For control of aquatic weeds in ponds; lakes; reservoirs; marshes; bayous, drainage ditches; non-irrigation canals; and rivers and streams that are quiescent or slow-flowing.

Active ingredients:
- 2-chloro-4-(trifluoromethyl)phenol (triclopyr) white water lily (Nuphar spp.)
- 2,4-dichlorophenoxyacetic acid spicatum x sibiricum AQUATIC PLANTS

Other Ingredients:
- sodium bicarbonate
- triethylamine salt

PRECAUTIONARY STATEMENTS

HAZARD TO HUMANS AND DOMESTIC ANIMALS:
Causes substantial, but temporary eye injury. Hasten if contacted. Avoid contact with and in clothing. Do not get in eyes or on clothing. Wear protective eyewear, gloves, face shield or safety glasses. Wash thoroughly with soap and water after handling and before eating, drinking, or smoking. Remove any clothing and equipment that might not be visible may injure susceptible broadleaf plants.

Equipment:
- herbicides in aquatic sites. Where states have more stringent regulations, they must be observed.

If applying at wind speeds less than 3 mph, the applicator must determine if:
- a) conditions of temperature inversion exist, or
- b) sensitive areas (including, but not limited to, residential areas, bodies of water, known habitat for non-target species, non-target crops) near enough to be

Renovate MAX G is formulated on biodegradable granules that, when applied to water bodies, immediately deliver Renovate MAX G down to the critical area for

Fish breathe dissolved oxygen in the water and decaying weeds also use oxygen. When treating continuous, dense weed masses, it may be appropriate to treat

STORAGE AND DISPOSAL

Pesticide Disposal:
- Do not dispose of this product in or near bodies of water.
- Do not dispose of this product in or near public water supplies.
- Do not contaminate water, food, or feed by storage or disposal.
- Wash or decontaminate immediately upon leaving treated area or area of spillage.
- Do not store this product in a manner that allows access by children or pets.

WARNING / AVISO

If used no insecticide is adequate, because a persistent paraquat is used in treatment selected details. If you do not understand the label, find someone to explain it to you in detail.

NOTE: Read the entire label before using. Use only according to label directions. Before applying any aquatic herbicide, read and understand this product, meet Federal and Condition of Sale. Warranty disclaimers: Read this label of sale and Location of Renovate at the end of the label. If there are unacceptable, return to source company.

Keep Out Of Reach Of Children

If swallowed:
- Give 2 cups of water or milk.
- Call a poison control center or doctor immediately.
- Do not induce vomiting unless told to do so by a doctor or other health care provider.
- Do not give anything by mouth to an unconscious person.

If in eyes:
- Hold eye open and rinse slowly and gently for 15 - 20 minutes. Remove any contact lenses if worn. Cover eyes with a clean cloth if necessary.
- Call a poison control center or doctor for help.

If on skin:
- Wash thoroughly with soap and water if able to do so. For non-crop areas not labeled for direct treatment with triclopyr and 2,4-D (e.g., landscape ornamentals) or for

Do not apply Renovate MAX G through any type of irrigation system.

For control of aquatic weeds in ponds; lakes; reservoirs; marshes; bayous, drainage ditches; non-irrigation canals; and rivers and streams that are quiescent or slow-flowing.

Application:

Aerial Application (Helicopter Only)

Pounds per minute =

†† Retreatment may be needed to achieve desired level of control.
