POOLIFE
EXCLUSIVE POOL CARE COLLECTION

1" Cleaning Tablets
STABILIZED CHLORINATOR

- Sanitizes pool water

ACTIVE INGREDIENT:
Trichloro-s-Triazinetrione .................. 99%
OTHER INGREDIENTS .................. 1%
TOTAL ............................................. 100%
Available Chlorine .................. 90%

KEEP OUT OF REACH OF CHILDREN
DANGER:
CONTAMINATION OR IMPROPER USE MAY CAUSE FIRE OR EXPLOSION or the release of toxic gases. Do not allow product to contact any foreign matter, including other water treatment products. If product is exposed to small amounts of water, it can react to cause explosion or the release of toxic gases. Do not add water to this product. Add only into water. Do not mix this product with a small amount of water. Only add directly to your pool. Do not remove filter or other dispensing device from water for more than five minutes if it contains a tablet or tablet residue. Corrosive. Causes irreversible eye damage and skin burns. May be fatal if inhaled or absorbed through skin. Harmful if swallowed.

FIRST AID: IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.
IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.
IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.
IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice. Have the product container or label with you when calling a poison control center or doctor, or going for treatment.
NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage. IN CASE OF EMERGENCY CALL: 1-800-654-6911.

Net Wt. 20 lbs. (9.07 kg)

STABILIZED CHLORINATOR
WHY YOU SHOULD USE THIS PRODUCT:
POOLIFE® 1” Cleaning Tablets Stabilized Chlorinator are formulated to protect against chlorine loss in direct sunlight and can be used in floaters, feeders or skimmers. These convenient and easy to use tablets are designed to dissolve slowly providing a steady source of available chlorine for complete swimming enjoyment in your pool.

Take a pool water sample to your authorized POOLIFE dealer regularly for a detailed water analysis.

Always use POOLIFE Shock products for regular shock treatment. Additional shocking to keep water clean and clear is recommended after: rain and heavy winds; high number of swimmers; increased water temperature; and/or increased frequency of pool usage.

DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

READ ALL PRECAUTIONARY STATEMENTS BEFORE USE.

HOW TO USE: For best results use an automatic chlorine feeder or floating dispenser designed for this product, or place this product in the skimmer basket. DO NOT allow this product to get damp or wet before use. DO NOT allow this product to contact other water treatment products. If placed in skimmer, run the pump a minimum of eight hours daily. Make sure skimmer is completely free of residue from other water treatment products before putting this product in the skimmer. DO NOT put product in floaters or feeders that have used other dry chlorinating products. DO NOT permit tablets to contact plastic pool linings or metal objects. DO NOT throw tablets directly into pool. DO NOT use with any other tablets or sticks in the same skimmer, floater or feeder. DO NOT use in floaters or feeders that have been used with other dry chlorinating products. DO NOT pre-mix this product.

WATER BALANCE: To provide optimum product performance, swimmer comfort and crystal clear water, always maintain pH from 7.2 to 7.6, total alkalinity from 80 to 120 parts per
mill (ppm) and calcium hardness above 200 ppm. Test frequently using a reliable test kit that measures all of the above ranges. Make any necessary adjustments promptly with appropriate products.

OPENING YOUR POOL: Balance pool water, shock treat or super chlorinate with a POOLIFE shock product. Follow label directions on those products. Stabilize your pool water using POOLIFE stabilizer and conditioner. Then follow "ROUTINE CHLORINATION" directions.

ROUTINE CHLORINATION: For best results, see "WATER BALANCE" section above before treatment. Add four one-half ounce tablets for each 10,000 gallons of pool water every other day or as needed to maintain chlorine residual of 1 to 4 ppm free available chlorine (FAC). Follow "HOW TO USE." Maintain water as stated; see "WATER BALANCE." The dosage may vary depending upon bath load, water temperature and other conditions. Pool should not be entered until the chlorine residual is 1-4 ppm as measured by a reliable test kit. As a preventative treatment, you should shock treat the pool weekly to burn out organic material and to keep water sparkling clear.

PRECAUTIONARY STATEMENTS:
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
DANGER: Corrosive. Causes irreversible eye damage and skin burns. May be fatal if inhaled or absorbed through the skin. Harmful if swallowed. Irritating to nose and throat. • Open in a well ventilated area. • DO NOT breathe dust or fumes. • DO NOT get in eyes, on skin, or on clothing. • Wear goggles and rubber gloves when handling this product. For additional protection of skin, wear long sleeves and long pants. • Wash thoroughly with soap and water after handling and before eating, drinking, or using tobacco. • Remove and wash contaminated clothing before reuse.

PHYSICAL AND CHEMICAL HAZARDS:
DANGER. If product is exposed to small amounts of water, it can react to cause explosion or the release of toxic gases.

DO NOT add water to this product. Add only into water. • DO NOT allow to become wet or damp before use. • DO NOT remove floaters or other dispensing device from water for more than five minutes if it contains a tablet or tablet residue.

Can react with other materials, including other water treatment products, to cause fire, explosion, and the release of toxic gases.
• Keep all foreign matter, including other water treatment products, away from this product. • DO NOT use this product in a floaters or feeder that has been used with any other product. • DO NOT allow this product to contact other water treatment products. If used with a skimmer, make sure skimmer is completely clean and free of residue from other water treatment products before putting this product in the skimmer.

Strong oxidizing agent. This product can increase fire intensity.
• Keep away from heat and from flame and burning material (like a lighted cigarette).

ENVIRONMENTAL HAZARDS: This chemical is toxic to fish and aquatic organisms.

STORAGE & DISPOSAL:
Keep this product dry in its tightly closed container when not in use. Store in a cool, dry, well-ventilated area. Keep away from heat or open flame. Nonrefillable container. DO NOT reuse or refill this container. Rinse empty container thoroughly with water to dissolve all material prior to disposal. Offer for recycling if available. DO NOT contaminate food or feed by storage or disposal of equipment. FOR DISPOSAL OF A CONTAMINATED OR DECOMPOSING PRODUCT SEE "EMERGENCY HANDLING."

EMERGENCY HANDLING: In case of contamination or decomposition – DO NOT reseal container. Immediately remove container to an open and well-ventilated outdoor area by itself. Flood with large amounts of water. Dispose of the container and any remaining contaminated material in an approved landfill area.

STOP!
Do Not Mix with other products or dissolve before use.

Read precautions/first aid statements on label.
