**POOLIFE EXCLUSIVE POOL CARE COLLECTION**

**ALGAE BOMB® 30**

**ALGAEICIDE**

Treats Green, Black and Yellow Algae

**ACTIVE INGREDIENT:** Poly(oxyethylene (dimethyliminio) ethylene- (dimethyliminio) ethylene dichloride) ...........30%

**OTHER INGREDIENTS:** ..................................................70%

**TOTAL** ..................................................100%

This product contains 2.67 lbs. of active ingredients per gallon and weighs 8.9 lbs. per gallon.

**KEEP OUT OF REACH OF CHILDREN**

**CAUTION**

See back panel for additional Precautionary Statements.

Net Contents: 1 Quart (32 fl. oz.) (946 mL)

**DIRECTIONS FOR USE:** It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

**READ THE PRECAUTIONARY STATEMENTS BEFORE USE.**

Take a pool water sample to your authorized Poolife dealer regularly for a detailed water analysis.

This product is used to control the growth of algae in swimming pools, hot tubs, whirlpools, hot tubs, decorative fountains and ponds that DO NOT contain fish. For maximum effectiveness, pools, spas, whirlpools, hot tubs, decorative fountains and ponds containing heavy growth of algae should be cleaned prior to using this product. For pools having just visible algae growth, add an initial dose of 24 to 36 fluid ounces of this product per 10,000 gallons of water and remove settled algae debris by cleaning. For treatment of a freshly cleaned and filled pool add initially 15 to 24 fluid ounces of this product per 10,000 gallons of water. Subsequent additions of 4 to 9 fluid ounces of this product per 10,000 gallons of water should be made every 5 to 7 days after initial treatment for maintenance. Spas, whirlpools, or hot tubs having just visible algae growth require an initial dose of 2 to 4 fluid ounces of this product per 1,000 gallons of water. For treatment of freshly cleaned and filled spa, whirlpool, hot tub, decorative fountain or pond, add initially 1 to 2 fluid ounces per 1,000 gallons of water. Subsequent addition of 0.5 to 0.8 fluid ounces of this product should be made every 5 to 7 days after initial treatment for maintenance.

This product will prevent the growth of most algae during the off-season winter months when pools are not in use. For pools which have been properly treated during the swimming season and are free of visible algae, add 13 to 21 fluid ounces of this product per 10,000 gallons of water. If at the end of the swimming season pools have some visible algae growth, add 25 to 37 fluid ounces of this product per 10,000 gallons of water. It is necessary that a uniform distribution of this product be made throughout the water for maximum effectiveness. If pool is not covered, it may be necessary to repeat the treatment one or more times during the season.

This product may be used in the same pool treatment program as most chemicals normally used to treat pools and spas and is effective at both acid and alkaline pH. This product can be used in pools and spas treated with chlorine chemicals and may reduce the amount of those chemicals normally required. However, do not mix this product with other materials, including concentrated dry or liquid chlorine products.

**PRECAUTIONARY STATEMENTS - HAZARDS TO HUMANS AND DOMESTIC ANIMALS - CAUTION:** Harmful if swallowed. Avoid breathing vapors. Avoid contact with skin, eyes, or clothing. FIRST AID:

IF SWALLOWED: Call poison control center or doctor immediately for treatment advice. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person. IF INHALED: Move person to fresh air. If person is not Breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice. IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

**IN CASE OF EMERGENCY CALL: 1-800-654-6911**

**ENVIRONMENTAL HAZARDS:** This pesticide is toxic to fish and aquatic organisms.

**STORAGE AND DISPOSAL:** Keep this product in its tightly closed container when not in use. Nonrefillable container. Do NOT reuse or refill this container. Rinse empty container thoroughly with water prior to disposal. Offer for recycling if available. Do NOT contaminate feed or feed by storage or disposal or cleaning of equipment.
