BIOBAN™ IPBC 40 LE
Antimicrobial

For industrial use only as a preservative for aqueous compositions including, adhesives, aqueous metalworking fluids, cordage, textiles, inks, paints and varnish, plaster, paper coating and wood preservation.

ACTIVE INGREDIENT: 3-iodo-2-propynyl butylcarbamate 40%
INERT INGREDIENTS (OTHERS) 60%
Total 100%

DIRECTIONS FOR USE:

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. This formulation is not cleared by the Federal Food, Drug and Cosmetic Act for use in finished consumer grade adhesive, paper and paper board products and paper coating.

PAPER COATINGS:

BIOBAN 40 LE Antimicrobial may be used as a millboard in both aqueous and solvent-based coatings which are applied to paper and paperboard substrates. This product can be used to prevent mold and mildew growth in products such as corrugated containers, paper boxes, cornflakes, etc. This product can be applied by spray, brush, or roll on the surface of paper or paperboard. This product can be used to prevent the growth of mold and mildew on paper, paperboard, and corrugated containers.

No growth will occur for at least 6 months if stored at 70°F (21°C).
