APPLICATION DIRECTIONS:

House Rats and Roof Rats: Apply 3 to 10 blocks per placement, using bait stations as required under "IMPORTANT." Space placements at intervals of 1 to 3 feet, or until bait stations are completely covered by the product. For feeding boxes, place 1 to 4 blocks, depending on each active burrow. Check treated burrows each morning and evening to make sure that bait has not been pushed out of the burrow. Maintain an uninterrupted supply of fresh bait for at least 10 days or until fresh signs of feeding by rats cease to appear.

Mice: Apply 1 block per placement, using bait stations as required under "IMPORTANT." Space placements at intervals of 1 to 2 feet, or until bait stations are completely covered by the product. Check treated burrows each morning and evening to make sure that bait has not been pushed out of the burrow. Maintain an uninterrupted supply of fresh bait for at least 15 days or until fresh signs of feeding by mice cease to appear.

STORAGE AND DISPOSAL:

Do not contaminate water, food, feed or food by disposal or storage. STORAGE: Store only in original container in a cool dry place inaccessible to children and pets. Keep containers closed and away from other chemicals.

PESTICIDE DISPOSAL: Washers resulting from the use of this product may be disposed of in a septic or other approved waste disposal facility.

DISPOSAL OF WASTE MATERIAL: Animals' carcasses should be removed from the treated area before disposal in the usual manner.

NOTICE: Buyer assumes all risk of use, storage or handling of this product not in accordance with label directions.

Note: Seller warrants that this product complies with the specifications expressed on this label. To the extent consistent with applicable law, Seller makes no other warranties, and disclaims all other warranties, express or implied, including but not limited to warranties of merchantability and fitness for the intended purpose. To the extent consistent with applicable law, Seller shall have no liability for consequential damages.
