POOLIFE™

EXCLUSIVE POOL CARE COLLECTION

Rapid Shock®

SHOCK TREATMENT

- Chlorinating granules for multiple pool and spa uses
- Good for all pool surfaces

KEEP OUT OF REACH OF CHILDREN

DANGER: Contamination or improper use may cause fire, explosion or the release of toxic gases. Do not allow product to contact any foreign matter, including other water treatment products. If product is exposed to small amounts of water, it can react violently to produce heat and toxic gases and spatter. Do not add water to this product. Add only into water. Do not mix this product with a small amount of water. Only add directly to your pool or spa. Highly Corrosive. Causes skin and eye damage. May be fatal if swallowed. Read all precautionary statements on back label and first aid statements before use.

ACTIVE INGREDIENT:
Calcium Hypochlorite .................. 68%

OTHER INGREDIENTS .................. 32%

TOTAL .................................. 100%

Minimum
Available Chlorine .................. 65%

SHOCK TREATMENT

Net Wt. 5 lbs. (2.27 kg.)
**FIRST AID: IF IN EYES:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. **IF ON SKIN OR CLOTHING:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. **IF SWALLOWED:** Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person. **IF INHALED:** Remove person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice. **NOTE TO PHYSICIAN:** Probable mucosal damage may contraindicate the use of gastric lavage. Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

**IN CASE OF EMERGENCY CALL:** 1-800-654-6911

**DIRECTIONS FOR USE:** It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

**READ ALL PRECAUTIONARY STATEMENTS BEFORE USE.**

**HOW TO USE:** Do not pre-mix this product. Only add this product directly to your pool or skimmer. Use only a clean, dry scoop to measure this product. Do not use the scoop for any other purpose.

**METHOD FOR DOSING DIRECTLY INTO POOL:** Add the recommended dosage of this product during evening hours while the filter is running. When adding this product to your pool, broadcast the product evenly over a wide area in the deepest part of the pool. If any granules settle to the bottom of the pool use brush to disperse.

**METHOD FOR SKIMMER ADDITION:** Make sure that filter is on and properly recirculating through skimmer. Empty skimmer of all chemicals and/or debris. Contamination may cause an explosion or the release of toxic gases. **DO NOT** use this method when an automatic chemical dispensing device (e.g. feeder) is present. Pour this product slowly into skimmer, making sure that the material is drawn into the system at the same rate: do not allow this material to accumulate as toxic gases may be generated.

**WATER BALANCE:** For best product performance, swimmer comfort, and crystal clear water: Maintain pH in the range of 7.2 to 7.6. Maintain total alkalinity in the range of 80 to 120 parts per million (ppm). Maintain calcium hardness above 200 ppm. Use a reliable test kit that measures all these ranges. Use POOLIFE® Pool Care Products to make adjustments. Follow label directions for each product. Do not enter pool until the free available chlorine residual is 1-4 ppm.

**SHOCK TREATMENT / SUPERCHLORINATION:** For best results, see "WATER BALANCE" and "HOW TO USE" section above before treatment. Every 7 days, or as necessary to prevent pool problems, shock treat / superchlorinate the pool by adding 10-20 ounces of this product per 10,000 gallons of water to provide 5 to 10 ppm available chlorine. Additional shock treatments may be required to correct problems which are caused by visible algae, high bathing loads, heavy wind and rainstomrs. Additional shock treatments may also be required to correct problems such as
unpleasant odors and eye irritation. Check the available chlorine with a suitable test kit.

**PRECAUTIONARY STATEMENTS**

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS. DANGER:**
Highly corrosive. Causes skin and eye damage. May be fatal if swallowed. Irritating to nose and throat. • Open in a well ventilated area. Avoid breathing dust and fumes. • **DO NOT** get in eyes, on skin, or on clothing. **DO NOT** handle with bare hands. Wear goggles and use rubber gloves. For additional protection of skin, wear long sleeves and long pants. • Remove and wash contaminated clothing separately before reuse. • Wash thoroughly with soap and water after handling. • Use only utensils that are thoroughly clean and dry.

**PHYSICAL AND CHEMICAL HAZARDS:** If product is exposed to small amounts of water, it can react violently to produce heat and toxic gases and spatter. **DO NOT** add water to this product. Add only into water. • **DO NOT** mix this product with a small amount of water. Only add this product directly to your pool. • **DO NOT** allow to become wet or damp before use.

**Can react with other materials, including other water treatment products, to cause intense fire, explosion, and the release of toxic gases.** • Keep all foreign matter, including other water treatment products, away from this product. • **DO NOT** allow this product to contact other water treatment products. If used with a skimmer, make sure skimmer is completely clean and free of residue from other water treatment products before putting this product in a skimmer.

**Exposure to heat can cause this product to rapidly decompose, leading to intense fire, explosion, and the release of toxic gases.** • Store in a cool, dry, well ventilated area.

**Strong oxidizing agent. This product can increase fire intensity.** Keep away from heat and from flame and burning material (like a lighted cigarette).

**ENVIRONMENTAL HAZARDS:** This pesticide is toxic to fish and aquatic organisms.

**STORAGE & DISPOSAL:** Keep this product dry in its tightly closed container when not in use. Store in a cool, dry, well-ventilated area. Keep away from heat or open flame. Nonrefillable container. **DO NOT** reuse or refill this container. Rinse empty container thoroughly with water to dissolve all material prior to disposal. Offer for recycling if available. **DO NOT** contaminate food or feed by storage or disposal or cleaning of equipment. FOR DISPOSAL OF A CONTAMINATED OR DECOMPOSING PRODUCT SEE “EMERGENCY HANDLING”.

**EMERGENCY HANDLING:** In case of contamination or decomposition – **DO NOT** reseal container. Immediately remove container to an open and well-ventilated outdoor area by itself. Flood with large amounts of water. Dispose of the container and any remaining contaminated material in an approved landfill area.
