Supplemental Labeling

Rally® 40WSP
EPA Reg. No. 62719-410

EPA 24(c) Special Local Need Registration SLN WA-090007
For Distribution and Use Only Within the State of Washington

Expiration Date: This label for Rally 40WSP expires and must not be distributed or used in accordance with this SLN registration after December 31, 2013.

Control of Rusts (Puccinia spp.) and Powdery Mildew (Erysiphe graminis) in Perennial Ryegrass, Fescues and Kentucky Bluegrass Grown for Seed

ATTENTION
• It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
• This labeling must be in the possession of the user at the time of application. Follow all applicable directions, restrictions, Worker Protection Standard requirements and precautions on the EPA registered label.

Directions for Use

Rally® 40WSP fungicide is a systemic curative and protectant fungicide. For best results, apply on a regularly scheduled protectant spray schedule starting at the first sign of disease development and continuing until the threat of further disease development is past. Apply 5 to 7.5 oz (0.125 to 0.187 lb active) of Rally 40WSP in a minimum of 20 gallons of water per acre for ground application or in a minimum of 10 gallons of water per acre for aerial application. Begin applications in early spring or when disease symptoms are first noticeable and continue applications on a 14- to 21-day application schedule. Use a higher rate or shorter spray interval on susceptible varieties or under heavy disease pressure.

Specific Use Restrictions:
• Do not apply Rally 40WSP within 1 year (365 days) of harvesting grass hay.
• Do not graze livestock in treated fields within 1 year (365 days) of applying Rally 40WSP.
• Do not apply more than 30 oz product (0.75 lb active) per acre per year.
• Do not enter or allow worker entry into treated areas during the restricted entry interval (REI) of 24 hours.
• Chemigation: For use under this SLN label do not apply this product through any type of irrigation system.

WSDA Container Disposal Guidance for Paper Containers: Completely empty the contents of the pesticide container into application equipment and apply to a labeled crop or site. The empty container may be disposed of in a sanitary landfill. Burning is not a legal method of container disposal in Washington.
