**FIRST AID**

**IF IN EYES:**
- Hold eye open and rinse slowly and gently with water for 30 minutes.
- Remove contact lenses, if present, after the first five minutes, then continue rinsing eye.
- Call a poison control center or doctor for treatment advice.

**IF SWALLOWED:**
- Call a poison control center or doctor immediately for treatment advice.
- Have person sip a glass of water, if able to swallow.
- Do not induce vomiting unless told to by a poison control center or doctor.
- Do not give anything by mouth to an unconscious person.

**IF ON SKIN OR CLOTHING:**
- Take off contaminated clothing.
- Rinse skin immediately with plenty of water for 15-20 minutes.
- Call a poison control center or doctor for treatment.

**IF INHALED:**
- Move person to fresh air.
- If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth to mouth, if possible.
- Call a poison control center or doctor for further treatment.

IN CASE OF AN EMERGENCY endangering life or property involving this product, call Toll Free 1-800-548-0489.
Have the product container or label with you when calling a poison control center or doctor or going for treatment.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.
PERSONAL PROTECTIVE EQUIPMENT (PPE)
Mixers, loaders, applicators and other handlers must wear: Overalls over short-sleeved shirt and short pants Socks and Chemical-resistant footwear Goggles and face shield, and Chemical-resistant gloves made of barrier laminate, butyl rubber, neoprene rubber, polyvinyl chloride or viton.

USER SAFETY RECOMMENDATIONS
Wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet. Remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing. Remove PPE immediately after handling this product. As soon as possible, wash thoroughly and change into clean clothing.

PESTICIDE STORAGE:
Do not contaminate water, food or feed by storage and disposal

PESTICIDE DISPOSAL:
Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinseate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste Representative at the nearest EPA Regional office for guidance.

CONTAINER DISPOSAL:
Nonrefillable Container: Do not reuse or refill this container. Triple rinse or pressure rinse container (or equivalent) promptly after emptying. Then offer for recycling, if available, or puncture and dispose of in a sanitary landfill, or by incineration, or if allowed by state and local authorities by burning. If burned, stay out of smoke.

ENVIRONMENTAL HAZARDS:
This pesticide is toxic to fish and wildlife. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

DIRECTIONS FOR USE:
It is a violation of Federal Law to use this product in a manner inconsistent with the labeling.

FOR USE IN HYDROCARBON PRESERVATION
To control the growth of problem microorganisms associated with the fuel.

IN GENERAL USE: Add ValvTect BioGuard ULS Microbiocide to storage tanks or fuel tanks for control of microbial growth in diesel oil, fuel oil, gasoline, or kerosene. Treatment may be performed by slug dosage or by intermittent metering to maintain a concentration of 135 - 1000 ppm of ValvTect BioGuard ULS Microbiocide.

FOR STORAGE ABOVE WATER: Add 1 gallon of ValvTect BioGuard ULS Microbiocide to each 1000 gallons of water in the bulk storage system to achieve a concentration of approximately 1000 ppm. To facilitate mixing, dissolve each gallon of ValvTect BioGuard ULS Microbiocide in 100 gallons of water and add this solution directly to the water phase in the tank with minimal agitation.

FOR STORAGE IN TANKS WITHOUT INTENTIONAL WATER:
Add 0.125-1 gallon of ValvTect BioGuard ULS Microbiocide directly to each 1000 gallons of hydrocarbon in the system to obtain a concentration of approximately 135 - 1000 ppm.

IN A FUEL TREATMENT PRE-MIX: ValvTect BioGuard ULS Microbiocide may be mixed with other fuel additive for addition to fuel. The end user must add sufficient ValvTect BioGuard ULS Microbiocide to the pre-mix to provide 135 - 1000 ppm of ValvTect BioGuard ULS Microbiocide in the treated fuel.

This diesel fuel additive complies with the Federal low sulfur content requirements for use in diesel motor vehicles and nonroad engines.

Notice: Seller warrants that the product conforms to its chemical description as contained on this label and is reasonably fit for the purposes stated on this label when used in accordance with directions under normal conditions of use. THE WARRANTIES MADE IN THIS PARAGRAPH ARE SELLER'S SOLE WARRANTIES AND ARE MADE EXPRESSLY IN LIEU OF AND EXCLUDE ANY IMPLIED WARRANTIES OF MERCHANTABILITY OR OF FITNESS FOR A PARTICULAR PURPOSE AND ALL OTHER EXPRESS OR IMPLIED REPRESENTATIONS AND WARRANTIES.
