ACTIVE INGREDIENTS:
Contains 2.6 lbs. tebuconazole per gallon

OTHER INGREDIENTS:
H-1,2,4-triazole-1-ethanol

TOTAL 100.0%

RAXIL is a registered trademark of Bayer

DIRECTIONS FOR USE

STOP – READ THE LABEL BEFORE USE
KEEP OUT OF REACH OF CHILDREN

CAUTION

PESTICIDE DISPOSAL

Non-refillable Containers
Rigid, Non-refillable containers small enough to shake (i.e., with capacities equal to or less than 5 gallons).

To meet U.S. Federal Seed Act (Sphacelotheca reiliana)
Soilborne and Seedborne Head smut
Barley:
Mildew, Early Season Suppression of Wheat Leaf Rust
Fusarium
Rhizoctonia
Stinking Smut, Flag Smut, Loose Smut, Early Season Septoria

Oats:
Season Suppression of Barley Leaf Rust
Fusarium

Refer to the section on this label for the treatment of each disease.

GROUP FUNGICIDE

This pesticide is toxic to mammals, fish and aquatic invertebrates. Do not apply directly to water, or to areas breathing vapor or spray mist. Wear long sleeved shirt, long pants or coveralls, and chemical-resistant gloves. Harmful if swallowed, inhaled or absorbed through the skin. Avoid contact with skin, eyes and clothing. Avoid

• Call a poison control center or doctor for further treatment advice.

IF INHALED:
• Rinse skin immediately with plenty of water for 15-20 minutes.
• Take off contaminated clothing.
• Do not give anything by mouth to an unconscious person.
• Do not induce vomiting unless told to do so by a poison control center or doctor.

IF SWALLOWED:
• Pour or pump rinsate into application equipment or mix tank. Fill the container at least 10 percent full with water. Collect rinsate for later use or disposal. Insert pressure rinsing nozzle in the side of the container, and rinse at about 40 psi for 10 seconds after the flow begins to drip. Repeat this procedure two more times.

Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

PRODUCT USE$: RAXIL 2.6F Seed Treatment Fungicide belongs to resistance group 3 (see resistance group number on label for the crop). Do not use treated seed for feed, food or oil purposes. Barley, wheat and oat green forage may be grazed or used as feed. Triticale: Treat as wheat. This product is toxic to birds – do not contaminate water, food or feed by storage or disposal. Use in a manner that minimizes the risk to beneficial insects and the environment. This product is not a food or feedstuff. Do not use where crops may be incorporated into food or feed. Do not apply to or within 100 feet of an adjacent reservoir, drainage ditches, ditches, or dikes (including natural watercourses, artificial drainage ditches, and ditches or dikes constructed for drainage purposes), or directly on water, or onto any equipment or structures that will come into contact with water. Do not contaminate water, food or feed by storage or disposal. Do not contaminate water, food or feed by storage or disposal.

MATERIAL SAFETY DATA SHEET - RAXIL 2.6F

**21 CFR Chapter I, Section 2.25 requires grain seed treated with poisonous substances in excess of recognized dye** to the resulting slurry. Mix the slurry thoroughly with the seeds to provide uniform coverage.

APPLICABLE MILLS

Rate of Application

Applying RAXIL 2.6F as a water-based slurry through standard slurry or mist-type commercial seed treating equipment. Apply RAXIL 2.6F as a seed treatment using a water-based dilution of 0.37 – 0.74 lbs. of active ingredient per bushel. Purchase of this material does not confer any rights under patents governing this product or the use thereof in conjunction with any other product or under any other process. No claims are made to guarantee germination of carry-over seed. However, it is impossible to eliminate all risks associated with the use of this product. Crop injury, ineffectiveness or other loss or damage from the use of this product may be caused by inadequate mixing, handling, application, or storage of this product. No agent of Bayer CropScience, no claims are made to guarantee germination of carry-over seed. If terms are not acceptable, return the unopened product container at once.

Read the entire Directions for Use, Conditions, Disclaimer of Warranties and Limitations of Liability before using this PRODUCT.

The component in RAXIL 2.6F Seed Treatment Fungicide belongs to resistance group 3 (see resistance group number on label for the crop). Do not use treated seed for feed, food or oil purposes. **ENVIRONMENTAL HAZARDS**

This product may contaminate water through drift of spray in wind. This product has toxic effects to aquatic organisms in neighboring areas. Do not contaminate water when disposing of equipment washwater or soil. This pesticide is toxic to mammals, fish, and aquatic invertebrates. Do not apply directly to water, or to areas that lead to surface waters, lakes, ponds, or streams.

Do not contaminate water, food or feed by storage and disposal.

For soilborne and seedborne head smut, Fusarium, Foot Rot, Early Season Suppression of Barley Leaf Rust, Foot Rot, Early Season Suppression of Wheat Leaf Rust, and Root Rot, Early Season Disease. Refer to the label for the disease control rates recommended for the crop.

**Surface Water Advisory:**

This product has toxic effects to aquatic organisms in neighboring areas. Do not contaminate water when disposing of equipment washwater or soil. This pesticide is toxic to mammals, fish, and aquatic invertebrates. Do not apply directly to water, or to areas that lead to surface waters, lakes, ponds, or streams.

**STORAGE AND DISPOSAL**

PRECAUTIONARY STATEMENTS

**IF INHALED:**

- Call a poison control center or doctor for treatment advice.
- Hold eye open and rinse slowly and gently with water for 15-20 minutes.

**IF ON SKIN**

- Do not give anything by mouth to an unconscious person.
- Do not induce vomiting unless told to do so by a poison control center or doctor.
- Have person sip a glass of water if able to swallow.

**IF IN EYES**

- Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

**Poison Control Center Telephone No. 1-800-334-7577.**

**Pressure rinsing the container before final disposal is the responsibility of the person disposing of the container.**

**Refillable Containers**

Top Discharge IBC, Drums, Kegs (e.g.– Snyder 120 Next Gen, Bonar B120, Drums, and Kegs).

Valve to promote more complete product removal. Completely remove the top lid of the IBC. Use water pressurized to at least 40 psi into the container. The IBC must be drained for 10 seconds after the flow begins to drip. Hold container upside down over application equipment or mix tank or store rinsate for later use or disposal. Drain for 10 seconds after the flow begins and pour or pump rinsate container (or equivalent) promptly after emptying.

To meet U.S. EPA requirements for slurry use, a container of 120 gallons or less may be dispensed in one or more sealed (not over 6.5 gallons) boxes, drums, or kegs. A container larger than 120 gallons may be dispensed in multiple drums or kegs, provided the following conditions are met:

- All equipment must be rinsed
- Each box, drum, or keg must be filled to minimize the headspace
- The rinsate must be stored or disposed of in an environmentally responsible manner
- The slurry rate must be documented in writing

**SEED TREATMENT:**

Prepare a slurry by mixing the specified dosage in 9 to 20 fl oz of water per 100 lbs of seed. Add 1 gallon of water for every 100 lbs of seed to be treated. After the seed is immersed in the slurry for the required time, remove the seed from the slurry and let it drain. Apply seed to seed treatment equipment. Uniform treatment equipment. Uniform.

**Tolerances be suitably colored with an EPA approved dye, such as one of the dyes listed in 40 CFR Section 180.1001 (c) or Federal Register 42 FR 39164 (d).
