**Flea & Tick Conditioning Shampoo for Puppies**
READ ENTIRE LABEL BEFORE EACH USE.

USE ONLY ON PUPPIES OLDER THAN 12 WEEKS OF AGE.

DIRECTIONS FOR USE:

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

This product may be used full strength or diluted with 2 parts water. Thoroughly wet the animal with warm water. Do not apply shampoo around eyes. The total amount of shampoo to be applied is 1 1/3 tablespoons for each 5 lbs of pet's weight. Estimate the total amount of shampoo needed for your pet, then apply shampoo along the back of the animal. Work well into coat starting at the head and working back. Spread lather to include head, neck, legs and feet. Continue to work lather in over the whole animal for 3 to 5 minutes (this is an important part of the grooming procedure). After lather has been worked in over the entire animal, rinse animal thoroughly with warm water. For extremely dirty or scaly animals, the above procedure may be repeated. Repeat every 7 to 10 days, if necessary, for adult flea relief. Flea egg hatch inhibition will last for 28 days.

PRECAUTIONARY STATEMENTS — CAUTION:

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

HUMANS:

Harmful if absorbed through skin. Causes moderate eye irritation. Avoid contact with eyes, skin, or clothing. Wash hands thoroughly with plenty of soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Remove and wash contaminated clothing before reuse.

DOMESTIC ANIMALS:

Do not apply to puppies less than 12 weeks old.

ENVIRONMENTAL HAZARDS

This product is toxic to aquatic organisms, including fish and invertebrates. Drift and runoff may be hazardous to aquatic organisms in water adjacent to treated areas. This product may contaminate water through runoff. This product has a potential for runoff for several months or more after application. Poorly draining soils and soils with shallow water tables are more prone to produce runoff that contains this product. This product is highly toxic to bee populations. Do not apply the product to or allow it to drift to blooming crops or weeds, or be an active area while the blooming area, or be an active area while the blooming area. Do not apply to interdield areas before the bloom high water marks. Do not contaminate water when disposing of equipment or washwaters. See Directions for Use for additional precautions and requirements.
