Orthene 97

EPA REG. NO. 5481-8978
EPA SLN NO. WA-090021

CAUTION
Harmful if swallowed

This label expires and must not be distributed or used in accordance with this SLN registration after December 31st 2023.

DIRECTIONS FOR USE

• It is a violation of federal law to use this product in a manner inconsistent with its labeling.
• This state-specific Section 24(c) labeling must be in the possession of the user at the time of application.
• Follow all applicable directions, restrictions, Worker Protection Standard requirements, and precautions on the EPA registered label for EPA Reg. No. 5481-8978

Apply 1 lb. Orthene 97 per application per acre in 10 to 60 gallons of spray mix by ground as a broadcast application or in 5 to 10 gallons of spray mix by air.

RESTRICTIONS / PRECAUTIONS

1. Do not feed crop residues to livestock or allow animals to graze treated areas.
2. Do not apply more than 2 lb. product (2 lb. a.i./A) per year.
3. For repeat application, user must allow a minimum of 7 days between applications.
4. Do not apply using low pressure handwand equipment.
5. Do not apply to carrots grown for fresh market or processing.
6. FOR FOLIAR APPLICATIONS OF THIS PRODUCT TO A CROP WHERE BEES ARE UNDER CONTRACT TO POLLINATE THAT CROP: Foliar application of this product is prohibited to a crop from onset of flowering until flowering is complete when bees are under contract for
pollination services to that crop unless the application is made to prevent or control a threat to public and/or animal health as determined by a state, tribal, authorized local health department or vector control agency.

7. All carrot seed screenings shall be disposed of in such a way that they cannot be distributed or used for food or feed. The seed conditioner shall keep records of screening disposal for three years from the date of disposal and shall furnish the records to the WSDA forthwith upon request. Disposal records shall consist of documentation from a controlled dumpsite, incinerator, or other equivalent disposal site and shall show the lot numbers, amount of material disposed of, its grower(s) and the date of disposal.

8. No portion of the carrot seed plant, including but not limited to green chop, hay, pellets, meal, whole seed, cracked seed, roots, bulbs, leaves and seed screenings, may be used or distributed for food or feed purposes.

9. Carrot seed shall bear a tag or container label which forbids use of the seed for human consumption or animal feed.

10. Carrot seed may not be distributed for human consumption or animal feed.

11. For use under this SLN, do not apply this product through any type of irrigation system.

**WSDA CONTAINER DISPOSAL GUIDANCE:** Pesticide containers must be properly cleaned prior to disposal. The best time to clean empty pesticide containers is during mixing and loading, because residue can be difficult to remove after it dries. Triple rinse (or pressure rinse) the pesticide container, empty all pesticide rinse water into the spray tank, and apply to a labeled crop or site. Recycling cleaned containers is the best method of container disposal. Information regarding the recycling of empty and cleaned plastic pesticide containers in Washington is available on the WSDA Waste Pesticide Program web site at [http://agr.wa.gov/PestFert/Pesticides/WastePesticide.aspx](http://agr.wa.gov/PestFert/Pesticides/WastePesticide.aspx)

Cleaned containers may also be disposed of in a sanitary landfill, if permitted by the country. Burning is not a legal method of container disposal in Washington
