FIRST AID:

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15–20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15–20 minutes. Call a poison control center or doctor for treatment advice.

IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

IF INHALED: Remove person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage. Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

IN CASE OF EMERGENCY CALL: 1-800-654-6911

3-in-1 chlorinating skimmer tablets
sanitizes pool water + inhibits scale + contains algaecide
desinfecta el agua de las piscinas + contiene un desecho para la placa + evita la formación de algas

1 balance 2 shock 3 prevent algae

DANGER
Contamination or improper use may cause intense fire, explosion, or the release of toxic gases. Do not allow product to contact any foreign matter, including other water treatment products. If product is exposed to small amounts of water, it can react violently to produce heat and toxic gases and spatter. Do not mix this product with a small amount of water. Only add directly to your pool. Do not add water to this product. Add only into water. Do not remove floater or other dispensing device from water for more than five minutes if it contains tablets or tablet residue. Corrosive. Causes irreversible eye damage and skin burns. Harmful if swallowed or absorbed through skin. Read all precautionary statements and all first aid statements on back panel before use.

Net Wt. 4.3 lbs. (1.9 kg)
WHY YOU SHOULD USE THIS PRODUCT

HTH® 3-in-1 chlorinating skimmer tablets are a slow dissolving product that is easy and convenient to use. This product controls algae, kills bacteria and destroys organic contaminants. These tablets are designed to be used in the skimmer basket and dissolve slowly (up to 1 week) providing a steady source of available chlorine for complete swimming enjoyment in your pool. For crystal clear clean pool water, follow our 4 step pool care program:

**Step 1:** Test and balance pool water.
**Step 2:** Sanitize.
**Step 3:** Shock at least once a week.
**Step 4:** Add algaeicide as directed.

**DIRECTIONS FOR USE:** It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

**READ ALL PRECAUTIONARY STATEMENTS BEFORE USE.**

**DO NOT** use this product with any other chlorinating compound.

**DO NOT** place in skimmer baskets that contain undissolved material or residue from previously used tablets or sticks.

**DO NOT** use this product in any floater or feeder which has previously contained other chemicals.

**HOW TO USE:** Do not allow this product to contact other water treatment products. Use only in pools with a skimmer and skimmer basket. Skimmer basket should be free of other water treatment products before adding recommended amount of this product. Failure to do so could result in a chemical reaction or possible explosion. One tablet weighs approximately 9.5–10 ounces. Place tablet in the empty skimmer basket. Replace with a new tablet as needed. Do not pre-mix this product. Only add this product directly to your pool.

**WATER BALANCE:** For best product performance, swimmer comfort and crystal clear water, use HTH pool care products to maintain the following water balance:

<table>
<thead>
<tr>
<th>Acceptable Range for Balance</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>pH</strong></td>
</tr>
<tr>
<td>7.2–7.6</td>
</tr>
<tr>
<td><strong>Total Alkalinity</strong></td>
</tr>
<tr>
<td>60–100 ppm</td>
</tr>
<tr>
<td><strong>Calcium Hardness</strong></td>
</tr>
<tr>
<td>Above 200 ppm</td>
</tr>
<tr>
<td><strong>Available Chlorine</strong></td>
</tr>
<tr>
<td>1–4 ppm</td>
</tr>
</tbody>
</table>

Follow label directions for each product and allow each product to dissolve and disperse before adding additional products to the pool. Use a reliable test kit that measures all these ranges.

**OPENING YOUR POOL:** For best results, refer to the “WATER BALANCE” section on this package before treatment. Always adjust and maintain pH in the 7.2 to 7.6 range. 1. Follow “POOL SHOCK TREATMENT” directions on this package. 2. Allow 30 minutes for product to disperse. 3. Test free available chlorine residual with an HTH pool test kit. **DO NOT** enter pool until the free available chlorine residual is 1–4 ppm. 4. Repeat treatment as needed.

For best results, during the pool season, follow the HTH 4 Step Program.

**ROUTINE CHLORINATION:** For best results, see “WATER BALANCE” section before treatment. Throughout the pool season, adjust pH to 7.2–7.6. Begin by using 3 tablets of this product per 7,000 gallons of pool water. If you stabilize your pool using HTH Stabilizer and Conditioner, begin by using 1 tablet of this product per 7,000 gallons of pool water. After one day, use a HTH test kit to check free available chlorine residual. Increase or decrease the number of tablets to maintain a free available chlorine residual of 1–4 ppm. Follow “HOW TO USE” directions on this package.

**POOL SHOCK TREATMENT:** For best results, see “WATER BALANCE” section above before treatment.

1. Adjust and maintain pH to 7.2–7.6 with HTH pH Plus® or HTH pH Minus. Follow label directions on that product. Allow product to disperse before proceeding.
2. Shock treat using HTH shock products. Follow label directions on those products.
3. **DO NOT** enter pool until the free available chlorine residual is 1–4 parts per million (ppm).

**PRECAUTIONARY STATEMENTS: HAZARDS TO HUMANS AND DOMESTIC ANIMALS:** DANGER. Corrosive. Causes irreversible eye damage and skin burns. Harmful if swallowed or absorbed through skin.

- Open in a well ventilated area. Avoid breathing dust and fumes.
- Do not get in eyes, on skin or on clothing. Wear goggles and rubber gloves. For additional protection of skin, wear long sleeves and long pants.
- Wash hands after handling and before eating, drinking, chewing gum, using tobacco or using the toilet.
- Remove contaminated clothing and wash clothing before reuse.

**PHYSICAL AND CHEMICAL HAZARDS:**

DANGER. If product is exposed to small amounts of water, it can react violently
to produce heat and toxic gas and spatter. Do not add water to this product.
Add only into water.
- Do not mix this product with a small amount of water. Only place this product
directly in the skimmer. - Do not allow to become wet or damp before use.

Can react with other materials, including other water treatment products, to cause
fire, explosion, and the release of toxic gases.

- Keep all foreign matter, including other water treatment products, away from this
product. - Use only clean dry utensils to dispense this product. - Do not use this
product in a floater or feeder that has been used with any other product. - Do not
allow this product to contact other water treatment products. If used with a skimmer,
makes sure skimmer is completely clean and free of residue from other water
treatment products before putting this product in a skimmer.

Exposure to heat can cause this product to rapidly decompose, leading to fire,
exlosion, and the release of toxic gases.

- Store in a cool, dry, well-ventilated area away from heat or open flame.

Strong oxidizing agent. This product can increase fire intensity.
- Keep away from heat and from flame and burning material (like a
lighted cigarette).

ENVIRONMENTAL HAZARD: This pesticide is toxic to fish and aquatic organisms.

STORAGE & DISPOSAL:
Keep this product dry in its tightly closed container when not in use. Store in a cool,
dry, well-ventilated area. Keep away from heat or open flame. Nonrefillable container
Do not reuse or refill this container. Rinse empty container thoroughly with water to
dissolve all material prior to disposal. Offer for recycling if available. Do not
contaminate food or feed by storage or disposal or cleaning of equipment. FOR
DISPOSAL OF A CONTAMINATED OR DECOMPOSING PRODUCT SEE “EMERGENCY
HANDLING”.

EMERGENCY HANDLING: In case of contamination or decomposition:
1. Do not reseal container. 2. Immediately remove container to an open and
well-ventilated outdoor area by itself. 3. Flood with large amounts of water until
the material is dissolved. 4. Dispose of container and any remaining contaminated
material in an approved landfill area.
