**PRECAUTIONARY STATEMENTS: **

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

**DANGER:** If product is exposed to small amounts of water, it can react to cause explosion or the release of toxic gases.

**WARNING:** May be fatal if inhaled or absorbed through skin.

**DIRECTIONS FOR USE:**

1. **Direct to your pool.**

2. **Do not use pool while it is being treated.**

3. **Turn off the filter pump before beginning application.**

4. **Let chlorine residual from 7.2 to 7.6, total alkalinity from 80 to 120 parts per million.**

5. **The filter pump can be turned on after this product has dropped to 4 ppm or less as determined by a suitable test kit.**

6. **Brush pool and vacuum.**

7. **Repeat the above treatment if necessary.**

8. **Do not use the pool until the chlorine residual has been maintained at 1-4 ppm.**

9. **Adjust the pH to 7.2-7.6.**

10. **Maintain the chlorine residual at 1-4 ppm.**

11. **Do not allow the pool to get dry or without chlorine.**

12. **Do not swim in water for 24 hours after treatment.**

**WARNING:** If product is exposed to small amounts of water, it can react to cause explosion or the release of toxic gases.

**INFOGRAPHICS:**

- Keep away from heat and from flame and burning material (like a lighted cigarette).
- Do not allow this product to contact other water treatment products, food or feed by storage or disposal or cleaning of equipment.
- Do not remove floater or other dispensing device from water for an extended period of time if it contains a tablet or tablet residue.
- Do not induce vomiting unless told to do so by a poison control center or doctor.
- Do not give anything by mouth to an unconscious person.
- Do not mix this product with small amounts of water. Only add for an extended period of time if it contains a tablet or tablet residue.
- Do not remove floater or other dispensing device from water for an extended period of time if it contains a tablet or tablet residue.
- Do not remove floater or other dispensing device from water for an extended period of time if it contains a tablet or tablet residue.
DIRECTIONS FOR USE:

WHY YOU SHOULD USE THIS PRODUCT:

READ ALL PRECAUTIONARY STATEMENTS BEFORE USE.

IN CASE OF EMERGENCY CALL: 1-800-654-6911

UN2468  ACID, DRY

DANGER

• Do not use in the presence of other people or the children of this product.
• Do not allow to become wet or damp before use.
• Wash thoroughly with soap and water after handling and before eating, drinking, cooking, eating, using tobacco or using the toilet.
• Do not wash or handle clothing, bedding, or other materials exposed to this product.
• Do not use near children or pets.

ENVIRONMENTAL HAZARDS:

• This product is toxic to fish, birds, and aquatic organisms. Do not discharge effluent containing this product, other treatment products, to cause fire or explosion, or the release of toxic gases. Do not add water to this product. Add only

PHYSICAL AND CHEMICAL HAZARDS

• Do not use this product in a dispensing device that has been in use.
• Do not use this product in a dispensing device that has been contaminated or damaged.

Arch Chemicals, Inc.

Manufactured for:

GLB® Pool & Spa

1200 Bluegrass Lakes Pkwy.
**PRECAUTIONARY STATEMENTS:**

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS:**

**DANGERS:**

- Extinguish any uncontrolled fire immediately. Avoid breathing dust or fumes. Do not incinerate container or remaining product.
- Use only for swimming pool applications. Do not use on any other color surface, bleaching or damage to the pool may occur.

**WARNING:**

- Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet.
- Keep away from heat and from flame and burning material.
- Do not use on any other color surface, bleaching or damage to the pool may occur.
- Keep in a cool and dry place, out of the reach of children.
- Do not use on pool decks or concrete surfaces.
- Do not use on any other color surface, bleaching or damage to the pool may occur.

**INSTRUCTIONS FOR USE:**

1. To provide optimum product performance, swimmer comfort and crystal clear water, always maintain pH from 7.2 to 7.6, total alkalinity from 80 to 120 parts per million (ppm) and calcium hardness above 200 ppm. Test frequently using a reliable test kit that measures all of the above ranges. Adjust with appropriate product.
2. Do not use pool while in testing.
3. Turn off the filter pump before beginning application.
4. Sprinkle this product directly over those areas where problems may occur. Pour the product into the return line, ensuring that the filter pump is on. This product should not be added to skimmer wells. Test chlorine residual after treatment. Apply 10 lb. per 100,000 gallons, or 0.01 lb. per 1,000 gallons. Repeat the above treatment if necessary.

**STORAGE AND DISPOSAL:**

- Store this product dry in its tightly closed container when not in use. Keep in a cool, dry, well-ventilated area.
- Do not remove floater or other dispensing device from the pool before eating, drinking, chewing gum, using tobacco or using the toilet.
DANGER

Keep out of reach of children. Not for use in or on the exterior of the residence or the exterior of any other structure. Do not allow to come in contact with the contents of any other pool or spa. Do not allow children to play in or near this pool. Do not allow children to use this product.

KEEP OUT OF REACH OF CHILDREN

FOR WHITE PLASTER POOLS ONLY

If swallowed, rinse mouth and water with large amounts of water. If on skin, remove contaminated clothing. If on眼睛, wash with large amounts of water. Do not allow to get into eyes.

PRECAUTIONARY STATEMENTS:

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

• Do not allow this product to get into eyes. Do not allow this product to get into mouth. Do not allow this product to get on skin. Do not allow this product to get on plants. Do not allow this product to get into water.

• Do not allow this product to contact any foreign matter, including other water treatment products.

• Do not allow this product to come in contact with water, to cause fire, explosion, and the release of toxic gases.

• Do not allow this product to be dropped into water.

• Do not allow this product to be added to water.

• Do not allow this product to react to cause explosion or the release of toxic gases. Do not add water to this product. Add only dry material to this product.

• Do not allow this product to be dropped into water.

• Do not allow this product to react to cause explosion or the release of toxic gases.

• Do not allow this product to contact any foreign matter, including other water treatment products.

• Do not allow this product to come in contact with water, to cause fire, explosion, and the release of toxic gases.

• Do not allow this product to be dropped into water.

• Do not allow this product to be added to water.

• Do not allow this product to react to cause explosion or the release of toxic gases. Do not add water to this product. Add only dry material to this product.

• Do not allow this product to be dropped into water.

• Do not allow this product to react to cause explosion or the release of toxic gases.

• Do not allow this product to contact any foreign matter, including other water treatment products.

• Do not allow this product to come in contact with water, to cause fire, explosion, and the release of toxic gases.

• Do not allow this product to be dropped into water.

• Do not allow this product to react to cause explosion or the release of toxic gases. Do not add water to this product. Add only dry material to this product.

• Do not allow this product to be dropped into water.

• Do not allow this product to react to cause explosion or the release of toxic gases.

• Do not allow this product to contact any foreign matter, including other water treatment products.

• Do not allow this product to come in contact with water, to cause fire, explosion, and the release of toxic gases.

• Do not allow this product to be dropped into water.

• Do not allow this product to be added to water.

• Do not allow this product to react to cause explosion or the release of toxic gases. Do not add water to this product. Add only dry material to this product.
DIRECTIONS FOR USE:

1. To provide optimum product performance, swimmer exposure to the product should be maintained for at least 24 hours before the product is removed. 

2. Turn off the filter pump before beginning application. 

3. Sprinkle this product directly over the areas where algae growth is apparent. 

4. The filter pump can be turned on after this product has been applied. 

5. The chlorine residual at 1−4 ppm can be maintained by dropping this product into the pool every 4−8 hours to maintain a total residual of 12 ppm. The dosage rate is 10 lbs per 100,000 gallons. 

6. The dosage rate may be doubled to maintain proper chlorine residuals when colder water temperatures. 

7. Repeat the above treatment if necessary. 

8. Do not use the pool until the chlorine residual has dropped to 4 ppm or less as determined by a suitable test kit. 

9. Do not pre-mix this product. Only add this product directly to your pool. 

10. Maintain the chlorine residual at 1−4 ppm. 

11. The pH of pool water should be maintained between 7.2 to 7.6, total alkalinity from 80 to 120 parts per million (ppm) and calcium hardness above 200 ppm. Test frequently using a reliable test kit that measures all above values. 

12. Do not use this product in a dispensing device that has been used with any other product. 

EMERGENCY HANDLING:

In case of contamination or exposure to the eyes or skin, wash or flush contaminated area for at least 15 minutes. In case of ingestion, do not induce vomiting. Do not give anything by mouth to an unconscious person. Do not get in eyes, on skin or clothing. This product is corrosive and can cause severe injury if swallowed. 

STORAGE AND DISPOSAL:

This product must be stored in its original container. Keep dry. Do not expose to flame or open flame. Nonrefillable container. Do not contaminate food or livestock feed. For disposal, thoroughly wash all equipment and storage containers. Offer for recycling if available. Do not treat waste as household, sewage or solid waste. 

PRECAUTIONARY STATEMENTS:

HAZARDS TO HUMANS AND DOMESTIC ANIMALS:

1. This product is corrosive. Causes irreversible eye damage and throat irritation. Harmful if swallowed. Irritating to nose and throat. 

2. A number of chemicals used in the manufacture of this product is a cancer-causing agent. 

NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM (NPDES) PERMIT:

Please consult your local state pollution control agency for the requirements for obtaining a National Pollutant Discharge Elimination System (NPDES) permit or a National Pollutant Discharge Elimination System (NPDES) permit for your facility. 

FOR DISPOSAL OF A CONTAMINATED OR RECYCLABLE MATERIAL:

Immediately with plenty of water for 15−20 minutes. Call a poison control center or doctor for treatment advice. 

IF ON SKIN OR CLOTHING:

Take off contaminated clothing. Rinse skin thoroughly with water for 15−20 minutes. Remove contact lenses, if present, after the treatment has been completed. Call a poison control center or doctor for treatment advice. 

FIRST AID:

IF IN EYES:

Hold eye open and rinse slowly and gently with water for 15−20 minutes. Call a poison control center or doctor for treatment advice. 

IF INHALED:

Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for treatment advice. 

IF ON SKIN OR CLOTHING:

Take off contaminated clothing. Rinse skin thoroughly with water for 15−20 minutes. Call a poison control center or doctor for treatment advice. 

EMERGENCY HANDLING:

In case of contamination or exposure to the eyes or skin, wash or flush contaminated area for at least 15 minutes. In case of ingestion, do not induce vomiting. Do not give anything by mouth to an unconscious person. Do not get in eyes, on skin or clothing. This product is corrosive and can cause severe injury if swallowed. 

STORAGE AND DISPOSAL:

This product must be stored in its original container. Keep dry. Do not expose to flame or open flame. Nonrefillable container. Do not contaminate food or livestock feed. For disposal, thoroughly wash all equipment and storage containers. Offer for recycling if available. Do not treat waste as household, sewage or solid waste.

IMPORTANT HINTS: In case of contamination or spillage, do not empty container. Do not use the same or any other product in the same area. Do not allow this product to contact other water treatment products, to cause fire, explosion, and the release of toxic gases. Do not add water to this product. Add only as directed on the label.

Note thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet.

Children and women should not be exposed to this material without the protection of an adult. Always keep this material out of the reach of children.

EMERGENCY HANDLING:
In case of contamination or spillage, do not empty container. Do not use the same or any other product in the same area. Do not allow this product to contact other water treatment products, to cause fire, explosion, and the release of toxic gases. Do not add water to this product. Add only as directed on the label.

KEEP OUT OF REACH OF CHILDREN

DIRECTIONS FOR USE:

WHY YOU SHOULD USE THIS PRODUCT:
This product will kill and help prevent future growth of black algae. It is most effective when used in conjunction with GLB® pool care products.

WHERE YOU SHOULD USE THIS PRODUCT:
This product is effective when used in conjunction with GLB® pool care products.

8. Directly apply this product to your pool. Use this product in a manner consistent with its labeling.
9. Use this product in a manner consistent with its labeling.
10. Maintain the chlorine residual at 1−4 ppm.
11. Do not allow this product to get damp or wet before use.
12. Do not use this product in a dispensing device that has been used with any other product.
13. Do not pre-mix this product. Only add this product directly to your pool.

OTHER INGREDIENTS: 1%

TOTAL: 100%
Spot Gone II
BLACK ALGAE TREATMENT & STAIN REMOVER
FOR WHITE PLASTER POOLS ONLY

DANGERS TO HUMANS AND DOMESTIC ANIMALS

Do not allow this product to contact any foreign material, including other water treatment products, in any water or sewage system or to enter any waterway.

Do not allow this product to contact other water treatment products.

WARNING: This product will kill and help prevent future growth of black algae. It is most effective when used in conjunction with acid, disinfection products and other approved water treatment products. USE ONLY ON WHITE PLASTER POOLS.

WHY YOU SHOULD USE THIS PRODUCT:

This product will provide consistent with its labeling.

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

DIRECTIONS FOR USE:

1. Open in a well-ventilated area. Do not breathe dust or fumes.

2. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or applying the product.

3. Avoid contact with eyes, skin, and clothing. Do not allow water, mud, or dirt to settle on the product. Do not use in areas with flowing water or shallow water.

4. Do not use near fish or food-producing waters.

5. The filter pump can be turned on after this product has been in the pool for at least 8 hours.

7. Repeat the above treatment if necessary.

8. Do not remove floater or other dispensing device from water.

9. Adjust the pH to 7.2−7.6.

10. Maintain the chlorine residual at 1−4 ppm.

11. Do not allow the chlorine residual to drop below 1 ppm in the absence of an automatic stabilizer.

12. Do not pre-mix this product. Only add this product to water or any water treatment equipment. FOR DISPOSAL OF A CONTAMINATED OR REMOVED LITER.

1. Do not breathe dust or fumes. Do not allow water, mud, or dirt to settle on the product. Do not use in areas with flowing water or shallow water.

2. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or applying the product.

3. Avoid contact with eyes, skin, and clothing. Do not allow water, mud, or dirt to settle on the product. Do not use in areas with flowing water or shallow water.

4. Do not use near fish or food-producing waters.

5. Do not allow the chlorine residual to drop below 1 ppm in the absence of an automatic stabilizer.

6. Do not pre-mix this product. Only add this product to water or any water treatment equipment.

7. Do not breathe dust or fumes. Do not allow water, mud, or dirt to settle on the product. Do not use in areas with flowing water or shallow water.

8. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or applying the product.

9. Avoid contact with eyes, skin, and clothing. Do not allow water, mud, or dirt to settle on the product. Do not use in areas with flowing water or shallow water.

10. Do not allow the chlorine residual to drop below 1 ppm in the absence of an automatic stabilizer.

11. Do not pre-mix this product. Only add this product to water or any water treatment equipment.

12. Do not breathe dust or fumes. Do not allow water, mud, or dirt to settle on the product. Do not use in areas with flowing water or shallow water.

EMERGENCY HANDLING:

• If product is swallowed, induce vomiting unless otherwise directed by a poison control center or doctor for treatment advice. Have person sip a glass of water if able to swallow.

• If product is inhaled, move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice.

• If product is on skin or clothing, take off contaminated clothing. Rinse skin with large amounts of water. Call a poison control center or doctor for treatment advice.

• If in eyes, hold eye open and rinse slowly and gently with large amounts of water. Call a poison control center or doctor for further treatment advice.

• Keep away from heat and from flame and burning material (like a lighted cigarette).

• Do not allow this product to contact other water treatment products.

• Do not use near fish or food-producing waters.

• Do not allow the chlorine residual to drop below 1 ppm in the absence of an automatic stabilizer.

• Do not pre-mix this product. Only add this product to water or any water treatment equipment.

• Do not breathe dust or fumes. Do not allow water, mud, or dirt to settle on the product. Do not use in areas with flowing water or shallow water.

• Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or applying the product.

• Avoid contact with eyes, skin, and clothing. Do not allow water, mud, or dirt to settle on the product. Do not use in areas with flowing water or shallow water.
