Poolife® Exclusive Pool Care Collection

Autofeed A300 Tablets

Chlorinator

- Sanitizes pool water
- Reduced maintenance formulation

Anti-Scale Formulation

First Aid:

If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

If swallowed: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

If inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice. Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

In case of emergency call: 1-800-654-9311.

Chlorinator

Net Wt. 50 lbs. (22.7 Kg)
DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

READ ALL PRECAUTIONARY STATEMENTS BEFORE USE

This product is designed to dissolve slowly providing a steady source of available chlorine in swimming pools to control the growth of algae, kill bacteria and destroy organic contaminants.

Take a pool water sample to your authorized POOLIFE dealer regularly for a detailed water analysis.

HOW TO USE: Do not allow this product to contact other water treatment products. Do not mix with other products or dissolve before use.

One tablet weighs approximately 10 ounces. Add the recommended dosages of this product during evening hours while the filter pump is running.

You may place the product into your pool in the following ways:

1. Use a floating dispenser or feeder designed for this product. Use only new feeders or floaters or ones that have previously contained only this product.

2. Use the skimmer. Skimmer basket should be clean and free of all other water treatment products before adding recommended amount of this product.

Do not reuse floaters or feeders from other brands of dry chlorinator tablets.

Do not throw tablets directly into pool or use in any chlorinating device that has been used with other chlorinating compounds.

Directions for use in POOLIFE Autofeed A300 Feeder

Before use, read the appropriate installation instructions and operating manual for your POOLIFE Autofeed A300 Feeder.

1. Start the filter pump and check chlorine residual with a reliable test kit.

2. Fill the tablet container with this product only. Adjust chlorine feed rate setting according to the operating instructions in the feeder manual. After 24 hours, check the chlorine residual. If 1 to 4 ppm, leave the feed rate setting. If below 1 ppm, increase the feed rate. Allow sufficient time (e.g. one day) after changing the feed rate setting for the chlorine residual to readjust. The pool should not be re-entered until the 1 to 4 ppm chlorine residual is established.

3. Always maintain pH between 7.2 and 7.6 by using a suitable pH adjuster according to directions on the label for such products.

4. If cyanuric acid is used to stabilize available chlorine, follow label directions for this product and maintain the chlorine residual at 1 to 4 ppm as determined by the test kit.

5. Refer to operating manuals for feed rate information.

WATER BALANCE: For best product performance,
swimmer comfort and crystal clear water, maintain pH in the 7.2-7.6 range. Maintain total alkalinity in the 60-120 parts per million (ppm) ranges. Maintain calcium hardness above 200 ppm. Use a reliable test kit that measures all these ranges. Use POOLIFE Pool Care Products to make adjustments. Follow label directions for each product.

OPENING YOUR POOL: Adjust and maintain pH in the 7.2 to 7.6 range. Follow "SHOCK TREATMENT" directions on this package. Allow this product to dissolve completely. Test free available chlorine residual with a pool test kit. DO NOT re-enter pool until the free available chlorine residual is 1 to 4 ppm. Repeat treatment as needed. See directions for use in feeder for Routine Chlorination.

SHOCK TREATMENT: Adjust and maintain pH to 7.2-7.6 with POOLIFE pH adjusters. Follow label directions: Use a POOLIFE shock product. Follow label directions on these products. Follow "HOW TO USE" directions on this package. DO NOT re-enter pool until the free available chlorine residual is 1 to 4 parts per million (ppm).

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
DANGER: Highly corrosive. Causes skin and eye damage. May be fatal if swallowed, inhaled, or if contact with eyes, mouth, and skin. Open in a well-ventilated area. Avoid breathing dust and fumes. DO NOT use in tanks with fish or aquatic organisms. Do not discharge effluent containing this product into lakes, ponds, streams, estuaries, oceans or public waters unless in accordance with the requirements of the National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

STORAGE & DISPOSAL: Keep this product dry in its tightly closed container when not in use. Store in a cool, dry, well-ventilated area. Keep away from heat or open flame. Nonrefillable container. Do not reuse or refill this container. Rinse empty container thoroughly with water to dispose of all material prior to disposal. Offer for recycling if available. Do not contaminate feed or feed by storage or disposal or cleaning of equipment. FOR DISPOSAL OF A CONTAMINATED OR DECOMPOSING PRODUCT SEE "EMERGENCY HANDLING".

EMERGENCY HANDLING: In case of contamination or decomposition - Do not re-use container. Immediately remove container to an open and well-ventilated outdoor area by itself. Flood with large amounts of water. Dispose of the container and any remaining contaminated material in an approved landfill area.
