Winter Algaecide
Kills and Prevents Blue-Green, Green, Yellow and Black Algae

Precautionary Statements:
Hazards to Humans and Domestic Animals. Caution. Harmful if swallowed. Avoid contact with eyes, skin or clothing. In case of contact immediately flush eyes or skin with plenty of water. Get medical attention if irritation persists. Wash thoroughly with soap and water after handling before eating, drinking, chewing gum, or using tobacco. Remove contaminated clothing and wash clothing before reuse.

First Aid:
Have the product container or label with you when calling a poison control center or doctor, or giving first aid. If swallowed: Call poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not give anything by mouth to an unconscious person. Do not induce vomiting unless told to do so by the poison control center or doctor.

If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor immediately for treatment advice.

If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for further treatment advice.

If inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

Environment Hazards: This product is toxic to fish. Treated effluent should not be discharged in lakes, ponds or public water.

Directions for Use:
It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Dosage Rates:
Every Three Months: Add 16 fl. oz. of this product per 10,000 gallons pool water (or 500 ml per 40,000 L) will prevent algae growth in all pool types.

Severe Algae Treatment: Add 32 fl. oz. of this product per 10,000 gallons pool water (or 1 Liter per 40,000 L).

General Directions:
1. Maintain pool water in the pH range 7.2 to 7.8. Total alkalinity range 80 ppm to 120 ppm. Adjust pH to 7.2 for severe algae.
2. Ensure that filtration system is working properly and that filtration cycle is adequate.
4. Calculate the volume of this product required for your pool.
5. Add the product directly to deep end of the pool and preferably in front of a water return. Dilute in a bucket of pool water when adding to pools with plaster finishes.

This product must be used along with adequate levels of an EPA registered sanitizer (e.g. chlorine) to control bacteria.

Storage and Disposal:
Do not contaminate water, food, or feed by storage and disposal.

Storage: Store in original, tightly closed container in a cool, dry place out of reach of children. Do not store in direct sunlight.

Disposal:
If empty: Nonrefillable. Do not reuse this container. Place in trash or offer for recycling if available.
If partly filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

Note: Buyer assumes all responsibility for safety and use not in accordance with directions.
