wescodyne® plus
CONCENTRATED BROAD SPECTRUM IODOPHOR FOR USE AS A ONE-STEP CLEANER-DISINFECTANT

ACTIVE INGREDIENT:
Iodine ........................... 1.75%

INERT INGREDIENTS ............ 98.25%

Total .......................... 100.00%

From Alpha-(p-nonylphenyl)-omega-hydroxypoly(oxyethylene)-iodine complex

PRECAUTIONARY STATEMENTS: Hazardous to humans and domestic animals.

KEEP OUT OF REACH OF CHILDREN

CORROSIVE. Causes irreversible eye damage. Harmful if swallowed. Do not get in eyes or on clothing. Avoid contact with skin. Wear goggles or face shield. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse.

ENVIRONMENTAL HAZARDS: This product is toxic to fish and aquatic organisms. Do not contaminate water by discharge. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other water unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge.

This product is toxic to fish and aquatic organisms. Do not contaminate water by discharge. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other water unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge.

For guidance, contact your State Water Board or Regional Office of the EPA.

NET CONTENTS AFTER DILUTION: 110 oz. (3250 ml)

DISPOSAL OF INFECTIOUS MATERIAL:
Blood, body fluids, cleaning materials and clothing should be autoclaved and disposed of according to federal, state, and local regulations for infectious waste disposal.

Virucide*, Bactericide, Fungicide, Deodorizer

Meets OSHA’s Bloodborne Pathogens Act requirements. Used as directed, Wescodyne Plus is effective in hard water (up to 400 ppm as CaCO3) and in 5% organic serum Bold against the following viruses, bacteria and pathogenes: VHS 1*, Vaccinia*, Herpes Simplex Type 1*, and Influenza A2/Japan 305*; is bactericidal against Salmonella enterica, Staphylococcus aureus, Pseudomonas aeruginosa, and E. Coli. Wescodyne Plus is effective against LRnteria mono­cytogenes on pre-cleaned food contact surfaces. Used in hard water (up to 400 ppm CaCO3), Wescodyne Plus is effective against the HIV-1 Virus on pre-cleaned environmental surfaces and objects previously soiled with blood or other body fluids. (This product is not to be used as a terminal sterilant; high level disinfectant on any surface or instrument that (1) is introduced directly in the human body either into or in contact with the bloodstream or normally sterile area of the body, or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body.)

DIRECTIONS FOR USE:
If it is a violation of Federal Law to use this product in a manner inconsistent with its labeling, Not for Residential Use.

ONE STEP CLEANING AND DISINFECTING: Wescodyne Plus may be used to clean and disinfect hard nonporous surfaces. Remove heavy soil deposits before applying the disinfecting solution. Dilute contents of bottle to mark with room temperature potable water. Using a solution of 1.1 ounces (32.5 ml) Wescodyne Plus per 110 ounces water or 0.16 oz (4.7 ml) Wescodyne Plus per pint (16 ounces) of water (dilutions give 175 ppm iodine), immerse objects in disinfecting solution, or apply solution with a sponge or cloth or coarse spray. Allow a 10 minute contact time with disinfecting solution.

PERSONAL PROTECTION: Clean up should always be done wearing protective latex gloves, gowns, masks and eye protection.

CLEANING PROCEDURE: Blood and other body fluids containing HIV-1 must be thoroughly cleaned from surfaces and objects before application of this product. Thoroughly wet hard surfaces with a solution containing 1.1 ounces (32.5 ml) Wescodyne Plus per 110 ounces water or 0.16 oz (4.7 ml) Wescodyne Plus per pint (16 ounces) of water (dilutions give 175 ppm iodine). Completely immerse objects in the disinfecting solution; avoid entrapment of air bubbles. Allow at least 10 minutes of contact time.

DISPOSAL OF INFECTIOUS MATERIAL: Blood, body fluids, cleaning materials and clothing should be autoclaved and disposed of according to federal, state, and local regulations for infectious waste disposal.

DANGER

KILLS HIV ON PRE-CLEANED ENVIRONMENTAL SURFACES/OBJECTS PREVIOUSLY SOILED WITH BLOOD/BODY FLUIDS in health care settings or other settings in which there is an expected likelihood of soiling of inanimate surfaces/objects with blood or body fluids, and in which surfaces/objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of human immuno-deficiency virus Type 1 (HIV-1) (associated with AIDS).

SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST HIV-1 ON SURFACES AND OBJECTS PREVIOUSLY SOILED WITH BLOOD OR OTHER BODY FLUIDS: following:

HIV-1 Virus on pre-cleaned environmental surfaces and objects previously soiled with blood or other body fluids. (This product is not to be used as a terminal sterilant; high level disinfectant on any surface or instrument that (1) is introduced directly in the human body either into or in contact with the bloodstream or normally sterile area of the body, or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body.)
