over 8 weeks of age

© 2015 CEVA animal health.
DO NOT USE ON CATS
Keep cats away from treated dogs for 24 hours. If applied to a cat or ingested by a cat, contact your veterinarian.

READ ENTIRE LABEL BEFORE EACH USE
USE ONLY ON DOGS AND PUPPIES OVER 8 WEEKS OF AGE
For additional information, contact us at 1-800-999-0297 or contact.us@ceva.com

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS
WARNING: Causes substantial but temporary eye injury. Harmful if swallowed or absorbed through the skin. Do not get in eyes or on clothing. Avoid contact with skin.
Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Remove and wash contaminated clothing before reuse.

HAZARDS TO DOMESTIC ANIMALS
FOR EXTERNAL USE ON DOGS ONLY
DO NOT USE ON PUPPIES LESS THAN 8 WEEKS OLD
Do not use this product on debilitated, aged, medicated, pregnant or nursing animals, or animals known to be sensitive to pesticide products without first consulting a veterinarian.

SIDE EFFECTS
Monitor your dog after application. Individual sensitivity, such as slight tranitory redness, itching, biting-pestilir or other signs of discomfort at the site of application, may occur after using NIT pesticide products for dogs. If signs of sensitivity occur, bathe your dog with mild soap and shampoo and wash with large amounts of water. If signs of individual animal sensitivity occur and persist, contact your veterinarian. Gastrointestinal signs such as vomiting or diarrhea have also been reported. If these signs occur, consult your veterinarian or call us at 1-800-999-0297.
Have the product container or label with you when calling your veterinarian for advice.

56 to 100 lbs Over 8 weeks of age

Onset of activity within 2 hours.
Kills fleas in 6 hours.
Kills fleas that may transmit diseases, including bartonellosis, tapeworm and tularemia.
Prevents re-inestation for one month.
Kills fleas that may cause flea allergy dermatitis and anemia.
Convenient topical treatment with patented applicator.
Quick drying, non-greasy.

FIRST AID
If in eyes: Hold eyelids open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 3 minutes, then continue rinsing. Call a poison control center or doctor for treatment advice.

If swallowed: Call a poison control center or doctor for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth if person is unconscious.

If on skin or clothing:
Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center, doctor, or 1-800-999-0297 or after 6 pm EST 1-888-436-4435 immediately for treatment advice.

Have the product container or label with you when calling a poison control center or doctor or going for treatment.

Have the product container or label with you when calling a poison control center or doctor or going for treatment. You may contact 1-800-999-0297 or after 6 pm EST call 1-800-426-4435 for emergency medical information.
DIRECTIONS FOR USE
It is a violation of Federal law to use this product in a manner inconsistent with its labeling. [Precaución al consumidor: si usted no lee inglés, no use este producto hasta que la etiqueta le haya sido explicada ampliamente. (To the User: If you cannot speak English, do not use this product until the label has been fully explained to you.)]

HOW TO APPLY
1. Use Restrictions: USE ONLY ON DOGS. Do not use on cats or other animals. Do not have contact or allow children to have contact with treated area until treatment is completely dry.
2. Remove applicator from package.
3. The dog should be standing or in a comfortable position for easy application.
4. Holding the applicator tube upright, pointing away from face, place thumb and index finger around the applicator tip under the large disk. With other hand, grasp the stem of applicator tip above smaller disk. Press down firmly on small disk until both disks meet, piercing the seal. (See Illustration.)
5. Using the applicator tip, part the hair at the base of the tail and begin applying the product onto the skin in a continuous line from the base of the tail along the center of the back all the way up to the shoulder blades, as shown in the diagram, squeezing the applicator tube until it is empty. Avoid superficial application to the animal’s hair.

6. Discard empty applicator as outlined in the storage and disposal section.
7. Repeat every month, or as recommended by your veterinarian.
8. For optimal treatment, control and prevention of fleas, flea eggs, flea pupae and flea larvae, year-round treatment is recommended.

STORAGE AND DISPOSAL
Do not contaminate water, food or feed by storage or disposal.
PESTICIDE STORAGE: Store in a cool, dry place. Protect from freezing. Keep out of reach of children.
PESTICIDE DISPOSAL AND CONTAINER DISPOSAL: Non-refillable container. Do not reuse or refill this container. If empty: place in trash or offer for recycling, if available. If partially filled: call your local solid waste agency for disposal instructions. Never place unused products down any inodor or outdoor drain.

LIMITED WARRANTY AND LIMITATION OF DAMAGES
Seller warrants that the material conforms to the chemical parameters of the US EPA registration and the label. Seller makes no warranty to the extent consistent with the applicable law, express or implied, other than indicated on the label. Buyer and user assume all risk of use and handling of this material when such use and handling are contrary to the label directions. To the extent consistent with applicable law any damages arising from a breach of this warranty shall be limited to direct damages and shall not include consequential commercial damages such as loss of profit or values.
