INSTRUCCIONES DE USO
Constituye violación de la Ley Federal utilizar este producto de una manera distinta a la estipulada en la etiqueta.

RESTRICTIONS DE USO: No lo aplique en plantas destinadas para consumo humano o animal. Use este producto para repeler venados, conejos y ardillas de árbol que se alimentan de las flores, plantas, arbustos, bulbos, árboles y...
DIRECTIONS FOR USE
It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

USE RESTRICTIONS: Use this product to repel deer, rabbits and tree squirrels that feed on flowers, plants, shrubs, bulbs, trees and seedlings. Do not apply at temperatures below 40°F or in wet, windy conditions. Apply only in dry conditions and only under conditions favoring prompt drying of spray (lightly breezy, mild dry weather with low relative humidity). If spray is used in wet conditions or in damp, cold, foggy or misty weather, or if precipitation or freezing occurs before spray can dry, protection may be partially or completely lost. Protect product from freezing. Freezing makes READY-TO-USE DEER OFF® II unusable.

IMPORTANT: This product contains egg solids which may cause allergic reactions in some individuals. Do not allow spray to drift onto plants intended for human consumption.

APPLICATION DIRECTIONS: Shake the container of READY-TO-USE DEER OFF® II before use. Before large-scale treatments, test product on a small area of that plant type to avoid possible plant damage. To apply, turn nozzle to spray or stream and pump trigger until material starts to disperse. Spray leaves, stems, flowers and branches thoroughly from all angles, until leaves are well wetted. One quart of READY-TO-USE DEER OFF® II treats 40-50 ornamental shrubs 4 feet tall or approximately 400-500 square feet. Surface conditions, size and density of plantings will affect the area covered with a given quantity of spray. Clean sprayer after each application to prevent clogging. Treat vulnerable plants at the beginning of each damage season. Reapply every 2-3 months, or as new growth emerges and if the effects of the previous treatment appear to be working. Reapply after heavy rain. Use with caution on open blooms and sensitive varieties such as impatiens, lychias and begonias.

STORAGE AND DISPOSAL
Do not contaminate water, food or feed by storage or disposal.

PESTICIDE STORAGE: Store only in original container, in a cool, dry area. Keep away from children and pets.

Do not store near heat and freezing. Store between 40°F and 90°F. Keep container tightly closed to prevent spillage and evaporation. If spillage occurs, dilute with water and flush away.

CONTAINER DISPOSAL: If empty - Nonrefillable container. Do not refill or reuse this container. Place in trash or offer for recycling, if available. If partly filled - Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.
