HAZARDS TO HUMANS & DOMESTIC ANIMALS

CAUTION
Harmful if swallowed.

FIRST AID
If swallowed: Call a poison control center or doctor immediately for treatment advice.

Have a person sip a glass of water if able to swallow.
Do not induce vomiting unless told to do so by a poison control center or doctor.
Do not give anything to an unconscious person.

NOTES TO PHYSICIAN
Treatment is supportive and symptomatic.

HOTLINE NUMBER
Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact 800-999-0990 for emergency medical treatment information.

PERSONAL PROTECTIVE EQUIPMENT (PPE)
Some of the materials that are chemical-resistant to this product are listed below. If you want more options, follow the instructions for category A and an EPA chemical-resistance category selection chart.
Applicators and other handlers must wear: Long-sleeved shirt and long pants, shoes plus socks and chemical-resistant gloves made of any waterproof material such as Natural Rubber 2 x 14 mils. Follow manufacturer’s instructions for cleaning/maintaining PPE. If there are no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry.

USER SAFETY RECOMMENDATIONS
Users should:
• Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet.
• Remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.
• Remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

ENVIRONMENTAL HAZARDS
This product is toxic to aquatic invertebrates. Contain product spillage and equipment leaks, disposing of wastes according to disposal instructions provided in this label. Do not contaminate water when disposing of equipment washwater or rinsewater. Cover or incorporate spilled treated seed.

READ ENTIRE LABEL. USE STRICTLY IN ACCORDANCE WITH PRECAUTIONARY STATEMENTS AND DIRECTIONS AND WITH APPLICABLE STATE AND FEDERAL REGULATIONS.

Do not apply this product in a manner that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. For any requirements specific to your State or Tribe, consult the State or Tribal agency responsible for pesticide regulation.

DISCLAIMER, RISKS OF USING THIS PRODUCT, LIMITED WARRANTY, AND LIMITATION OF LIABILITY

IMPORTANT: Read the entire label including the Disclaimer, Risks of Using this Product, Limited Warranty, and Limitation of Liability before using this product. If the terms are not acceptable, then the product should not be used. Rather, return the unopened product within 15 days of purchase for a refund of the purchase price.

RISKS OF USING THIS PRODUCT
The Buyer and User (referred to collectively herein as “Buyer”) of this product should be aware that there are inherent unattenuated risks associated with the use of this product, which are impossible to eliminate. These risks include, but are not limited to, injury to plants and crops to which this product is applied, lack of control of the target pests or weeds, resistance of the target pests or weeds to this product, injury caused by drift, and injury to rotational crops caused by carryover in the soil. Such risks of crop injury, non-performance, resistance or other unattended consequences are unavoidable and may result because of such factors as weather, soil conditions, disease, moisture conditions, irrigation practices, condition of the crop at the time of application, presence of other materials either applied in the tank mix with this product or prior to application of this product, cultural practices or the manner of use or application, or a combination of such factors (all of which are factors beyond the control of Valencia). The Buyer should be aware that these inherent unattenuated risks may reduce the harvested yield of the crop in all or a portion of the treated acreage, or otherwise affect the crop such that additional care, treatment and expense are required to take the crop to harvest. If the Buyer chooses not to accept these risks, THEN THIS PRODUCT SHOULD NOT BE APPLIED. By applying this product, Buyer acknowledges and accepts these inherent unattenuated risks.

LIMITED WARRANTY
Valencia warrants only that this product conforms to the chemical description on the label and is reasonably fit for the purposes stated in the label, under average use conditions, when used strictly in accordance with the label and subject to the risks of Using This Product as described above. To the extent consistent with applicable law and as set forth above, Valencia makes no other warranties, either expressed or implied. No agent or representative of Valencia or Seller is authorized to make or create any other express or implied warranty.

LIMITATION OF LIABILITY
To the fullest extent allowed by law, Valencia or Seller is not liable for any incidental, consequential, indirect or special damages resulting from the use or handling of this product. The limitation includes, but is not limited to, loss of yield on all or any portion of the treated acreage, increased care, treatment or other expenses required to take the crop to harvest, increased finance charges or altered finance ratings, emotional or mental distress and/or exemplary damages. TO THE FULLEST EXTENT ALLOWED BY LAW, THE EXCLUSIVE REMEDY OF THE BUYER, AND THE EXCLUSIVE MAXIMUM LIABILITY OF VALENCE OR SELLER FOR ANY AND ALL CLAIMS, DAMAGES, INJURIES OR DEFECTS (INCLUDING CLAIMS BASED ON BREACH OF WARRANTY, CONTRACTUAL, NEGLIGENCE, TORT, STRICT LIABILITY OR OTHERWISE) RESULTING FROM THE USE OR HANDLING OF THIS PRODUCT SHALL BE THE RETURN OF THE PURCHASE PRICE OF THIS PRODUCT OR, AT THE ELECTION OF VALENCE OR SELLER, THE REPLACEMENT OF THE PRODUCT.

PROMPT NOTICE OF CLAIM
To the extent consistent with applicable law allowing such requirements, Valencia must be provided notice as soon as Buyer has reason to believe it may have a claim, but in no event later than twenty-one days from the date of planting, or twenty-one days from the date of application, whichever is later, so that an immediate inspection of the affected property and growing crops can be made.

(continued)
(continued)

To the extent consistent with applicable law if Buyer does not notify Valient of any claims, in such period, it shall be barred from obtaining any remedy.

NO AMENDMENTS

Valient and Seller offer this product, and Buyer accepts it, subject to the foregoing Disclaimer, Risks of Using This Product, Limited Warranty and Limitation of Liability, which may not be modified by any oral or written agreement.

TANK MIXES

NOTICE: Tank mixing or use of this product with any other product which is not specifically and expressly authorized by the label shall be the exclusive risk of user, applicator and/or application advisor. Read and follow the entire label of each product to be used in the tank mix with this product.

RESISTANCE MANAGEMENT

Nipsil INSIDE Insecticide is a neonicotinoid and a Group 4A insecticide. Insect biotypes with acquired resistance to Group 2A insecticides may eventually dominate the insect population. Group 4A insecticides are used repeatedly in the same field or in successive years as the primary method of control for targeted species. This may result in partial or total loss of control of those species by Nipsil INSIDE Insecticide or other Group 4A insecticides. Valient U.S.A. Corporation strives to maintain strong stewardship of this product by recommending that its use be coordinated in a planned resistance management strategy program established for the specific crop and area.

Contact your local extension specialist, certified crop advisors and/or manufacturer for insecticide resistance management or IPM recommendations for the specific site and resistant pest problems.

For further information or to report suspected resistance, you may contact Valient U.S.A. Corporation at 800-482-5368.

DIRECTIONS FOR USE

RESTRICTIONS

Nipsil INSIDE Insecticide must be used only in accordance with recommendations on this label utilizing commercial liquid or slurry seed treatment equipment to secure proper application. Always mix product thoroughly before use.

As stated by regulations specified in 40 CFR 153, all seed treated with Nipsil INSIDE Insecticide must be colored with an EPA-approved dye or colorant to visually distinguish seed is treated with a pesticide. It is mandatory that such dye or colorant be added into the slurry mixture containing Nipsil INSIDE Insecticide, prior to application through commercial seed treatment equipment. This regulation is necessary to prevent treated seed from accidental use as food for man or feed for animals.

Seed Quality And Storage Of Treated Seed

Seed treatments applied to low vigor or poor quality seed or to mechanically damaged seed may result in loss of seed germination or reduced seedling vigor. To verify seed safety, treat a small portion of seed with the desired slurry mixture (Nipsil INSIDE Insecticide alone or in combination with other commercial seed treatment products) prior to treatment of an entire seed lot. Utilize standard seed germination methodologies to determine and verify seed safety. Proper storage conditions of treated seed are recommended. Due to seed quality and seed storage conditions beyond the control of Valient U.S.A. Corporation, no claims are made to guarantee the germination of carry-over treated seed.

Seed Bag Label Requirement Of Treated Seed

The Federal Seed Act requires that bags containing treated seed be labeled or tagged with the following information:

• This seed has been treated with Nipsil INSIDE Insecticide containing clothianidin.
• Do not use for feed, food, or oil processing.
• Rapeseed greens and seed grown or harvested from Nipsil INSIDE Insecticide treated seed must not be used for feed or human consumption. Rapeseed grown and harvested from Nipsil INSIDE Insecticide treated seed is only for industrial uses and cannot be used for edible oil or any human/animal feed consumption.
• Store away from feed and other foodstuffs.
• Wear long sleeved shirt, long pants and waterproof gloves when handling treated seed.
• Dispose of all excess treated seed. Left over treated seed may be double-burned around the headland or buried away from water sources in accordance with local requirements. Do not contaminate water bodies when disposing of planting equipment washwaters.
• Dispose of seed packaging in accordance with local requirements.
• Treated seeds exposed on soil surface may be hazardous to wildlife. Cover or collect treated seeds spilled during loading.
• Do not graze or feed soybean forage and hay to livestock.

INFORMATION
Nipsit INSIDE Insecticide (clothianidin) is a systemic insecticide seed treatment providing seed and seedling protection against certain soil insects and early-season foliar insects of canola/rapeseed, sorghum and sugar beet.

Accurate application of Nipsit INSIDE Insecticide to seed is required for best performance. Application to seed by commercial seed treatment equipment utilizing standard liquid or slurry treatments, is necessary. Thoroughly mix Nipsit INSIDE Insecticide prior to use or use entire container at one time. Pre-test tank mixtures with other seed treatment products to verify formulation compatibility and to assure proper physical compatibility of products. Be aware of limitations or cautions documented on labels of all products used in a seed treatment mixture.

*Foliar spray of clothianidin can be applied 45 days after planting Nipsit INSIDE Insecticide treated soybean seeds for mid-to-late season foliar insects.
*Regardless of type of application (seed treatment or foliar), do not apply more than a total of 0.2 lbs active ingredient clothianidin per acre per season.
*Do not graze or feed soybean forage and hay to livestock.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage and disposal.

PESTICIDE STORAGE
Store in a dry place away from excessive heat.
Do not store near food or feed.
Store in original container only.
To close package, replace and tighten cap to form an airtight seal.

PESTICIDE DISPOSAL
Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL
Nonrefillable container. Do not reuse or refill this container. Clean container promptly after emptying. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank and drain for 10 seconds after the flow begins to drip. Fill the container 1/4 full with water and recap. Shake for 10 seconds. Pour rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times. Offer for recycling, if available; otherwise dispose of in a sanitary landfill or incineration, or, if allowed by State and local authorities, by burning. If burned, stay out of smoke.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS & DOMESTIC ANIMALS
CAUTION
Harmful if swallowed.

If swallowed: Call a poison control center or doctor immediately for treatment advice. Have a person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything to an unconscious person.

NOTES TO PHYSICIAN
Treatment is supportive and symptomatic.

HOT LINE NUMBER
Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact 800-892-0099 for emergency medical treatment information.

PERSONAL PROTECTIVE EQUIPMENT (PPE)
Some of the materials that are chemical-resistant to this product are listed below. If you want more options, follow the instructions for category A on an EPA chemical-resistance category selection chart.

Applicators and other handlers must wear: Long-sleeved shirt and long pants, shoes plus socks and chemical-resistant gloves made of any waterproof material such as Natural Rubber ≥ 14 mils.

Follow manufacturer’s instructions for cleaning/maintaining PPE. If there are no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry.

USER SAFETY RECOMMENDATIONS
Users should:
- Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet.
- Remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.
- Remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

ENVIRONMENTAL HAZARDS
This product is toxic to aquatic invertebrates. Contain product spillage and equipment leaks, disposing of wastes according to disposal instructions provided in this label. Do not contaminate water when disposing of equipment washwater or rinsates, Cover or incorporate spilled treated seed.

DIRECTIONS FOR USE
It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

READ ENTIRE LABEL. USE STRICTLY IN ACCORDANCE WITH PRECAUTIONARY STATEMENTS AND DIRECTIONS AND WITH APPLICABLE STATE AND FEDERAL REGULATIONS.

Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. For any requirements specific to your State or Tribe, consult the State or Tribal agency responsible for pesticide regulation.

For complete directions for use, disclaimer and storage and disposal see pamphlet.
