WEED & FEED
FOR A BEAUTIFUL WEED-FREE LAWN

28-0-4
Kills more than 250 Weeds (as listed)
Controls Dandelion, White Clover, Plantain, Chickweed, Spurge & Many Other Listed Weeds
Quick Greening and Extended Feeding

Net Wt. 13 lbs. (5.89 kg)

Active Ingredients:
2,4-D, 3-(2,4-dichlorophenoxy) propionic acid equivalent per ton or 0.75%, CAS: 1322-32-3,
Chlorpyrifos, 3,5,6-trichloro-2-pyridinyl pyridinium chloride equivalent per ton or 1.157%, CAS: 14680-77-8,
Pendimethalin, 1-(2-chloro-4-methylphenoxy) propan-2-amine equivalent per ton or 0.277%, CAS: 1918-08-3

Other Ingredients:

QUALITY PRODUCTS SINCE 1945

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Do not allow pets to enter treated areas, or be present during treatment or until it is safe to enter.

Avoid using products that may contaminate the treated areas.

INSTRUCTIONS: Pennington Warm and Feed is a combination of three proven weed killers - 2,4-D, metolachlor, and diquat. This herbicide controls a wide range of lawn weeds, including clover, chickweed, knotweed, plantain, and other species. In addition, a 28-0-4 fertilizer provides a supply of plant nutrients.

USE PRECAUTIONS: Do not use on dandelions, cockroaches, "floristan" St. Augustine grass, clover, bermudagrass, or turfgrass where clover is present in the mix. Do not use this product on flower gardens, ornamentals, ornamental grasses, or ornamental plants. Do not allow pets to enter treated areas, or be present during treatment or until it is safe to enter.

HOW MUCH TO APPLY: For use in Kentucky Bluegrass, Fescues, and other types of grass, apply 2.6 pounds of product per 1,000 square feet of turfgrass. A second application may be made in approximately 30 days. The maximum number of broadcast applications per treatment site is 2 per year.

WHEN TO APPLY: Apply when broadleaf weeds are in the early stages of growth and before the onset of flowering. Apply the herbicide in the morning when the dew is on the grass. Apply the herbicide before the sun has risen. Avoid applying when temperatures are consistently above 90°F.

Potentially hazardous materials may be necessary if there is danger or the use of a pesticide is required. Always use the proper personal protective equipment when handling pesticides.

APPLICATION INSTRUCTIONS:

1. Mix the liquid with water to a 1 to 2 ratio before application.

2. Apply the mixture to the target area evenly, avoiding direct contact with the plants. Do not allow pets to enter treated areas, or be present during treatment or until it is safe to enter.

3. Apply when broadleaf weeds are in the early stages of growth and before the onset of flowering. Apply the herbicide in the morning when the dew is on the grass. Apply the herbicide before the sun has risen. Avoid applying when temperatures are consistently above 90°F.

4. Do not apply when the temperature is below 50°F.

5. Do not use it in very dry conditions.

SPREADER SETTINGS

SPREADERS AND CALIBRATIONS: Always apply with a misty or drop spreader to distribute the granules evenly.

COVERAGE: To determine how much you need to apply, multiply the length of your lawn by its width. This equals your total square footage. Subtract the non-lawn areas (house, garage, etc.). One bag covers up to 2,000 square feet. It is important to follow the directions as indicated on the product label. Over-application may cause injury to your lawn. Spreader settings are approximate. Differences may occur due to condition of soil, speed at which applied, and other factors. Be sure to check spreader settings before applying.
**SPREADER SETTINGS**

**STORAGE AND DISPOSAL**

**PESTICIDE STORAGE:** Store in original container and keep any bags containing unused product in a locked storage area inaccessible to children and domestic animals.

**CONTAINER DISPOSAL:** If Empty: Do not reuse this container. Place in trash or offer for recycling if available. If partially filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

**PRECAUTIONARY STATEMENTS**

**Hazard to Humans and Domestic Animals**

**CAUTION:** Causes moderate eye irritation. Harmful if swallowed. Avoid contact with eyes or clothing. When using this product, wear long-sleeved shirt, long pants, socks and shoes. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco.
APPLICATION INSTRUCTIONS:
1. Mow lawn to normal height 1 to 2 days before application.
2. Water lawn thoroughly at least 1 to 2 days before application to sustain moisture until the next watering (see step 3).
3. Apply when broadleaf weeds are young and actively growing, preferably in the morning when dew is on the grass. At the time of application, moisture on the weed leaves from dew, rain, or irrigation/watering aids in control. If grass is not moist at time of application, sprinkle lightly with water before applying product.
4. Avoid applying when temperatures are consistently above 80°F.
5. Do not wash from weed leaves for 1 to 2 days after application. At this time, a thorough watering should be made.

SPREADER SETTINGS

SPREADERS AND CALIBRATION: Always apply with a rotary or drop spreader to distribute the granules evenly. Never apply by hand.

For Rotary Spreaders: Operate at intervals corresponding to the swath width. For drop spreaders: Overlap the wheel tracks to ensure complete coverage.

RATE: 2.6-8.0 x 1000 SQ. FT.

For best results, apply in a circular path starting on the outside and working toward the center overlapping slightly to ensure complete coverage.

PESTICIDE STORAGE: Store in original container and keep any bag containing unused product in a locked storage area inaccessible to children and domestic animals.

CONTAINER DISPOSAL: If Empty: Do not reuse this container. Place in trash or offer for recycling if available. If partially filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Causes moderate eye irritation. Harmful if swallowed. Avoid contact with eyes or clothing.

When using this product, wear long-sleeved shirt, long pants, socks, and shoes. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco.

FIRST AID

If in eyes: Hold eye open and rinse slowly and gently with water for 15 - 20 minutes.

If swallowed: Call a poison control center or doctor for treatment advice.

If inhaled: Remove to fresh air. If not improved, seek medical attention.

If on skin: Wash with soap and water. If not improved, seek medical attention.

IF ON CLOTHING: Remove clothing immediately. Wash all contaminated clothing before reuse.

In the event of an emergency, call 800-424-9300.

BROADCAST SPREADERS

For best results, apply in a circular path starting on the outside and working toward the center overlapping slightly to ensure complete coverage.

DROP SPREADERS

Apply 2 strips along each end. Then apply along length of lawn, overlapping slightly and shutting off the spreader before each turn at edge of border strips.

STOP! READ THE ENTIRE LABEL. FIRST. OBSERVE ALL PRECAUTIONS AND FOLLOW DIRECTIONS CAREFULLY.  

DIRECTIONS FOR USE  

It is a violation of federal law to use this product in a manner inconsistent with its labeling. Do not allow pets (other than application) or pets on treatment area during application. Do not enter treatment areas until dust has settled. 

Not for use on turf being grown for sale or other commercial use as sod, or for commercial seed production, or for research purposes.  

INSTRUCTIONS: Pennington Weed and Feed is a combination of three proven weed killers - 2,4-D, monocroup, and dicamba. This herbicide controls a wide range of lawn weeds, including dandelion, clovers, black walnut, bear grass, and many others commonly found in home lawns. In addition, a 28-0-4 fertilizer provides a supply of plant nutrients. 

USE PRECAUTIONS: Do not use on dichondra, carpetgrass, ‘Pinecrest’ St. Augustinegrass, creeping bentgrass, or turfs where desirable covers are present. Do not apply this product to newly seeded lawns until well-established or after the second or third mowing. Do not use this product on flowers, vegetables, groundcovers, gardens or landscape plantings including shrubs and vines. Do not go over specified dosage for any area and do not apply this product within the drip line of, or over surface soils of, trees, shrubs, and other ornamentals. Reseeding or overseeding areas may occur three (3) weeks after the application of this product. 

HOW MUCH TO APPLY: Apply Pennington Weed and Feed as soon as practical after mowing. Do not apply this product to areas with dense grasses, such as Kentucky bluegrass, fescue or, perennial ryegrass, common Bermudagrass, zoysiagrass, St. Augustinegrass, centipedegrass, hybrid Bermudagrasses, and coastal Bahiagrass. Apply 2.5 pounds of product per 1,000 square feet of turfgrass. A second application may be made in approximately 30 days. The maximum number of broadcast applications per treatment site is 2 per year. 

WHEN TO APPLY: Apply when broadleaf weeds are actively growing in spring or early fall. Apply when the air is calm to ensure uniform coverage and avoid drift onto flowers, vegetables, and ornamental shrubbery. 

Possible re-emergence may be necessary if lawn is heavily overrun by weeds. If adverse low moisture conditions prevail, or if weeds are a result of poor growth. 

APPLICATION INSTRUCTIONS: 

1. Mix lawn to normal height 1 to 2 days before application. 
2. Water lawn thoroughly at least 1 to 2 days before application to sustain moisture until the next watering (see step 3). 
3. Apply when broadleaf weeds are young and actively growing, preferably in the morning when dew is on the grass. The optimum period for treatment is mid-summer through mid-winter. Use the amount of water necessary to thoroughly wet the soil. 
4. Avoid applying when temperatures are continuously above 90°F. 
5. Do not wash lawn when 1 to 2 days after application. At this time, a thorough watering should be made. 

SPREADER SETTINGS AND APPLICATION: Always apply with a rotary or drop spreader to distribute the granules evenly, never apply by hand. 

Coverage: To determine how much you need to apply, multiply the length of your lawn by its width. This equals your total square footage. Divide the number of square feet by 1,000 to get the number of pounds of product needed. 

IMPORTANT: It is important to follow directions as indicated on this product to ensure proper coverage and maximized weed control. 

RECOMMENDED USES: Apply Pennington Weed and Feed to control weeds in ornamental grasses such as lawn, landscape, or turfgrass areas. 

NO USE WHERE: Keep out of the reach of children and pets. 

STORAGE AND DISPOSAL: Store in original container and keep any bags containing unused product in a locked storage area inaccessible to children and domestic animals. 

CONTAINER DISPOSAL: If empty, Do not reuse this container. Place in trash or offer for recycling if available. If partially filled, call your local solid waste agency for disposal instructions. Never pour unused product down any indoor or outdoor drain. 

PRECAUTIONARY STATEMENTS 

Hazard to Humans and Domestic Animals 

CAUTION: Causes moderate eye irritation. Harmful if inhaled. Avoid contact with eyes or clothing. 

When using this product, wear long-sleeved shirt, long pants, socks and shoes. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco. 

FIRST AID 

If ingested: 

• Hold lips open and raise head and body of victim for 15 - 30 minutes. 
• Remove constricting clothing. 
• Provide artificial respiration if necessary. Consult Poison Control Center or doctor for treatment advice. 

IF IN EYES: 

• Hold eye open and rinse slowly and gently with water for 15 - 30 minutes. 
• Remove constricting clothing. 
• Consult Poison Control Center or doctor for treatment advice. 

IF SWALLOWED: 

• Call a poison control center or doctor immediately for treatment advice. 
• Do not induce vomiting unless told to do so by the poison control center or doctor. 
• Do not give anything by mouth to an unconscious person. 

Handle products carefully and wash hands after handling. 

Storage: Store in original container and keep any bags containing unused product in a locked storage area inaccessible to children and domestic animals. 

Use only chemical-resistant gloves when handling this product. 

Information regarding the contents and levels of metals in this product is available on the Internet at http://www.ewg.org. 

GUARANTEES: See back, for guarantee on this product at the bottom of the purchase price, only when used according to directions. 

LIMITED WARRANTY AND DISCLAIMERS: FOR FREE SAMPLES ONLY. The manufacturer neither makes nor uses any other express or implied warranties, including any warranty of merchantability or fitness for a particular purpose, which are expressly disclaimed. In the case of a major or individual loss, the manufacturer is not liable for incidental, consequential, or special damages resulting from the use or handling of this product. If these terms are not acceptable, do not use this product. The manufacturer reserves the right to withdraw this offer at any time, and its products not be considered for inclusion in any standard list. The terms of the Limited Warranty and Disclaimer cannot be varied by oral or written statements or agreements at the point of sale or elsewhere.

QUALITY PRODUCTS SINCE 1945

WEEDS & FEED
FOR A BEAUTIFUL WEED-FREE LAWN
COVERS 15,000 SQ. FT.

STOPI READ THE ENTIRE LABEL FIRST. OBSERVE ALL PRECAUTIONS AND FOLLOW DIRECTIONS CAREFULLY.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
Do not allow people (other than applicator) or pets on treatment area during application. Do not enter treatment areas until dust has settled.
Not for use on turf being grown for sale or other commercial use as sod, or for commercial seed production, or for research purposes.

INSTRUCTIONS: Pennington Weed and Feed is a combination of three proven weed killers -- 2,4-D, meso-prop-p, and dicamba. This herbicide controls a wide range of lawn weeds, including dandelion, chickweed, knotweed, plantain, herbil, spurge and many others commonly found in home lawns. In addition, a 28-0-4 fertilizer provides a supply of plant nutrients.

USE PRECAUTIONS: Do not use on dichondra, carpetgrass, "Floratam" St. Augustinegrass, creeping bentgrass, or turfgrass whose desirable clavens are present.
Do not apply this product to newly seeded grasses until well-established or after the second or third mowing.
Do not use this product on flowers, vegetables, groundcovers, gardens or landscape plantings including shrubs and trees. Do not exceed specified dosage for any area and do not apply this product within the drip line of, or over surface roots of, trees, shrubs, and other ornamentals.
Read and following labels may occur three (3) weeks after the application of this product.

HOW MUCH TO APPLY: For use on Kentucky bluegrass, fescue spp., perennial ryegrass, common Bermudagrass, Zoysia S. Augustinensis, creeping bentgrass, hybrid Bermuda grass and colonial bentgrass.
Apply 2.6 pounds of product per 1,000 square feet of turfgrass. A second application may be made in approximately 30 days. The maximum number of broadcast applications per treatment site is 2 per year.

WHEN TO APPLY: When broadleaf weeds are actively growing in spring or early fall. Apply when the air is calm to ensure uniform coverage and avoid spreading granules onto flowers, vegetables, and ornamental shrubbery.
Possible retreatment may be necessary if lawn is heavily overrun by weeds, if adverse low moisture conditions prevail, or if weeds are in a state of poor growth.

APPLICATION INSTRUCTIONS:
1. Mow lawn to normal height 1 to 2 days before application.
2. Water lawn thoroughly at least 1 to 2 days before application to sustain moisture until the next watering (see step 3).
3. Apply when broadleaf weeds are young and actively growing, preferably in the morning when dew is on the grass. At the time of application, moisture on the weed leaves from dew, rainfall or irrigation/watering aids in control. If grass is not moist at time of application, sprinkles lightly with water before applying product.
4. Avoid applying when temperatures are consistently above 90°F.
5. Do not wash off weed leaves for 1 to 2 days after application. At this time, a thorough watering should be made.

SPREADER SETTINGS

STORAGE AND DISPOSAL

PESTICIDE STORAGE: Store in original container and keep any bags containing unused product in a locked storage area inaccessible to children and domestic animals.

CONTAINER DISPOSAL: If Empty: Do not reuse this container. Place in trash or offer for recycling if available. If partially filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

PRECAUTIONARY STATEMENTS
Hazard to Humans and Domestic Animals

CAUTION: Causes moderate eye irritation. Harmful if swallowed. Avoid contact with eyes or clothing. When using this product, wear long-sleeved shirt, long pants, socks and shoes. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco.
5. Do not wash from weed leaves for 1 to 2 days after application. At this time, a thorough watering should be made.

**SPREADER SETTINGS**

**SPREADERS AND CALIBRATION:** Always apply with a rotary or drop spreader to distribute the granules evenly. Never apply by hand.

**Coverage** - To determine how much you need to apply, multiply the length of your lawn by its width. This equals your total square footage. Deduct all non-lawn areas (house, gardens, etc.). One bag covers up to 5,000 square ft.

**IMPORTANT:** It is important to follow directions as indicated on this quality lawn care product as over-application may cause injury to your lawn. Spreader settings are approximate. Differences may occur due to condition of spreader, speed at which applied and roughness of area treated. Be sure to check spreader before beginning, adjusting if necessary. Consult Owner’s Manual. Never apply by hand.

**SINGLE PASS:**
For rotary spreaders: Operate at intervals corresponding to the swath width.
For drop spreaders: Overlap the wheel tracks to ensure complete coverage.

- For best results, apply this product uniformly and avoid streaks, skips or overlaps. Walk at a steady pace to ensure even coverage. Close the spreader opening when turning to change directions or when stopping.

**RATE:** 2.6 LBS/1000 SQ. FT.

Have the product container or label with you when calling a poison control center or doctor or going for treatment.
You may also contact 1-800-424-9300 for emergency medical treatment information.

**Environmental Hazards**

This product is toxic to aquatic invertebrates. Drift or runoff may adversely affect aquatic invertebrates and nontarget plants.

To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. Sweeping any product that lands on a driveway, sidewalk, or street, back onto the treated area of the lawn or garden will help to prevent run off to water bodies or drainage systems.
