Net Contents: 1 Gal (3.785 l)

Product Code: 100502207 • RM# 3050314 • 08-1588
READ ENTIRE LABEL BEFORE EACH USE
USE ONLY ON HORSES, PONIES AND FOALS
NOT FOR USE ON HORSES INTENDED FOR SLAUGHTER

DIRECTIONS FOR USE
This is a violation of Federal law to use this product in a manner inconsistent with its labeling.
FOR HORSES USE FULL STRENGTH. This non-oily Insecticide repellent may be
sprayed with a 200-PSI spray, an atomizer, or a large, 8-lb. keg. Kill and repell stable flies, horse
flies, horse flies, deer flies, horse flies, house flies, horn flies, mosquitoes, gnats, ticks, fleas,
chiggers, and lice. Not to be used on horses intended for slaughter.

DIRECTIONS FOR SPRAY USE: Remove excess dirt and dust. Apply light spray mist to coat while brushing lightly against lay of the hair. Avoid spray in eyes and mucous membranes. Apply with sponge or cloth to these areas.

DIRECTIONS FOR SPRAY USE: Thoroughly brush horse to remove excess dirt and dust. Extremely dirty horses should be shampooed, rinsed, and allowed to dry before applying this product. Use a cotton or clean cloth or towel. Apply liberally over areas to be protected. Pay special attention to legs, belly, sholders, ears, and facial areas. Avoid eyes and mucous membranes.

TO KILL AND REPEL FLYING INSECTS IN HORSE QUARRER: Use this product in horse barns and stables to kill and repel stable flies, horse flies, house flies, deer flies, house flies, horn flies, mosquitoes, gnats, ticks (including Deer Ticks), flea, chiggers, and lice. Apply uniformly as either a surface spray or space spray (Fig).

Surface Spraying: Use a good sprayer adjusted to deliver a coarse wet spray. Apply as a coarse wet spray using 1 pint per 1,000 square feet. Direct the spray wherever flies congregate or alight, until surfaces are mottled. treats around doorways, feed storage rooms, windowsills and windows (Fig). Spray around outside of door latches and corners to render area attractive to insects. This helps to repel insects and prevent entrance into building.

Space Spraying: Remove horses prior to application. Before application, close doors, windows, and other openings and shut off all ventilating systems to reduce air movement as much as possible. Apply with a good sprayer adjusted to deliver a fine mist or fog. Direct spray at an upward angle, distributing it uniformly throughout the sprayed area at a rate of 2 fluid ounces per 1,000 square feet (16.9 x 10 x 10). Apply by directing spray toward ceiling and corners until the space is filled with mist. For best results, keep doors and windows closed, when possible, for 10 minutes during spraying and after application. Application must not remain in treated area. After 10 minute treatment period, the area should be opened and ventilated prior to reoccupancy by humans or animals.

Do not use where livestock (other than horses) are housed or fed, or where livestock foods are stored. Do not contaminate water, food, or livestock. Do not use water treatment of livestock once every day.

DIRECTIONS FOR USE
