First Defense™

Disinfectant

Cleaner • Fungicide • Mildewstat • Virucide* • Deodorizer

For Home, Hospital, Institutional and Industrial Use

• One-step disinfectant cleaner is effective against a broad spectrum of bacteria, is virucidal, fungicidal and inhibits the growth of mold and mildew, when used as directed.

• Use to remove odors caused by flooding and smoke from fires.

• Kills germs, bacteria and viruses* on pre-cleaned environmental surfaces.

• Kills Pandemic 2009 H1N1 influenza A virus.

Kills Odor-Causing Bacteria Effective in the presence of 5% serum contamination

Active Ingredients:
- OXALIC acid diammonium crystaline ………………….. 9.925%
- Dichlorodimethylammonium chloride ………………….. 2.151%
- Disodium diaminomethylene diammonium chloride ….. 0.719%
- Alkal (Cu, Zn, Ni, Cr, Ag, Co, 1%) ………………………… 0.197%
- Direct sodium amounium chloride …………………… 0.197%
- Other Ingredients …………………………………………….. 0.534%
- TOTAL ……………………………………………………………………… 10.000%

KEEP OUT OF REACH OF CHILDREN

See Left Panel for Additional Precautionary Statements and First Aid.

Foster First Defense is a one-step (hospital use) disinfectant, Bactericidal according to the current AAGC Use-Sanitation Test Methods. Fungicidal according to the AAGC Fungicidal Test and Virucidal according to the virucidal qualifications modified in the presence of 5% organic serum against:

- Aucubabacter Baumannii
- Bacillus Subtilis Subsp. Subtilis
- Corynebacterium diphtheriae
- Erysipelothrix rhusiopathiae
- E. coli
- Enterobacter aerogenes
- Enterococcus faecalis
- Escherichia coli (ATCC 25922)
- Pseudomonas aeruginosa
- Salmonella enterica serovar Typhimurium
- Serratia marcescens

Foster First Defense™ Disinfectant, Fungicide, Mildewstat, Virucide, Deodorizer is effective against a broad spectrum of bacteria, is virucidal, fungicidal and inhibits growth of mold and mildew, when used as directed.

For Hospital Use:

- Use to remove odors caused by flooding and smoke from fires.
- Kills germs, bacteria and viruses on pre-cleaned environmental surfaces.
- Kills Pandemic 2009 H1N1 influenza A virus.

*Viruses: SARS-CoV-2 (2019-nCoV), HIV-1, Hepatitis A Virus (HAV), Hepatitis B Virus (HBV), Hepatitis C Virus (HCV), Hepatitis D Virus (HDV), Hepatitis E Virus (HEV), Influenza A Virus (H1N1-2009), Influenza A Virus (H1N1-1918), Influenza A Virus (H3N2), Influenza A Virus (H5N1), Influenza B Virus (IBV), Parainfluenza Virus, Respiratory Syncytial Virus, Adenovirus, Rhinovirus, Coronavirus (SARS-CoV-2), Enterovirus, Coxsackievirus, Rotavirus, Adenovirus, Influenza A Virus, Influenza B Virus, Influenza C Virus, Influenza D Virus.

Storage and Disposal:

- Store in cool, dry place.
- Do not store near heat or open flame.
- Do not use near open flames, candlelight, or sunlight.
- Keep out of reach of children.

Warnings:

- DISINFECTANT / VIRUCIDAL / FUNGICIDAL / MOLD AND MILDEW CONTROL DIRECTIONS: Apply Foster First Defense undiluted to hard, non-porous surfaces, thoroughly wetting the surfaces with a cloth, mop, sprayer, sprayer or by immersion. Treated surfaces must remain wet for 15 minutes. Wipe dry with a cloth, sponge or mop or allow to air dry. For heavily soiled areas, a preliminary cleaning is recommended. For spray applications, use a coarse spray device. Spray 6 ft. indoors from surface, root length, sponge or cloth. Avoid spraying spray. For fungicidal action Foster First Defense is an effective one-step fungicide against Trichophyton mentagrophytes when used on surfaces in areas such as bathroom, dressing rooms, shower stalls and areas and facilities. For mold and mildew: Insect treatment every 7 days or more often if new growth appears. Rinse all surfaces that come in contact with food such as countertops, appliances, and conveyors with possible water before reuse.
- Not to be used in enclosed or semi-enclosed spaces.

First Aid:

- In case of eye contact, wash eyes immediately with water and soap and seek medical attention.
- In case of skin contact, wash affected skin area immediately with water and soap and seek medical attention.
- If swallowed, wash mouth and gargle with water and seek medical attention.

Environmental Hazards:

- Do not wash down drain with unreacted product.
- Do not rinse down drain with unreacted product.
- Do not store near heat or open flame.
- Do not use near open flames, candlelight, or sunlight.
- Keep out of reach of children.

Pesticide Storage:

- Store in cool, dry place.
- Do not store near heat or open flame.
- Do not use near open flames, candlelight, or sunlight.
- Keep out of reach of children.

Precautionary Statements:

- Physical Form: Liquid
- Acute Oral LD₅₀: >5000 mg/kg
- Acute dermal LD₅₀: >5000 mg/kg
- Skin Irritability: Mild
- Eye Irritability: Mild
- Oral Irritability: Mild
- Inhalation: Non-irritating
- Environmental Hazard: Non-hazardous

Hazardous to humans and domestic animals.

Caution:

- Avoid contact with skin or eyes.
- Use with ventilation.
- Wash hands before and after use.
- Avoid inhaling the fumes.

SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST HIV-1 OR HIV OR HCV ON SURFACES/OBJECTS PREVIOUSLY SOILED WITH BLOOD/BODY FLUIDS:

In health care or other settings in which there is an expected likelihood of soiling of intermediate surfaces/objects with blood or body fluids, and in which the surfaces/objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of Human Immunodeficiency Virus Type 1 (HIV-1) associated with AIDS or Hepatitis B Virus (HBV) or Hepatitis C Virus (HCV).
