KEEP OUT OF REACH OF CHILDREN

DANGER: Corrosive. Skin or eye contact may cause severe burns. Avoid contact with eyes, skin, or clothing. Do not breathe the fumes. Read this label before use.

FIRST AID: IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. IF INHALED: Move to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice. Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage. IN CASE OF EMERGENCY CALL: 1-800-554-0911.

Net Wt. 20 lbs (9.07 kg)
ROUTINE CHLORINATION: For best results, see “WATER BALANCE” section above before treatment. • Add one 8 ounce stick for each 10,000 gallons of pool water every week or as needed to maintain chlorine residual of 1 to 4 ppm free available chlorine (FAC). • Follow directions in “HOW TO USE” section. • Maintain water as stated; see “WATER BALANCE”. • The dosage may vary depending upon bather load, water temperature and other conditions. • Pool should not be entered until the chlorine residual is 1-4 ppm as measured by a reliable test kit. • As a preventative treatment, you should shock treat the pool with a shock product weekly to burn out organic material and to keep water sparkling clear.

ALGAE CONTROL: For preventative algae control, use your preferred POOLIFE algicide product regularly.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
DANGER: Corrosive. Causes irreversible eye damage and skin burns. May be fatal if inhaled or absorbed through the skin. Harmful if swallowed. Irritating to nose or throat.
• Open in a well ventilated area. Do not breathe dust or fumes.
• Do not get in eyes, on skin, or on clothing.
• Wear goggles and rubber gloves when handling this product. For additional protection of skin, wear long sleeves and long pants.
• Wash thoroughly with soap and water after handling and before eating, drinking, or using tobacco.
• Remove and wash contaminated clothing before reuse.

PHYSICAL AND CHEMICAL HAZARDS:
DANGER. If product is exposed to small amounts of water, it can react to cause explosion or the release of toxic gases. Do not add water to this product. Add only into water.
• Do not allow to become wet or damp before use.
• Do not remove floater or other dispensing device from water for more than five minutes if it contains a stick or stick residue.

Can react with other materials, including other water treatment products, to cause fire, explosion, and the release of toxic gases.
• Keep all foreign matter, including other water treatment products, away from this product.
• Do not use this product in a floater or feeder that has been used with any other product.
• Do not allow this product to contact other water treatment products. If used with a skimmer, make sure skimmer is completely clean and free of residue from other water treatment products before putting this product in the skimmer.

Strong oxidizing agent. This product can increase fire intensity.

• Keep away from heat and open flame and burning material (like a lighted cigarette)

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish and aquatic organisms.

STORAGE & DISPOSAL:
Keep this product dry in its tightly closed container when not in use. Store in a cool, dry, well-ventilated area. Keep away from heat or open flame. Nonrefillable container. Do not reuse or refill this container. Rinse empty container thoroughly with water to dissolve all material prior to disposal. Offer for recycling if available. Do not contaminate food or feed by storage or disposal or cleaning of equipment. FOR DISPOSAL OF A CONTAMINATED OR DECOMPOSING PRODUCT SEE EMERGENCY HANDLING.

EMERGENCY HANDLING: In case of contamination or decomposition, do not reseal container. Immediately remove container to an open and well-ventilated outdoor area by itself. Flood with large amounts of water. Dispose of the container and any remaining contaminated material in an approved landfill area.

WHY YOU SHOULD USE THIS PRODUCT. POOLIFE® Cleaning Sticks Stabilized Chlorinator are formulated to protect against chlorine loss in direct sunlight and can be used in flothers, feeders or skimmers. These convenient and easy to use sticks are designed to dissolve slowly providing a steady source of available chlorine (up to one week) for complete swimming enjoyment in your pool.

For best results, follow a weekly program with our POOLIFE System.

Take a pool water sample to your authorized POOLIFE dealer regularly for a detailed water analysis.

Always use POOLIFE Shock products for regular shock treatment. Additional shocking to keep water clean and clear is recommended after: rain and heavy winds; high number of swimmers; increased water temperature; and/or increased frequency of pool usage.

DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

READ ALL PRECAUTIONARY STATEMENTS BEFORE USE.

This concentrated 8 ounce stick is designed to dissolve slowly, providing a steady source of available chlorine in swimming pools to control the growth of algae, kill bacteria and destroy organic contaminants. Rerun into treated swimming pool is prohibited above levels of 4 ppm of chlorine.

HOW TO USE: For best results use an automatic chlorine feeder, or floating dispenser designed for this product, or place this product in the skimmer basket.

DO NOT allow this product to get damp or wet before use.

DO NOT allow this product to contact other water treatment products. If placed in skimmer, run the pump a minimum of eight hours daily. Make sure skimmer is completely free of residue from other water treatment products before putting this product in the skimmer. DO NOT use in floather or feeders that have been used with other dry chlorinating products.

DO NOT permit sticks to contact plastic pool liners or metal objects. DO NOT throw sticks directly into pool. DO NOT use with any other tablets or sticks in the same skimmer, floater or feeder. DO NOT use in any chlorinating device, which has been used with other chlorinating products. DO NOT pre-mix this product.

WATER BALANCE: To provide optimum product performance, swimmer comfort and crystal clear water, always maintain pH from 7.2 to 7.6, total alkalinity from 80 to 120 parts per million (ppm) and calcium hardness above 200 ppm. Test frequently using a reliable test kit that measures all of the above ranges. Make any necessary adjustments promptly with appropriate products.

OPENING YOUR POOL: Balance pool water, shock treat or super chlorinate with a POOLIFE shock product, follow label directions. Stabilize your pool water using POOLIFE Stabilizer and Conditioner. Then follow “ROUTINE CHLORINATION” directions.
