ULTIMA

T.K.O.

- Kills bacteria
- Destroys organic contaminants
- Controls algae

Multi-Action

ACTIVE INGREDIENT:
Calcium Hypochlorite 73%
OTHER INGREDIENTS: 27%
TOTAL 100%
Minimum Available Chlorine . . . . 70%

KEEP OUT OF REACH OF CHILDREN
DANGER

Contamination or improper use may cause fire or explosion or the release of toxic gases. Do not allow product to contact any foreign matter, including other water treatment products. If product is exposed to small amounts of water, it can react violently to produce heat and toxic gases and spatter. Do not add water to this product. Add only into water. Highly Corrosive. Causes skin and eye damage. May be fatal if swallowed.

Read all Precautionary Statements and First Aid before use.

DIRECTIONS FOR USE:
This is a violation of Federal law to use this product in a manner inconsistent with its labeling. READ ALL PRECAUTIONARY STATEMENTS BEFORE USE.

HOW TO USE: Add the recommended dosage of this product during evening hours while the filter pump is running. When adding this product to your pool, broadcast the product evenly over a wide area in the deepest part of the pool. Use entire contents when opened. If any granules settle to the bottom of the pool, use brush to disperse.

WATER BALANCE: For best product performance, swimmer comfort, and crystal clear water. Maintain pH in the range of 7.2 to 7.6. Maintain total alkalinity in the range of 80 to 120 parts per million (ppm). Maintain calcium hardness above 200 ppm, use a test kit that measures all these ranges. Use pool care products to make adjustments. Follow label directions for each product.

No entry into treated pools is prohibited above 4 ppm due to risk of bodily harm, OPENING YOUR POOL: For best results, use the "WATER BALANCE" section on this package before treatment. Always adjust and maintain pH in the 7.2 to 7.6 range. Follow "SHOCK TREATMENT/SUPERCHLORINATION" directions on this package. Allow 30 minutes for products to disperse. Test for available chlorine residual with a pool test kit. Repeat treatment as needed.

SHOCK TREATMENT/SUPERCHLORINATION: For best results, see "WATER BALANCE" and "HOW TO USE" sections above before treatment. Every 7 days, or as necessary to prevent pool problems. Shock treatment is performed by chlorinating the pool by adding 6-18 ounces of this product per 10,000 gallons of water to provide 5 to 10 ppm available chlorine. One bag treats up to 10,000 gallons of water. Additional shock treatments may be required to correct problems which are caused by visible algae, high borating loads, heavy wind and rainfall storms. Additional shock treatments may also be required to correct problems such as unpleasant odors and eye irritation. Check the available chlorine with a suitable test kit.

ALGAE CONTROL: Follow "SHOCK TREATMENTS/SUPERCHLORINATION" directions on this label.

Add this product in close as possible to any algicidal or the sides or bottom of the pool. If necessary, repeat the treatment. To prevent possible staining or bleaching, follow the instructions immediately after treatment. Thoroughly clean pool by brushing surface of algae growth vacuum and cycle through filter. For preventative algae control, use your preferred Ultima algae control product regularly. Follow label directions on the algae control.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
DANGER: Highly corrosive. Causes irreversible eye damage and skin Burns. May be fatal if swallowed. Initial irritation to nose and throat. Open in a well-ventilated area. Avoid breathing dust and fumes. Do not get in eyes, on skin or on clothing. Do not handle with bare hands. Wear gloves or face shield and use rubber gloves when handling. For additional protection of skin, wear long sleeves and long pants. Remove and wash contaminated clothing before reuse. Only use utensils that are thoroughly clean and dry. Irritating to nose and throat. Avoid breathing dust and fumes.

WASH thorougly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or going to restroom.

Physical and chemical hazards: If product is exposed to small amounts of water, it can react violently to produce heat and toxic gases and spatter. Do not add water to this product. Add only into water. Do not allow to become wet or damp before use.

Can react with other materials, including other water treatment products, to cause intense fire, explosion, and the release of toxic gases.
