- explosion, and the release of toxic gases. • Keep all foreign matter, including other water treatment products, to cause intense fire,
Note to Physician:

IF INHALED:
Move person to fresh air. If not breathing, give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice. Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

IF SWALLOWED:
Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person. Contamination or improper use may cause fire or explosion or the release of toxic gases. Do not add water to this product. Do not allow product to contact any foreign matter, including other water treatment products, away from this product. Do not get in eyes, on skin or on clothing. Do not handle with bare hands. Only use utensils that are thoroughly clean and dry. Irritating to nose and throat. May be fatal if swallowed. Irritating to nose and throat. Probable mucosal damage may contraindicate the use of gastric lavage. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person. Call a poison control center or doctor for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor.

FIRST AID: IF IN EYES:
Take off contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. If eye irritation persists, get medical advice immediately. It may cause eye irritation. Avoid breathing dust and fumes. Do not get in eyes, on skin or on clothing. Do not handle with bare hands. Only use utensils that are thoroughly clean and dry. Irritating to nose and throat.

HAZARDS TO HUMANS AND DOMESTIC ANIMALS:

• Controls algae
• Destroys organic contaminants

In case of contamination or decomposition –

EMERGENCY HANDLING:

Saturate affected area with large amounts of water. Flood with large amounts of water. Do not reseal container. Immediately remove container to an open and well-ventilated outdoor area by itself. Flood with large amounts of water. Do not reseal container. Immediately remove container to an open and well-ventilated outdoor area by itself. Flood with large amounts of water. Do not reseal container. Immediately remove container to an open and well-ventilated outdoor area by itself. Flood with large amounts of water.

DIVERSION / RECLAMATION:

Nonrefillable container. Do not reuse or refill this container. Rinse empty container before sending to a public landfill. Do not contaminate food or feed by storage or other purpose. If any granules settle to the bottom of the pool, use brush to disperse. For best results, see "How to Use Ultima Shock Treatment / Superchlorination." This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, ponds, streams, estuaries, oceans or public waters unless in accordance with the National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product into lakes, ponds, streams, estuaries, oceans or public waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge.
