</thead>
<tbody>
<tr>
<td>Flowerbeds</td>
<td>2 fl. oz. (4 TBSP) in 2 gallons of water treats 12 sq. ft.</td>
</tr>
<tr>
<td>Azaleas, Camellias, Rhododendrons, and Other Shrubs</td>
<td>1 fl. oz. (2 TBSP) in 1 quart of water per foot of plant height</td>
</tr>
</tbody>
</table>

FOR BEST RESULTS

- Begin using this product in the spring when plants are actively growing.
- Repot every 6 weeks for a total of 3 applications per year. In areas where disease occurs frequently and the soil is sandy, the application interval can be shortened to 4 - 5 weeks for a total of 4 applications per year.
- Ensure the product gets down into the rootzone by:
  - pulling mulch away from plants to be treated.
  - building a well around individual plants.
  - pouring the drench solution slowly to allow the soil to absorb it.
- Keep rose, flower, and shrub beds clean.
- This minimizes harborage sites for insects and diseases (for additional cultural practices, consult your County Extension Service).

HOW THIS PRODUCT WORKS

Water moves the product down into the root zone where it is taken up and moved into the plant. The entire plant, even new growth, is protected against insects and disease. Rain or watering cannot wash off this long-lasting systemic protection.

Do Not Allow Children and Pets to Enter the Treated Area Until It Has Dried

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

FOR OUTDOOR RESIDENTIAL USE ONLY

Read and follow these directions when using:
- Do not apply near lakes, streams, rivers or ponds.
- Do not apply to plants grown for food.
- Do not treat plants grown in pots, flower boxes or other containers.
- Do not apply to soils which are waterlogged or frozen.
- Measuring teaspoons such as measuring cups and measuring spoons must not be used for any food or drinking water purposes after use with this product.

SHAKE WELL BEFORE USE:
- Fill a bucket or watering can with the appropriate amount of concentrate (add first) and water (add last).
- Single Plants
- Slowly pour as close to the base of the plant as possible, being careful not to get on leaves.
- Flowerbeds:
- Sprinkle over the tops of the plants and cover the entire area.
- NOTE: The Powdered Solution is diluted with more water than the Single Plant Solution to ensure safety to plant leaves when sprinkling over the top.
- When finished, rinse the bucket/watering can with clean water and pour onto treated area.

INSECTS CONTROLLED

Adelgids
Aphids
Black Vine Weevil Larvae
Borers
Plateheaded (including Bronze Birch and Alder Borers)
Roundheaded (including Eucalyptus Longhorned Borers)
Japanese Beetles, Adult
Lace Bugs
Leaf Beetles (including Elm Leaf Beetles and Viburnum Leaf Beetles)

Leafhoppers (including Glassy-winged Sharptoots)
Leaffeaters (including Birch Leafminers and Holly Leafminers)
Mayfly Larvae
Pinus Tip Moth Larvae
Paykila
Royal Palm Bugs
Swarmy Larvae
Scales (including Armored Scale (suppression), and Soft Scale)
Thrips
Whiteflies

Si usted no entiende la etiqueta, busque a alguien para que se la explique a usted en detalle. (TO THE USER: If you do not understand the label, find someone to explain it to you in detail.)
WHERE TO USE
Roses, flowers, irises, lilacs, azaleas, camellias, rhododendrons and other shrubs

WHEN TO USE
Every 6 weeks throughout the growing season (See seasonal limitations in Directions for Use.)

COURAGE
Treats up to 16 roses & other shrubs or 200 square feet of flowerbed (12 oz.)

STORAGE AND DISPOSAL
Storage Conditions:
Store in original container in a cool, dry place, out of the reach of children, preferably a locked storage cabinet.
Protect from freezing.
If Empty:
• Do not reuse empty container
• Place in trash
If Partly Filled:
• It is best to use all of the product in accordance with label directions
• If it is necessary to dispose unused product, please call your local solid waste agency.
• Never place unused product down any indoor or outdoor drain.

FIRST AID
IN CASE OF ACCIDENTAL...
IMMEDIATELY...
Contact with Eyes:
• Hold eye open and rinse slowly and gently with water for 15-20 minutes.
• Remove contact lens, if present, after the first 3 minutes, then continue rinsing the eye.
• Call a poison control center or doctor for treatment advice.

Note: When calling a poison control center, have the product label accessible. If seeking treatment at an emergency room or doctor’s office bring this label to show medical personnel. For Medical Emergency Assistance, call the National Pesticide Information Center 1-800-858-7378.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
CAUTION
• Causes moderate eye irritation.
• Avoid contact with eyes or clothing
• Wear long-sleeved shirt, long pants, shoes, socks, and gloves made of any waterproof material.
• Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco will reduce exposure.

ENVIRONMENTAL HAZARDS
• Do not apply directly to water.
• This product is highly toxic to aquatic invertebrates.
• Do not contaminate water when disposing of equipment washwaters or rinsate.

LIMITED WARRANTY
Seller warrants that this product complies with the specifications expressed in this label. To the extent consistent with applicable law, Seller makes no other warranties, and disclaims all other warranties, express or implied, including but not limited to warranties of merchantability and fitness for the intended purpose. To the extent consistent with applicable law, Seller’s liability or default, breach or failure under this label shall be limited to the amount of the purchase price. To the extent consistent with applicable law, Seller shall have no liability for consequential damages.
