ANTI BLU® TK-30

Hazardous if swallowed. Harmful if absorbed through skin. Causes moderate eye irritation. Avoid contact with eyes, skin, or clothing. Use PPE.

PERSONAL PROTECTIVE EQUIPMENT (PPE)
Applicators and other handlers must wear:
- Long-sleeved shirt and long pants
- Shoes and socks
- Chemical resistant gloves (such as barrier laminate, butyl, nitrile, or neoprene rubber, polyvinyl chloride (PVC) or viton)
- Protective eyewear

SAFETY REQUIREMENTS
Follow manufacturer’s instructions for cleaning/maintaining PPE. If no such instructions were wash, use detergent and hot water. Keep away from oxidizers. Wash PPE separately from other laundry. Discard clothing and other absorbent materials that have been drenched or heavily contaminated with this product’s concentrate. Do not reuse them.

SAFETY RECOMMENDATIONS
Users must:
- Wash hands before eating, chewing gum, using tobacco, or using the toilet. Remove clothing / PPE immediately if pesticide gets inside, then wash thoroughly and put on clean clothing. Remove PPE immediately after handling this product. As soon as possible wash thoroughly and change into clean clothing. Wash the outside of gloves before removing.

ENVIRONMENTAL HAZARDS
This product is toxic to fish and shrimp. Do not apply directly to water. Do not contaminate water when disposing of equipment washwaters or rinsewaters. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewers without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

PHYSICAL OR CHEMICAL HAZARDS
This product is a reducer. Keep away from oxidizing agents. Incompatible with water.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

KEEP OUT OF REACH OF CHILDREN

CAUTION

See side panel for additional precautionary statements

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected areas may be in the area during application.

The AntiBlu® TK-30 concentrate is a clear yellow solution containing 30% by weight Propiconazole in solvent. This product can be used for various purposes as follows:
- Not to exceed 5 minute contact with skin, eyes, mouth, or clothing
- Not to foamed
- Not to deposited
- Not to use over significant ground loss
- Not to relatively heavy or to slow-moving water
- Not to with other products
- Not to contaminate water, food, feed or soil
- Not to dispose of to waters of any kind
- Not to from oxidizers
- Not to exposure to heat, flame, sparks, static electricity, or other incompatible conditions.

Do not contaminate water, feed, or other waters by storage or disposal. Open tank and then enough water is added to bring the total volume up to 100 gallons of solution. In electrostatic spray applications, AntiBlu® TK-30 spray solution is used. A minimal effort strength is varied by number of application nozzles used and line speed. Bates, for all applications used, will vary according to temperature, humidity, wood moisture, storage conditions, etc. Contact your local AntiBlu® TK-30 product representative for application advice.

Remove sawdust and other debris from treating solution on a regular basis to maintain correct concentration of AntiBlu® TK-30 in application solution. To prevent fungal attack below the surface of the wood, treat freshly sawn lumber within 24 hours. Protect treated lumber from rain and removed from direct solar/ground contact.

DECAY AND STAIN PROTECTION

Description: AntiBlu® TK-30 is a wood preservative concentrate that requires dilution with water prior to use on wood products to protect against decay (brown and white rot) and staining fungi (blue stain).

Product Uses: For application to millwork, shingles & shakes, siding, plywood, and structural lumber & composites that are used in above ground applications. Do not use on wood which will come in contact with food.

Wood Preparation: Machine, cut, glue, and sand wood as desired before treating. Do not use previously finished or stained wood without stripping off old finish. Wood must be clean and dry before treatment. Wood for pressure treatment must be kiln dried or air seasoned to a moisture content, of about 25% or less, that will permit adequate penetration of preservative during treatment.

STORAGE AND DISPOSAL

Do not store near food, water, food or feed by storage or disposal. Open pumping is prohibited.

PESTICIDE STORAGE: Store in a cool dry ventilated location, away from oxidizers, heat, flame, or other incompatible conditions. Keep container(s): closed. Do not store near feed, food, or within the reach of children. Do not freeze. Keep product tightly sealed in original container. Store in a cool, dark, well-ventilated place. Protect from bright light. Abandoned containers cannot be re-used. By using according to label instructions contact your State Pesticide or Environmental Protection Agency for guidance at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL: Do not reuse empty container. Empty containers that retain product residue (liquid, solid,sludge, or vapor) is a violation of Federal Law. If these wastes cannot be properly disposed of by use according to label instructions contact your State Pesticide or Environmental Protection Agency for guidance at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL: Do not reuse empty container. Empty containers that retain product residue (liquid, solid, sludge, or vapor) is a violation of Federal Law. If these wastes cannot be properly disposed of by use according to label instructions contact your State Pesticide or Environmental Protection Agency for guidance at the nearest EPA Regional Office for guidance.
