Principal Functioning Agents:
3-oxapentane-1,5-diol, propane-1,2,3-triol, alkylphenol ethoxylate, polydimethylsiloxane .............. 80%

Constituents Ineffective as Spray Adjuvants ................... 20%

TOTAL .......................................................... 100%

KEEP OUT OF REACH OF CHILDREN

CAUTION

NET CONTENTS: 2.5 U.S. GALLONS (9.462 L)

CAUTION: Harmful if swallowed, absorbed through skin or inhaled. Avoid breathing vapor or spray mist. Remove contaminated clothing and wash clothing before reuse. Causes moderate eye irritation. Avoid contact with eyes, skin or clothing. Wash thoroughly with soap and water after handling. Personal Protective Equipment: Wear Long-sleeved shirt and long pants, Socks, Shoes and Gloves.

First Aid: If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. If in eyes: Hold eye open and rinse slowly and gently with water for 15 to 20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. If swallowed: Call a poison control center or doctor immediately for treatment advice. Have the person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison center or doctor. Do not give anything by mouth to an unconscious person. If Inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible.

FOR A MEDICAL EMERGENCY INVOLVING THIS PRODUCT, CALL 1-866-944-8565.

GENERAL: SCANNER® is a low-foaming, non-ionic type surfactant. It is used as a spray tank adjuvant to reduce surface tension of spray solutions and to improve wetting and distribution of pesticides on plants and into soil.

DIRECTIONS FOR USE: When added in the spray tank, SCANNER Non-Ionic Surfactant provides more thorough and uniform wetting by reducing surface tension of the spray mixture. Also follow precautions and directions for all the spray materials used. Variations in conditions, such as result from water type, equipment, plant maturity, weather conditions and other factors, may cause some variation in the amount of SCANNER needed. The application rates on this label are based on pesticide labels which recommend the use of a non-ionic surfactant. Rates of this product may be increased or decreased. For optimum results, follow pesticide labeling for proper recommendations. Before using SCANNER where a non-ionic surfactant may not be recommended, the user or applicator advisor must have experience with the combination or must have conducted a phytotoxicity trial.

MIXING INSTRUCTIONS: For wettable powders and water soluble materials, add SCANNER in water before adding pesticide to spray tank. For emulsifiable products, add SCANNER after a good emulsion is formed.

SCANNER® is a registered trademark of Crop Production Services, Inc.

For help with any spill, leak, fire or exposure involving this material, call day or night CHEMTREC 1-800-424-9300.

For use in Utility and Highway R.O.W. and in Forest Site Preparation:
Use 1 to 4 pints per 100 gallons of water.

For Use with Herbicides, Defoliants, Desiccants, Wettable Powders:
Use 3-8 fl. oz. per 100 gallons of water.

For Use with Foliar Nutrients:
Use 1 pint per 100 gallons of water.

Foliar Nutrients: Use 1 pint per 100 gallons of water.

In difficult wetting situations (such as hard water on mature waxy foliage) the higher rates may be required.

For optimum results, follow pesticide labeling for proper recommendations. Before using SCANNER where a non-ionic surfactant may not be recommended, the user or applicator advisor must have experience with the combination or must have conducted a phytotoxicity trial.

Environmental Hazards: Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when cleaning equipment or disposing of equipment washwaters.

STORAGE AND DISPOSAL:
STORAGE: Store in cool, dry place. Store in original container. Keep container tightly closed. Do not reuse empty container.

DISPOSAL: Do not contaminate water, food, or feed by storage or disposal. Wastes may be disposed of on-site at an approved non-hazardous waste disposal facility. Triple rinse (or equivalent) adding rinse water to spray tank. Offer for reconditioning for recycling or disposal of container in sanitary landfill, or by other procedures approved by appropriate authorities. Recycling decommissioned containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit the ACRC web page at www.acrcycle.org.
