KNOCK-OUT GNATS™ Granules
BIOLOGICAL LARVICIDE

Active Ingredient:
*Bacillus thuringiensis*, subsp. *israelensis*,
strain AM 65-52, fermentation solids and
solubles .................................................. 37.4%
Other Ingredients ........................................ 62.6%
Total .................................................. 100.0%
Potency: 3000 International toxic units (ITU) per mil-
ligram (Equivalent to 1.36 billion ITU per pound).
The percent active ingredient does not indicate product
performance and potency measurements are not fed-
ernally standardized.

EPA Registration No. 73049-56-56872
EPA Est No. 56872-IN-1

PRECAUTIONARY STATEMENTS
HAZARD TO HUMANS (AND DOMESTIC ANIMALS)
CAUTION
Harmful if inhaled. Avoid breathing dust. Remove contaminated clothing and wash before reuse. Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling.
ENVIRONMENTAL HAZARDS
For terrestrial uses: Do not contaminate water when cleaning equipment or disposing of equipment washwaters. Do not apply directly to treated finished drinking water reservoirs or drinking water receptacles intended for human consumption.

STORAGE AND DISPOSAL
Do not contaminate water, food or feed by storage and disposal.
Storage: Store in a cool [59° - 86°F (15° - 30°C)], dry place.
Pesticide Disposal: Wastes resulting from use of this product may be disposed of on site or at an approved waste disposal facility.
Container Disposal: Nonrefillable container. Do not reuse or refill this container. Completely empty bag into application equipment. Offer for recycling, if available. If recycling is not available dispose of empty bag in a sanitary landfill or by incineration, or if allowed by state and local authorities, by burning. If burned, stay out of smoke.

Directions for Use
It is a violation of Federal law to use this product in a manner inconsistent with its labeling. For any requirements specific to your State or Tribe, consult the agency responsible for pesticide regulation. For use on plants intended for aesthetic purposes and being grown in interior plant scopes and indoor ornamental gardens. Not for use on plants being grown for sale or other commercial use, or for commercial seed production, or for research purposes. Do not apply directly to treated finished drinking water reservoirs or drinking water receptacles. Do not apply this product to the non-agricultural use sites through any type of irrigation system.

Apply Knock-Out Gnats™ Granules with adequate water by soil drench to sufficiently wet the soil surface. Reapply as needed. In situations where all life forms (eggs, larvae, pupae, and adults) are present, such as with existing infestations, make (3) weekly applications at the suggested rate range for heavy infestations. Regular follow-up using suggested light infestation rates will establish a long term maintenance program. Knock-Out Gnats™ Granules is a larvicide and will not control adult gnats, therefore, applications must be timed for a stage of development when larvae are present in the soil. Fungus gnat larvae generally respond to Knock-Out Gnats™ Granules treatment within 24 hours following application. Knock-Out Gnats™ Granules is not known to be phytotoxic to ornamental species. However, since all ornamental plant species have not been evaluated, sensitivity to Knock-Out Gnats™ Granules should be checked on several plants prior to wide scale usage.
