ULTIMA®
PLATINUM PLUS

- Clarifies water by improving filtration
- Conditions water making it feel softer
- Controls algae growth

USE:
It is a violation of federal law to use this product in a manner inconsistent with its labeling. Read entire label and use strictly in accordance with precautionary statements and directions.

FOR INITIAL APPLICATION IN POOLS: Sanitize with bromine, chlorine and Biguanide (PMIB), backwash and clean filter. Balance your pool water and adjust pH between 7.2 - 7.6. Add 2 lbs of Platinum Plus per 1,000 gallons of pool water by broadcasting the product over the surface of the pool with the pump running. This initial treatment should be added in three doses with one third of the required amount being added with each application. Brush any undissolved product from the bottom of the pool. The pH of the water will rise as a normal reaction to the introduction of Platinum Plus. One hour after each application, adjust the pH to 7.2 - 7.6 with pH decreaser according to label directions. Allow at least 8 hours between the applications of Platinum Plus. Do not add additional products until the pH is between 7.2 - 7.6 (NOTE: For every 2 lbs of Platinum Plus, approximately 1 lb of pH decreaser will be required for pH adjustment). Within 10 days, take a water sample to your dealer to test for water balance and to determine if an adequate amount of this product has been added.

FOR MAINTENANCE APPLICATION AND WINTERIZING: This product is stable in pool water and not degraded by sunlight. The primary loss of product is through splash-out, backwashing and dilution from heavy rains. Therefore, once the initial application is made, minor and infrequent additions would be all that is required unless a substantial amount of water is drained from the pool. Platinum Plus levels should be tested once a month and maintained at a level of 0.5 ppm.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
WARNING: Causes substantial but temporary eye injury. Harmful if swallowed. Do not get in eyes or on clothing. Wear goggles or face shield (safety goggles). Wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet. Remove contaminated clothing and wash clothing before reuse. Avoid contamination of food or feed.

FIRST AID
IF IN EYES: Hold eye open and rinse slowly and gently with water for 15 - 20 minutes. Remove contact lenses, if present, after the first 5 minutes then continue rinsing eye. Call a poison control center or doctor for treatment advice.
IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.
IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth to mouth, if possible. Call a poison control center or doctor for further treatment advice.
IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 - 20 minutes. Call a poison control center or doctor for treatment advice.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate use of gastric lavage. Have the product container or label with you when calling a poison control center or doctor or going for treatment. You may also contact 1-800-222-1222 for emergency medical treatment.

PHYSICAL OR CHEMICAL HAZARDS: Do not mix with other chemicals. Do not add through skimmer. Do not add to any dispersing device.

ENVIRONMENTAL HAZARDS: Keep out of lakes, ponds or streams. Do not contaminate water by cleaning of equipment or disposal of wastes.

STORAGE AND DISPOSAL: Do not contaminate water, food or feed by storage or disposal. Keep this product dry in original tightly closed container until use. Store in a cool, dry, well ventilated area away from heat or open flame. Do not reuse container, but place in trash collection. Rinse thoroughly before discarding in trash. Do not store where children or animals may gain access.

ACTIVE INGREDIENT:
- Sodium Tetaborate Pentahydrate ........100%
  [Boric Oxide equivant 48.6%]

KEEP OUT OF REACH OF CHILDREN

WARNING
See other precautions and first aid on back panel.
