Environmental hazards:
The product is extremely toxic to aquatic organisms, including fish and invertebrates. To protect the environment, do not allow pesticide to enter
or run off into storm drains, drainage ditches, gutters or surface waters.
Applying this product in rainfall weather when not permitted for the
next 24 hours will help to ensure that wind or rain does not blow or wash
pesticide off the treatment area. Proper application equipment over
the treated area will help avoid run off to water supplies or drainage systems.
The pesticide is highly toxic to bees. Do not expose to direct treatment on
bees or honey bees. Bees are actively visiting the treated area.

Physical or chemical hazards:
Do not use or store near heat or open flame.

Directions for use:
It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Federal laws such as hazardous or responsive laws should not be used
for food purposes after use with pesticides.

Protect product and solutions from freezing.
To prevent dilutions, the concentrate should be shielded or
applied well. Do not hold dilutions for more than 24 hours.

Dilution rate:
Dilute 2 to 3 fluid ounces per gallon of water.

For spraying of product, use a hand held pump-up sprayer.

PESTICIDE STORAGE:
Do not use or store near heat or open flame.

PESTICIDE DISPOSAL AND CONTAINER HANDLING:
If empty:
Nonrefillable container. Do not reuse or refill this container.

If party filled:
Call your local solid waste agency for disposal instructions. Never place unused product in trash or offer for recycling, if available.

PHYSICAL OR CHEMICAL HAZARDS:
Do not use or store near heat or open flame.

DIRECTIONS FOR USE
For Use as a Dip on Dogs to Control Fleas and Ticks:
Spray dogs outside. Spraying dilutes product at the root, moving the
deadly speed and reducing the enemy’s body to cause, killing the eggs and reducing. While spraying, helpful hint so that the
pesticide moves thoroughly. Do not spray any eyes or ears. Avoid contact with the treatment.

For Use as a Spray on Dogs to Control Fleas and Ticks:
Wet the dog with water before treatment. Sprays or peas diluted product on
the dog until its fur is thoroughly wet, making sure that the
animal’s ears are protected. Do not allow dogs to enter
the treated area. Do not treat the dog’s face. Let the dog drip-dry. DO NOT RINSE OFF.
