**Agricultural Use Requirements**

Use this product only in accordance with its labeling and with the Worker Protection Standard, 40 CFR part 170. This Standard contains requirements for the protection of agricultural workers on farms, forests, nurseries, and greenhouses, and handlers of agricultural pesticides. It contains requirements for training, decontamination, notification, and emergency assistance. It also contains specific instructions and exceptions pertaining to the statements on this label about personal protective equipment (PPE) and restricted-entry interval. The requirements in this box only apply to uses of this product that are covered by the Worker Protection Standard.

Do not enter or allow worker entry into treated areas during the restricted entry interval (REI) of 24 hours.

PPE required for early entry to treated areas that is permitted under the Worker Protection Standard and that involves contact with anything that has been treated, such as plants, soil, or water, is coveralls over long-sleeved shirt and long pants, socks and shoes, goggles or face shield, and chemical-resistant gloves made of any waterproof material.

**Storage and Disposal**

Do not contaminate water, food or feed by storage or disposal of this product.

STORAGE: Store in a cool, dry, well-ventilated area.

PESTICIDE DISPOSAL: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL: Completely empty bag into application equipment. Then dispose of empty bag in a sanitary landfill or by incineration, if allowed by State and local authorities, by burning. If burned, stay out of smoke.

**General Information**

Apply recommended amounts when air is calm, using ground equipment, aircraft, or hand duster.

Applications of material containing sulfur should not be made just prior to or during periods of high summer temperatures. Concord and other Nebraska type grapes may be injured by sulfur. Consult your local Agriculture Extension Service for additional information consistent with directions on this label.

Do not mix or dilute with other products. Thorough coverage is essential.

**Grapes:** Powdery mildew, Bunch rot - Use 20-25 lbs. per acre. Apply when berries start to touch. Repeat at 7 to 10 day intervals or as needed. Applications must be applied before the disease appears.

**NOTICE:** Seller warrants that this material conforms to the chemical description on the label and is reasonably fit for use as directed herein. Seller neither makes nor authorizes any agent or representative to make, any other warranty of fitness or of merchantability, guarantee or representation, expressed or implied, concerning this material.

**Critical and unforeseeable factors beyond the control of Seller prevent it from eliminating all risk in connection with the use of chemicals. Such risks include, but are not limited to, damage to plants and crops to which the material is applied, lack of complete control, and damage caused by drift to other plants or crops. Such risks occur even though the product is reasonably fit for the uses stated herein and even though label directions are followed. Buyer and user acknowledge and assume all risks and liability (except those assumed by Seller above) resulting from handling, storage, and use of this material.
