a physician control center or doctor immediately for treatment advice. Call a physician control center or doctor immediately for treatment advice.

DANGERS: Do not contaminate food, food or feed by storage or disposal of cleaning equipment.
