**DIRECTIONS FOR USE**

**DRILLING, COMPLETION, AND WORKOVER FLUIDS**

AQUACAR GA 25 Water Treatment Microbiocide is a thinning fluid used to prevent the formation of a thinning fluid used to prevent the formation of a "mushy" or "soft" fluid wall in the event of a stuck pipe. It is a nonionic surfactant used to improve the fluidity of the drilling fluid. It is also used to control bacteria in water treatment systems.

**PACKING FLUIDS**

AQUACAR GA 25 Water Treatment Microbiocide should be added to a packing fluid at a rate of 0.5 to 2.5 g of AQUACAR GA 25 Water Treatment Microbiocide per gallon of packing fluid.

**INTERMEDIATE (SLUG) DOSE METHOD**

**Initial Dose:** When the system is initially treated, apply 25 to 50 gal of AQUACAR GA 25 Water Treatment Microbiocide per 1,000 gal of water in the system.

**First Changeover:** When the system is changed over to a new water supply, add 25 to 50 gal of AQUACAR GA 25 Water Treatment Microbiocide per 1,000 gal of water in the system.

**DIRECTIONS FOR USE**

A highly effective Microbiocide for use in controlling bacteria including Sulfur Forming Bacteria and Anaerobic-Reducing Bacteria. AQUACAR GA 25 Water Treatment Microbiocide is a thinning fluid used to control bacteria in water treatment systems.

**STORAGE AND HANDLING**

AQUACAR GA 25 Water Treatment Microbiocide is incompatible with many commonly used materials, including aluminum, calcium, iron, zinc, and other metals. AQUACAR GA 25 Water Treatment Microbiocide is not compatible with most plastic or polyurethane materials, including stainless steel, or most polyolefin plastic equipment.

**LIMITED WARRANTY AND DISCLAIMER**

The manufacturer's limited warranty and disclaimer apply to this product. This warranty and disclaimer are valid as long as the product remains in good condition and is stored properly.

**cury**

**Transportation**

AQUACAR GA 25 Water Treatment Microbiocide must be transported in accordance with the regulations of the U.S. Department of Transportation.

**ACQUISITION OF SALES TAX**

AQUACAR GA 25 Water Treatment Microbiocide is subject to sales taxes as required by local and state authorities.

**DISPOSAL**

Upon disposal, AQUACAR GA 25 Water Treatment Microbiocide must be disposed of in accordance with local and state regulations.

**SAFETY DATA SHEET**

AQUACAR GA 25 Water Treatment Microbiocide is a thinning fluid used to control bacteria in water treatment systems. It is a non-ionic surfactant used to improve the fluidity of the drilling fluid. It is also used to control bacteria in water treatment systems.
