**FIRST AID**

- **If swallowed:** Call a poison control center or doctor for further treatment advice. If person is not breathing, call 911 or ambulance, then give artificial respiration. Do not administer anything by mouth or induce vomiting unless told to do so by the poison control center or doctor.

- **If inhaled:** Call a poison control center or doctor immediately for treatment advice or neutralize the stomach acidity. The stomach and intestinal tract can be evacuated, oxygen administered and cardiac and circulatory stimulants given.

- **If eyes:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Do not rub eye. Remove contact lenses, if present, after the first five minutes, then continue rinsing eyes. Call a poison control center or doctor for treatment advice.

- **If skin contacted:** If skin is not broken, wash with soap and water. If skin is broken, neutralize the stomach acidity. The stomach and intestinal tract can be evacuated, oxygen administered and cardiac and circulatory stimulants given. Call a poison control center or doctor immediately for treatment advice.

**NOTES TO PHYSICIAN OR VETERINARIAN**

Contains phosphine-producing active, Zinc Phosphide. Probable incausal damage may be neutralized by hydrogen peroxide. For animals ingesting bait and showing poisoning signs, induce vomiting by using hydrogen peroxide. Sodium bicarbonate can be given orally to neutralize the stomach acidity. The stomach and intestinal tract can be evacuated, oxygen administered and cardiac and circulatory stimulants given.

**USE RESTRICTIONS:**

- This product is extremely toxic to birds, fish and other wildlife. Wildlife feeding on treated bait may be killed. Do not apply directly to water.
- Do not apply to ponds, lakes, streams or bodies of water or to areas where food or feed may become contaminated.

**DISPOSAL:**

- If full: Follow all disposal instructions. Dispose of by burning or by other means approved by local authorities.
- If partially filled: Place in trash or call your local solid waste agency for disposal instructions.
- If empty: Place in trash or offer for pick up by your local solid waste provider.

**STORAGE AND DISPOSAL**

- Store in original container in a cool, dry, well-ventilated area. Keep out of reach of children.

**PRECAUTIONARY STATEMENTS**

- **Precautionary Statement:** This product is extremely toxic to birds, fish and other wildlife. Wildfires feeding on treated bait may be killed. Dogs, cats, and other predators and scavenging mammals and birds might be poisoned if they feed upon bait left after application of this product. It they come in contact with the treated bait, do not feed them any other food.
- **Physical-Chemical Hazards:** This product contains active ingredients that are harmful to birds, fish, and other wildlife. Do not apply directly to water.
- **Environmental Hazards:** This product contains active ingredients that are harmful to birds, fish, and other wildlife. Do not apply directly to water.

**PRODUCT INFORMATION**

**First Aid and Additional Precautionary Statements**

**TREATMENT FOR PET POISONING**
