DIRECTIONS FOR USE

1. Make sure your water is properly balanced. Take a sample of your pool water to your dealer for a complete water analysis. Adjust as necessary following your dealer's recommendations.

2. Use a chlorine test kit to check for the level of free chlorine in your pool.

3. If your pool water is cloudy or algae is present, add one gallon of Aqua Silk stock concentrate per 10,000 gallons of pool water. Filter overnight.

4. The next morning, check with your chlorine test kit for free chlorine. If free chlorine is detected, repeat steps indicated above.

FRESHLY FILLED AND DECHLORINATED POOLS

1. Draw down to a level of 7.2-7.6 if necessary.

2. Add Aqua Silk sanitizer at a rate of 1 oz. per 10,000 gallons of pool water to obtain an initial reading of 50 ppm. Filter overnight.

3. After 24 hours, test strips to check pool's pH and Aqua Silk sanitizer reading and adjust if necessary.

NORMAL POOL MAINTENANCE

To properly maintain your pool with Aqua Silk sanitizer, follow these steps on a weekly basis:

1. Once a week, check the Aqua Silk sanitizer concentration, pH and total alkalinity in your pool.

2. Maintain your Aqua Silk sanitizer concentration between 30-50 ppm. To ensure proper sanitization and protection, the level should never be allowed to drop below 30 ppm. To raise the Aqua Silk Sanitizer concentration 10 ppm, add 14 oz. per 10,000 gallons of pool water.

PROBLEM-SOLVING AND SUPPLEMENTAL POOL INFORMATION

Please remember that Aqua Silk Sanitizer and chlorine-based chemicals are not compatible. Consult your dealer for information on how to deal with accidental chlorination. Do not use Aqua Silk Sanitizer in unplanted pool areas previously exposed to metals that may cause staining, do not use free-standing spas or hot tubs. Aqua Silk Sanitizer is not compatible with many detergents and some algaecides (such as those based on copper). Always check with your dealer for compatibility before adding a product that isn't labeled Aqua Silk. If algae, cloudiness or pool problems develop, consult your dealer.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

WARNING: Harmful if swallowed, inhaled or absorbed through the skin. Avoid contact with skin or clothing. Avoid breathing vapor or mist. Causes substantial but temporary eye injury. Do not get in eyes. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash clothing before reuse. Wear goggles or face shield when handling concentrate. May cause allergic skin reaction.

FIRST AID

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. IN CASE OF EMERGENCY CALL 1-800-654-9911

ENVIRONMENTAL HAZARDS

This product is toxic to fish. Do not contaminate water by cleaning of equipment or disposal of wastes.

STORAGE AND DISPOSAL

Keep this product in its tightly closed container when not in use. Nonrefillable container. Do not reuse or refill this container. Rinse empty container thoroughly with water prior to disposal. Offer for recycling if available. Do not contaminate food or feed by storage or disposal of equipment. Store in original container in a area inaccessible to children. Protect from freezing.

In case of a leak or spill soak up with absorbent, such as sand, earth, or sawdust, and shovel into waste container. Remove waste to chemical waste area, and dispose of in accordance with local pollution regulations. For information on spills, call 1-800-654-9911.
